dawn of the twenty first century *Theories of Art Today* Noël Carroll,2000 What is art The contributors to *Theories of Art Today* address the assertion that the term art no longer holds meaning They explore a variety of issues including aesthetic and institutional theories of art feminist perspectives on the philosophy of art the question of whether art is a cluster concept and the relevance of tribal art to philosophical aesthetics Contributors to this book include such distinguished philosophers and historians as Arthur Danto Joseph Margolis and George Dickie Literature and Truth Richard Lansdown,2017-11-01 In *Literature and Truth* Richard Lansdown continues a discussion concerning the truth bearing status of imaginative literature that pre dates Plato The book opens with a general survey of contemporary approaches in philosophical aesthetics and a discussion of the contribution to the question made by British philosopher R G Collingwood in particular in his *Speculum Mentis* It then offers six case studies from the Romantic era to the contemporary one as to how imaginative authors have variously dealt with bodies of discursive thought such as Stoicism Christianity evolution humanism and socialism It concludes with a reading going in the other direction in which the diary of Bronislaw Malinowski is seen in terms of the anthropologist s reading habits during his legendary Trobriander fieldwork **A Sense of the World** John Gibson,Wolfgang Huemer,Luca Poggi,2012-11-12 A team of leading contributors from both philosophical and literary backgrounds have been brought together in this impressive book to examine how works of literary fiction can be a source of knowledge Together they analyze the important trends in this current popular debate The innovative feature of this volume is that it mixes work by literary theorists and scholars with work of analytic philosophers that combined together provide a comprehensive statement of the variety of ways in which works of fiction can engage questions of worldly interest It uses the problem of cognitive value to explore literature s contribution to ethical life literature s ability to engage in social and political critique the role narrative plays in opening up possibilities of moral aesthetic experience and selfhood This remarkable volume will attract the attention of both literature and philosophy scholars with its statement of the various ways that literature and life take an interest in one another *Good: An Introduction to Ethics in Graphic Design* Lucienne Roberts,2019-01-10 Consider this simple conundrum is it possible to be a bad good designer or a good bad designer for that matter If the answer is yes then which is preferable and what does this reveal about the relationship between ethics and design practice *Good An Introduction to Ethics in Graphic Design* seeks to answer these questions Graphic design is in ethical flux Good comes at a time of growing disenchantment with style led design solutions and the pursuit of self expression alone and yet vacuous design judgements are still made without any real analysis of the criteria used The terms good and bad are repeatedly applied without qualification whilst the relationship between personal and professional ethics is far too contentious to do any more than give cursory consideration Despite recent manifestos and themed publications on design for good graphic designers have yet to examine what such terms really mean in a time of relativism it has been far too divisive to do so Good takes philosophy as its starting point but is not a philosophy book It seeks to marry abstract ideas with practical application removing some of the

mystique that surrounds philosophy and highlighting its relevance for us all Designers are people This book seeks to engage designers in a debate about their profession and in an analysis of their value and worth The decisions we make define us in our ethical choices we reveal who we are

Passionate Views Carl Plantinga,Greg M. Smith,1999-04-23 The movie theater has always been a place where people come together to share powerful emotional experiences from the fear generated by horror films and the anxiety induced by thrillers to the laughter elicited by screwball comedies and the tears precipitated by melodramas Indeed the dependability of movies to provide such experiences lies at the center of the medium s appeal and power Yet cinema s ability to influence even manipulate the emotions of the spectator is one of the least explored topics in film theory today In *Passionate Views* thirteen internationally recognized scholars of film studies philosophy and psychology explore the emotional appeal of the cinema Employing a novel cognitive perspective the volume investigates the relationship between genre and emotion explores how film narrative music and cinematic techniques such as the close up are used to elicit emotion and examines the spectator s identification with and response to film characters An impressive range of films and topics is brought together by Carl Plantinga and Greg M Smith including the success of *Stella Dallas* and *An Affair to Remember* as tearjerkers the power of *Night of the Living Dead* to inspire fear and disgust the sublime evoked in *The Passion of Joan of Arc* *Aguirre the Wrath of God* and *The Children of Paradise* the emotional basis of film comedy as seen in *When Harry Met Sally* the use of cinematic cues in *Raiders of the Lost Ark* and *Local Hero* to arouse emotions the relationship between narrative flow and emotion in *Once Upon a Time in the West* and *E T* the emotive use of music in *The Elephant Man* and *A Clockwork Orange* *Stranger than Paradise* s sense of timing desire and resolution in *Casablanca* audience identification with the main characters in *Groundhog Day* and *The Crying Game* portrayal of perversity in *The Silence of the Lambs* *Flaming Creatures* and *Shivers* and empathy elicited through closeups of actors faces in *Yankee Doodle Dandy* and *Blade Runner* *Passionate Views* offers a new approach to our

understanding of film and will be of interest to anyone fascinated by the emotional power of motion pictures and their relationship to the central concerns of our lives as well as by the techniques filmmakers use to move an audience

Aesthetics of Everyday Life Curtis L. Carter, Liu Yuedi, 2014-10-02 As a new trend in aesthetics appearing concurrently in the West and the East in the last ten years the aesthetics of everyday life points to a growing diversification among existing methodologies for pursuing aesthetics alongside the shift from art based aesthetics The cultural diversity manifest in global aesthetics offers common ground for the collaborative efforts of aesthetics in both the West and the East Given the rapidly growing interest and its potential for attracting new audiences extending beyond the more narrowly focused traditions of twentieth century analytic and environmental aesthetics it stands to command its own share of attention in the future of aesthetic studies The aesthetics of everyday life has become a stream of thought with a global ambition This interest has led to numerous systematic and in depth works on this topic some of which were conducted by the authors represented in this volume A salient feature of this book is that it not only represents the recent developments of the aesthetics of everyday life in the West but also highlights the interaction between scholars in the West and the East on this topic Thus the project is a contribution toward mutual progress in the collaboration between Western and Eastern aesthetics What distinguishes this book from other anthologies and monographs on this topic is that it reconstructs the aesthetics of everyday life through cultural dialogue between the West and the East with a view to building a new form of aesthetics of everyday life as seen from a global perspective At present the aesthetics of everyday life as a newly emergent approach to aesthetics may encounter skepticism among aestheticians accustomed to the rigors of analytic philosophers who prefer to discuss aesthetics at the level of abstract concepts and argument and who tolerate the particulars of experience mainly as illustrations But there is no reason to abandon the pursuit of the aesthetics of everyday life in the face of such objections On the contrary there are many benefits to gain in bringing aesthetics to bear on a wider sphere of human life made possible through efforts to show the relevance of aesthetics to a broader range of human actions

Artistic Creation and Ethical Criticism Ted Nannicelli, 2020 Artistic Creation and Ethical Criticism investigates an idea that underpins the ethical criticism of art but is rarely acknowledged and poorly understood namely that the ethical criticism of art involves judgments not only of the attitudes a work endorses or solicits but of what artists do to create the work The book pioneers an innovative production oriented approach to the study of the ethical criticism of art one that will provide a refined philosophical account of this important topic as well as conceptual tools that can guide future philosophizing and criticism

The Artful Species Stephen Davies, 2012-11-29 Explores the idea that our aesthetic responses and art behaviors are connected to our evolved human nature reaching back hundreds of thousands of years to our humanoid ancestors Examines human aesthetic interest in animals decouples human beauty from mate selection and weighs the arts as biological social or mixed adaptations

I Wanna be Me Theodore Gracyk, 2001 Gracyk grapples with the ways that rock shapes limits and expands our notions of who

we can be in the world He sees rock as a mass art open ended and open to diverse but not unlimited interpretations Recordings reach millions drawing people together in communities of listeners who respond viscerally to its sound and intellectually to its messages As an art form that proclaims its emotional authenticity and resistance to convention rock music constitutes part of the cultural apparatus from which individuals mold personal and political identities Going to the heart of this relationship between the music's role in its performers and fans self construction Gracyk probes questions of gender and appropriation How can a feminist be a Stones fan or a straight man enjoy the Indigo Girls Does borrowing music that carries a racial identity always add up to exploitation a charge leveled at Paul Simon's Graceland Rang es through forty years of rock history and offer s a trove of anecdotes Publisher description **Art and Entertainment** Andy Hamilton,2024-02-29

Philosophers have discussed art or artistic practices such as poetry since ancient times But systems of art and entertainment appeared only in the modern era in the West during the 18th and 19th centuries And philosophers have largely neglected the concept of entertainment In this book Andy Hamilton explores art and entertainment from a philosophical standpoint He argues against modernist theory that art and entertainment are not opposites but form a loosely connected conceptual system Against postmodernism however he insists on their vital differences Hamilton begins by questioning the received modernist view examining artist entertainers including Jane Austen Charles Dickens Louis Armstrong and Billie Holiday Entertainment he argues is by nature audience centred but so is art in a different way Thus while art should pass the test of time entertainment must pass the test of its own time it has to entertain at the time it is produced Art and entertainment are inter dependent concepts and must be understood together with other aesthetic concepts including criticism genius canons and design These concepts form the subject of later chapters of this book where Hamilton develops a meritocratic position that is neither elitist nor populist He also addresses the contemporary charge of cultural appropriation and qualifies it An innovative feature of the book is the inclusion of dialogues with artists critics and academics that help to recast or reformulate the debate **Art and Entertainment A Philosophical Exploration** is essential reading for those working in art and aesthetics and will also be of interest to those in related disciplines such as cultural studies music and film studies with an interest in entertainment **Aesthetics and the Philosophy of Art** Peter Lamarque,Stein Haugom Olsen,2018-12-06
