Social Justice Art Marit Dewhurst, 2014-11-01 In this lively and groundbreaking book, arts educator Marit Dewhurst examines why art is an effective way to engage students in thinking about the role they might play in addressing social injustice. Based on interviews and observations of sixteen high schoolers participating in an activist arts class at a New York City museum, Dewhurst identifies three learning processes common to the act of creating art that have an impact on social justice: connecting, questioning, and translating. Noting that one of the challenges of social justice art education has been the difficulty of naming effective strategies that can be used across multiple contexts, Dewhurst outlines core strategies for an activist arts pedagogy and offers concrete suggestions for educators seeking to incorporate activist art projects inside or outside formal school settings. *Social Justice Art* seeks to give common language to educators and others who are looking to expand and refine their practices in an emerging field, whether they work in art education, social justice programming, or youth development.

Scenic Art for the Theatre Susan Crabtree, Peter Beudert, 2012-11-12 Now in its Third Edition, *Scenic Art for the Theatre: History, Tools, and Techniques* continues to be the most trusted source for both student and professional scenic artists. With new information on scenic design using Photoshop, Paint Shop Pro, and other digital imaging softwares, this text expands to offer the developing artist more step-by-step instruction and more practical techniques for work in the field. It goes beyond detailing job functions and discussing techniques to serve as a trouble-shooting guide for the scenic artist, providing practical advice for everyday solutions.

Inside Art Mary Brown, 2002 An explanation of the way in which the study of art can act as a trigger for change in prisoners. This stimulating work is based on conversations with artists, including people in prison or who were once imprisoned. It charts the importance of creative activity as an instrument of personal change. As the author is compelled to say, Individuals can and do change. If there is a message in these stories, this is it: we need to listen, understand, and act upon it. The physical walls around prisons must not become mental walls, keeping us from understanding the worlds of those within. We are all members of the society that builds the prison walls.
