Art Technology A Symposium On Classica:

ICCROM Master List of Acquisitions International Centre for the Study of the Preservation and the Restoration of Cultural Property. Library,1984 **The Horse and Jockey from Artemision** Séan A. Hemingway,Seán Hemingway,2004-07-08 In 1928 and again in 1937 parts of a large scale bronze horse and nearly complete jockey were recovered from the sea off Cape Artemision in Greece where they had gone down in a shipwreck These original Hellenistic sculptures known together as the Horse and Jockey Group from Artemision are among the very few surviving bronze sculptures from antiquity Se n Hemingway has been allowed by the National Museum in Athens to investigate the horse and jockey statuary group as no one ever has before and in this book combining archaeological and art historical methods of investigation he provides the first in depth study of this rare and beautiful monument New technical analyses of the statues by Helen Andreopoulou Mangou form an appendix to the volume Hemingway begins with an introduction to Hellenistic bronze statuary and what we know about this extraordinary class of ancient sculpture He then recounts with riveting detail the discovery and painstaking restoration of the statue group describing the technique of its creation and carefully reviewing scholarly knowledge and speculation about it He also provides a valuable compendium of what is known about ancient Greek horse racing the most prestigious and splendid of all Greek sports After a full consideration of all the available evidence he speculates further about the work s original meaning and function His study provides a glimpse of the excellence achieved by Hellenistic bronze sculptors and it will become the definitive resource on this unique sculpture from ancient Greece **The Sanctuary of Demeter and Kore** Gloria S. Merker,2000 About 24 000 figurines and fragments have been found on Acrocorinth and this study greatly increases our understanding of the way in which this artform developed over the centuries

Encyclopedia of the History of Classical Archaeology Nancy Thomson de Grummond,2015-05-11 With 1 125 entries and 170 contributors this is the first encyclopedia on the history of classical archaeology It focuses on Greek and Roman material but also covers the prehistoric and semi historical cultures of the Bronze Age Aegean the Etruscans and manifestations of Greek and Roman culture in Europe and Asia Minor The Encyclopedia of the History of Classical Archaeology includes entries on individuals whose activities influenced the knowledge of sites and monuments in their own time articles on famous monuments and sites as seen changed and interpreted through time and entries on major works of art excavated from the Renaissance to the present day as well as works known in the Middle Ages As the definitive source on a comparatively new discipline the history of archaeology these finely illustrated volumes will be useful to students and scholars in archaeology the classics history topography and art and architectural history *The Derveni Krater* Beryl Barr-Sharrar,2008 This beautifully illustrated book represents the first full publication of the most elaborate metal vessel from the ancient world yet discovered Found in an undisturbed Macedonian tomb of the late 4th century B C the volute krater is a tour de force of highly sophisticated methods of bronze working An unusual program of iconography informs every

area of the vessel Snakes with copper and silver inlaid stripes frame the rising handles wrapping their bodies around masks of underworld deities On the shoulder sit four cast bronze figures on one side a youthful Dionysos with an exhausted maenad on the other a sleeping Silenos and a maenad handling a snake In the major repousse frieze on the body a bearded hunter is associated with Dionysian figures What was the function of this extraordinary object And what is the meaning of the intricate iconography The krater is placed in its Macedonian archaeological context as an heirloom of the descendants of the man named in the Thessalian inscription on its rim and in its art historical context as a highly elaborated early 4th century version of a metal type known in Athens by about 470 B C

The Theoretic Life - A Classical Ideal and its Modern Fate

Alexander S. Rosenthal-Pubul,2019-01-01 In this work Alexander Rosenthal Pubul presents a broad examination of the ancient philosophical question What is the good life while addressing how the liberal arts can help us to answer this question Greek philosophy distinguished between the noble what is good in itself from the merely useful good for something else From thence follows the distinction between the liberal arts which pursue such noble goods and the mechanical arts which are only instrumental For Aristotle the most noble and excellent good is wisdom itself Hence the theoretic life devoted to the love of wisdom for its own sake philosophy is the highest and the most excellent This work theorizes the origins of modernity in a rebellion against this Greek conception resulting in a complete inversion of the classical hierarchy Sir Francis Bacon reconceiving the purpose of knowledge as power enthroned technology over philosophy and the liberal arts The unfolding of the modern Baconian revolution progressively sidelines the liberal arts as practical economic and technical utility become the standard of value In assessing this problem the book engages in a capacious journey across disciplines like philosophy history art politics and science It is also a veritable tour across the Western intellectual tradition including Socrates Plato Aristotle Cicero Seneca Thomas Aquinas Bacon Descartes Hume Kant Nietzsche Dewey Berdyaev Einstein and Heidegger It pleads the urgent need to preserve the humanizing cultural ideals of the ancient classics against the modern tyranny of utility and the dangers of a new barbarism

Ars Electronica 2023 Festival for Art, Technology, and Society

Stocker,Markus Jandl,2024-06-30 Towards a New Social Contract Ars Electronica 2023 is dedicated to the complex questions of truth and the concept of ownership in this digital age In doing so the festival navigates the central questions of our time The focus is on how our perception of authentic and original is being transformed and whether truth can be owned and how this relates to digitalization and the rapidly developing performance of artificial intelligence How can the achievements of a tool that is so much based on the globally collective raw material of knowledge and creativity be made accessible to everyone and be harnessed to the benefit of all This comprehensive volume brings together the works of artists scientists developers designers entrepreneurs and activists from around the world and delves deep into the themes of the festival offering insights
