Louise Grace Shaw

1939 The Making Of The Second World War:

1939 ,1973 The Making of the Second World War Anthony P. Adamthwaite,2013-08-21 First published in 1979 In this text the Adamthwaite aims at leading students through the maze of documentation surrounding the Second World War His book combines a critical assessment of recent research and writing with a painstaking selection of the key documents needed for a clear understanding of the policies that led to war It contains the first student selection of British French German Italian and Soviet documents many of which are translated for the first time Though emphasis falls on the years 1935 9 material is also included for the period 1929 35 **A Bibliography of British History, 1914-1989** Keith

Robbins,American Historical Association,Royal Historical Society (Great Britain),1996 Containing over 25 000 entries this unique volume will be absolutely indispensable for all those with an interest in Britain in the twentieth century Accessibly arranged by theme with helpful introductions to each chapter a huge range of topics is covered There is a comprehensive index The Oxford Illustrated History of World War II R. J. Overy,2015 World War Two re assessed for a new generation from the 1930s through to the beginnings of the Cold War A stimulating and thought provoking new interpretation of one of the most terrible episodes in world history **Czechoslovakia in a Nationalist and Fascist Europe, 1918-1948** Mark

Cornwall,R J W Evans,2007-06-14 These fourteen essays present fresh and original writing on the history of Czechoslovakia a state created in 1918 but a victim of both Hitler and Stalin This highly accessible volume containing many new insights provides major case study material for researchers and students of nationalism fascism and international relations **The Origins of the Second World War** R. J. Overy,1987 The Origins of the Second World War explores the reasons why the Second World War broke out in September 1939 and not sooner and why a European war expanded into world war by 1941

Origins of the Second World War Victor Rothwell,2001 Victor Rothwell examines the origins of World War II from the flawed peace settlement in 1919 to the start of the true world war at Pearl Harbor in 1941 He asks many important questions Why did the cause of peace advance in the 1920s only to be stopped in its tracks and threatened with reversal by the Great Depression what was the nature of Nazi thinking about war foreign policy and the policy of appeasement that sought to accommodate the Third Reich without again going to war He also examines the events in the Far East at the time and draws a contrast between the role of the US and the Far East throughout the 1930s Copyright Libri GmbH All rights reserved

The Oldest Ally Glyn Stone,1994 Well crafted eloquently written and its arguments about the primacy of strategy in British diplomatic thinking compelling Breaks new historiographical ground **ALBION** An account of British Portuguese diplomatic relations between 1936 and 1941 The Domestic Bases of Grand Strategy Richard N. Rosecrance,Arthur A. Stein,1993 This book explores the idea of grand strategy and offers a full blown critique both theoretical and empirical of the gaps and inconsistencies that weaken modern realist theory Grand strategy the authors maintain is determined as much by domestic politics as by international pressures *The Oxford Handbook of European History, 1914-1945* Nicholas

Doumanis,2016 The period spanning the two World Wars was unquestionably the most catastrophic in Europe s history Despite such undeniably progressive developments as the radical expansion of women s suffrage and rising health standards the era was dominated by political violence and chronic instability Its symbols were Verdun Guernica and Auschwitz By the end of this dark period tens of millions of Europeans had been killed and more still had been displaced and permanently traumatized If the nineteenth century gave Europeans cause to regard the future with a sense of optimism the early twentieth century had them anticipating the destruction of civilization The fact that so many revolutions regime changes dictatorships mass killings and civil wars took place within such a compressed time frame suggests that Europe experienced a general crisis The Oxford Handbook of European History 1914 1945 reconsiders the most significant features of this calamitous age from a transnational perspective It demonstrates the degree to which national experiences were intertwined with those of other nations and how each crisis was implicated in wider regional continental and global developments Readers will find innovative and stimulating chapters on various political social and economic subjects by some of the leading scholars working on modern European history today Cabinet Decisions on Foreign Policy Christopher Hill,2002-05-09 An original study of British foreign policymaking at the highest level this book will be widely read by international relations specialists while historians will welcome the close textured account of key episodes of the period 1938 41 It will also reinvigorate debates among political scientists on the nature of Cabinet government **Power and Stability** Erik Goldstein,B. J. C. McKercher,2003 This work assesses British policy in those 100 years when Britain s international position diminished from the only global power to a regional European state **The Making of Global Enterprises** Geoffrey Jones,2020-07-24 This volume provides new insights to the history of international business The international group of authors drawn from the United States Canada Britain and Japan address two main themes How has global business developed over the last century And what has been its impact on host economies These original and wide ranging essays prefaced by an extensive editorial introduction are required reading in courses on international business Churchill and Strategic Dilemmas Before the World Wars John H. Maurer,2003 Part of a three part collection in honour of the teachings of Michael I Handel one of the foremost strategists of the late 20th century this collection explores the paradoxes of intelligence analysis surprise and deception from both historical and theoretical perspectives Stalin's Failed Alliance Michael Jabara Carley,2024-03-26 In the spring of 1936 the Soviet effort to build an anti Nazi alliance was failing Stalin continued nevertheless to support diplomatic efforts to stop Nazi aggression in Europe In Stalin s Failed Alliance the sequel to Stalin s Gamble Michael Jabara Carley continues his re evaluation of European diplomacy during the critical events between May 1936 and August 1939 This narrative history examines the great crises of the pre war period the Spanish Civil War Anschluss and Munich accords as well as both the last Soviet efforts to organize an anti Nazi alliance in the spring summer of 1939 and Moscow s shocking volte face the signing of the Nazi Soviet non aggression pact Carley s history traces the lead up to the

outbreak of war in Europe on 1 September 1939 and sheds light on the Soviet Union's efforts to organize a defensive alliance against Nazi Germany in effect rebuilding the anti German Entente of the First World War The author argues for the sincerity of Soviet overtures to the western European powers and that the non aggression pact was a last ditch response to the refusal of other states especially Britain and France to conclude an alliance with the USSR against Nazi Germany Drawing on extensive archival research in Soviet and Western archival papers Stalin's Failed Alliance aims to see the European crisis of the 1930s through Soviet eyes
