Intellectual Property law IP particularly in relation to international trade regimes is increasingly finding itself challenged by rapid developments in the technological and global economic landscapes In its attempt to maintain a responsive legislative system that is interacting successfully with global trade rules IP is having to respond to an increasing number of actors on an international level This book examines the problems associated with this undertaking as well as suggesting possible revisions to the TRIPS agreement that would make it more relevant to the environment in which today s IP mechanisms are operating The overall aim is to find an adequate response to the IP balance dilemma The theme is pursued throughout various topics including a look at what this means in relation to economy in a country like China and also considering how IP is increasingly having to reconcile itself with human rights issues The Oxford Handbook of Intellectual Property Law Rochelle Cooper

Dreyfuss,Justine Pila,2018 A comprehensive overview of intellectual property law this handbook will be a vital read for all invested in the field of IP law Topics include the foundations of IP law its emergence and development in various jurisdictions its rules and principles and current issues arising from the existence and operation of IP law in a political economy *TRIPS plus 20* Hanns Ullrich,Reto M. Hilty,Matthias Lamping,Josef Drexler,2016-01-29 This book examines the impact and shortcomings of the TRIPS Agreement which was signed in Marrakesh on 15 April 1994 Over the last 20 years the framework conditions have changed fundamentally New technologies have emerged markets have expanded beyond national borders some developing states have become global players the terms of international competition have changed and the intellectual property system faces increasing friction with public policies The contributions to this book inquire into whether the TRIPS Agreement should still be seen only as part of an international trade regulation or whether it needs to be understood or even reconceptualized as a framework regulation for the international protection of intellectual property The purpose therefore is not to define the terms of an outright revision of the TRIPS Agreement but rather to discuss the framework conditions for an interpretative evolution that could make the Agreement better suited to the expectations and needs of today s global economy
