Cosmetic Surgery Dr Meredith Jones, Ms Cressida J Heyes, 2012-12-28 Practices of cosmetic surgery have grown exponentially in recent years in both over developed and developing worlds. What comprises cosmetic surgery has also changed with a plethora of new procedures and an extraordinary rise of non surgical operations. As the practices of cosmetic surgery have multiplied and diversified so have feminist approaches to understanding them. For the first time leading feminist scholars including Susan Bordo, Kathy Davis, Vivian Sobchack and Kathryn Pauly Morgan have been brought together in this comprehensive volume to reveal the complexity of feminist engagements with the phenomenon that still remains vastly more popular among women. Offering a diversity of theoretical, methodological and political approaches, *Cosmetic Surgery: A Feminist Primer* presents not only the latest cutting edge research in this field but a challenging and unique approach to the issue that will be of key interest to researchers across the social sciences and humanities.

volume is concerned with questions and problems created by the friction between nationalism and transnationalism at a time when globalization has greatly complicated the notion of cultural political and economic boundedness Offering a range of perspectives the contributors address questions such as How do states concern themselves with the modernization of traditional medicine How does the global hegemony of science enable the nationalist articulation of alternative medicine How do global discourses of science and new age spirituality facilitate the transnationalization of Asian medicine As more and more Asian medical practices cross boundaries into Western culture through the popularity of yoga and herbalism and as Western medicine finds its way east these systems of meaning become inextricably interrelated These essays consider the larger implications of transmissions between cultures
