Astrology, Magic, and Alchemy in Art Matilde Battistini, 2007 From antiquity to the Enlightenment astrology magic and alchemy were considered important tools to unravel the mysteries of nature and human destiny As a result of the West's exposure during the Middle Ages to the astrological beliefs of Arab philosophers and the mystical writings of late antiquity these occult traditions became rich sources of inspiration for Western artists In this latest volume in the popular Guide to Imagery series the author presents a careful analysis of occult iconography in many of the great masterpieces of Western art calling out key features in the illustrations for discussion and interpretation Astrological symbols decorated medieval churches and illuminated manuscripts as well as fifteenth century Italian town halls and palaces The transformational zymology of magic and alchemy that enlivened the work of a wide range of Renaissance artists including Bosch Brueghel Durer and Caravaggio found renewed expression in the visionary works of nineteenth century artists such as Fuseli and Blake as well as in the creative output of the twentieth century's Surrealists

Most artists earn very little Nevertheless there is no shortage of aspiring young artists Do they give to the arts willingly or unknowingly Governments and other institutions also give to the arts to raise the low incomes But their support is ineffective subsidies only increase the artists poverty The economy of the arts is exceptional Although the arts operate successfully in the marketplace their natural affinity is with gift giving rather than with commercial exchange People believe that artists are selflessly dedicated to art that price does not reflect quality and that the arts are free But is it true This unconventional multidisciplinary analysis explains the exceptional economy of the arts Insightful illustrations from the practice of a visual artist support the analysis      The Novels and Miscellaneous Works of Daniel De Foe: Life and adventures of Duncan Campbell.
