**Wisdom, Science, and the Scriptures** Stephen Finamore, John Weaver, 2015-04-07 This collection of essays is offered in admiration of and in gratitude for the work of Ernest Charles Lucas The title of the volume acknowledges Ernest s particular areas of interest and expertise The word wisdom comes first for two reasons firstly because the Bible s Wisdom literature is a particular love about which Ernest has published a number of books and secondly because wisdom is a characteristic of the man Several of the contributions to this volume pick up the theme of biblical wisdom while others touch on the practical application of a wisdom shaped by the Scriptures to vital contemporary issues The second word of the title science reflects both Ernest s first career as a research bio chemist and his interest as a theologian in exploring the

relationship between science and faith This area of interest is reflected in a number of the contributions to this collection including Ernest's passionate interest in and concern about climate change The final words of the title are and the Scriptures Ernest has at one time or another taught every part of the Bible and retained a keen interest in the discipline of Biblical Studies Once again this is reflected in some of the contributions There are other aspects to Ernest Lucas and among them is a love of sport especially cricket And so the collection ends with a reflection on this wonderful pastime **Journal of**

Hyphenating Moses Federico A. Roth, 2017-06-06 Postcolonial biblical criticism took shape largely by critiquing the book of Exodus Because of the eventual dispossession of Canaanites in the conquest narratives so goes the thinking the Hebrews God amounts to little more than a dangerous destructive and ethnocentric figure In *Hyphenating Moses* Federico Alfredo Roth challenges this consensus by providing an alternative reading of its early narratives 1 1 3 15 Redeploying postcolonial theory and themes Roth presents a reading of these well known scenes as orbiting around the topic of identity formation climaxing in the burning bush episode In the giving of the name YHWH promotes the virtue of conceiving identity as a malleable reality to be sought after by all parties caught in the dehumanizing discourse of colonial subjugation

Boda, 2009-06-30 The biblical theological approach Boda takes in this work is canonical thematic tracing the presentation of the theology of sin and its remedy in the canonical form and shape of the Old Testament The hermeneutical foundations for this enterprise have been laid by others in past decades especially by Brevard Childs in his groundbreaking work But *A Severe Mercy* also reflects recent approaches to integrating biblical understanding with other methodologies in addition to Childs's Thus it enters the imaginative space of the ancient canon of the Old Testament in order to highlight the word views and literary shapes of the texts taken individually and as a whole collection For the literary shape of the individual texts it places the word views of the dominant expressions and images as well as various passages in the larger context of the biblical books in which they are found For the literary shape of the texts as a collection it identifies key subthemes and traces their development through the Old Testament canon The breadth of Boda's study is both challenging and courageous resulting in the first comprehensive examination of the topic in the 21st century

as early Christian memory politics in the service of identity explication He attempts to problematize Schweitzer's legacy of a tidy systematic approach in which much of historical Jesus scholarship continues to operate

*Biblical Corpora* Rebecca Raphael, 2009-05-15 The book is organized by genre of biblical literature First the priestly literature articulates a binary concept of disability as impure and passive i e as other to the pure holy and active By contrast in the prophetic literature and the Psalms images of disability structure communication among God prophets leaders and people Here disability does not simply mean impurity its valuation depends on its possessor Wisdom literature and narrative present figures e g Job Mephibosheth whose innate or acquired disabilities are nevertheless placed and not simply as impurities within cosmic and social order Although priestly literature seems anomalous all strata of biblical literature use disability imagery not primarily to represent disabled persons but mainly to represent the power of Israel's God Physical norms and disability thus play a pervasive and previously neglected role in biblical categories of holy unholy pure impure election rejection and God idols This book provides a literary critical method focused on representation in the canonical form of the text allows a comprehensive view of how images of disability operate in relation to major concepts and also provides a foundation for studies in the history of interpretation All discussion of biblical passages and books draw on existing historical studies as a necessary precondition for understanding

From Biblical Criticism to Biblical Faith William H. Brackney, Craig A. Evans, 2007 From Biblical

Criticism to Biblical Faith offers cutting edge essays in the three discipline areas of theological education History and Exegesis Canon and Theology and Christian Life and Ministry      *The New Faces of Christianity* Philip Jenkins, 2006-09 Named one of the top religion books of 2002 by USA Today Philip Jenkins's phenomenally successful *The Next Christendom* permanently changed the way people think about the future of Christianity In that volume Jenkins called the world's attention to the little noticed fact that Christianity's center of gravity was moving inexorably southward to the point that Africa may soon be home to the world's largest Christian populations Now in this brilliant sequel Jenkins takes a much closer look at Christianity in the global South revealing what it is like and what it means for the future The faith of the South Jenkins finds is first and foremost a biblical faith Indeed in the global South many Christians identify powerfully with the world portrayed in the New Testament an agricultural world very much like their own marked by famine and plague poverty and exile until very recently a society of peasants farmers and small craftsmen In the global South as in the biblical world belief in spirits and witchcraft are commonplace and in many places such as Nigeria Indonesia and Sudan Christians are persecuted just as early Christians were Thus the Bible speaks to the global South with a vividness and authenticity simply unavailable to most believers in the industrialized North More important Jenkins shows that throughout the global South believers are reading the Bible with fresh eyes and coming away with new and sometimes startling interpretations Some of their conclusions are distinctly fundamentalist but Jenkins finds an intriguing paradox for they are also finding ideas in the Bible that are socially liberating especially with respect to women's rights Across Africa Asia and Latin America such Christians are social activists in the forefront of a wide range of liberation movements It's hard to overstate how interesting how eye opening how frequently surprising and sometimes disturbing Jenkins findings are Anyone interested in the implications of these trends for the major denominations for Muslim Christian conflict and for global politics will find *The New Faces of Christianity* provocative and incisive and indispensable      **Doctrine in Shades of Green** Andrew J. Spencer, 2022-01-13 How we come to our conclusions about ethical issues matters as much as the specific policies or practices we commend This book argues that four key doctrines form a theological perspective for environmental ethics They are the key ideas upon which people build their ethics of the environment By looking at the doctrines of revelation creation anthropology and eschatology we can find points of contact to work together more effectively for the common good and have more meaningful debates when our positions differ This book uses examples from four different theological positions ecotheology theological liberalism fundamentalism and evangelicalism to show that a creation positive ethic is possible from all of these positions and it explores why people who stand within various theological streams may engage in environmental issues in diverse ways      **Reading Writing Right** Jeremy Punt, 2018-10-18 In a collection of essays former students colleagues and friends of Prof Elna Mouton honour her life career and scholarly contributions upon her retirement from Stellenbosch University The various essays interact with Prof Mouton's concern for biblical hermeneutics ethics and the

interactions and connections between the two ultimately illustrating the width and variety of interest that her work stimulated and which it interacted with      *Toward a Biblical Theology of Marriage* Ernest D. Martin, 2010-03-01 Does the Bible provide a construct for marriage that is relevant for a confused world This book reflects a pastor s conviction that biblical revelation culminating in Christ does speak to the issues and potentials for marriage in such a world By focusing on what the biblical vocabulary of marriage from Genesis to Revelation may reveal of the Creator Redeemer s intent for marriage Ernest D Martin develops a Christological paradigm for marriage that is consistent and applicable Pastors teachers and counselors will find biblical faith perspectives useful in responding to the challenges and opportunities they face in the several phases of marital relationships This short book will greatly benefit anyone seriously concerned with what the Bible says about marriage
