Agikuyu Kenya:

Kenya Richard Trillo, 2002 The Rough Guide to Kenya is the ultimate guide to East Africa's best known destination. Features include a full colour section introducing Kenya's highlights, practical advice on getting the most out of Kenya from the well known safari parks to the little known reserves and the highlands, lakes and deserts to downtown Nairobi and the Indian Ocean, detailed reviews of accommodation and eating options to suit every taste and budget including luxury lodges and local restaurants, candid coverage of Kenya's history, politics, culture and environment and maps and plans for every region. **Kenya in Crisis**, *The Missionary Movement in Colonial Kenya* James Karanja, 2009 *Kenya's Uncertain Democracy* Peter Kagwanja, Roger Southall, 2013-09-13 The plunging of Kenya until recently a centre of stability and growth in East Africa into political and economic uncertainty following the general election of December 2007 is regarded as a major cause for global and African concern. It is widely accepted that the elections were deeply flawed and that there was electoral malfeasance by all the major players. President Kibaki's rapid declaration of victory in the face of a heavily disputed election and his determination to hold on to the levers of state power precipitated a deadly crisis, communal violence and economic decline. A power sharing deal between Kibaki and Opposition leader Raila Odinga signed in February seems to be holding but Kenya ranks among the world's growing number of democracies at risk. This book takes a new look at the 2007 election, the post election crisis, the underlying interaction of ethnicity, class and political power, forced displacement, the role of international forces and the country's power sharing arrangement. The study will draw upon the expertise of a variety of leading experts on Kenya and will be edited by Peter Kagwanja and Roger Southall. The overall project was based on a workshop in Nairobi on 6-7 December 2008. This book was published as a special issue of the Journal of Contemporary African Studies. Writing for Kenya, 2009 Henry Muoria 1914-97 self taught journalist and pamphleteer helped to inspire Kenya's nationalisms before Mau Mau. The pamphlets reproduced here in Gikuyu and English contrast his own originality with the conservatism of Jomo Kenyatta, Kenya's first President. The contributing editors introduce Muoria's political context, tell how three remarkable women sustained his family's life and remember him as father, courageous intellectual, political and domestic life here intertwined. Area Handbook for Kenya Irving Kaplan, 1976 **Kenya** Godfrey Mwakikagile, 2007 This book is about Kenya as a country and as a nation. It is also a work of comparative analysis in the African context. It also focuses on the nation as an entity with its own personality and national character. Kenya is one of the most well known countries in Africa for several reasons. It is one of the major tourist destinations in the world. It is by African standards one of the most developed countries on the continent. It also occupies a special place in the history of Africa because of the role it played in the struggle for independence. It was in Kenya where Mau Mau, an uprising against colonial injustices, was fought. Mau Mau was one of the bloodiest and most successful wars in colonial history and it thrust Kenya into the international spotlight. It also earned the Mau Mau freedom fighters distinction as some of the most outstanding champions of freedom for

Africans and as some of the most revered fighters in the struggle for African liberation from imperial rule They are still remembered today not only as gallant fighters but as some of the pioneers of the African independence movement Jomo Kenyatta himself who was accused of leading Mau Mau and who later became the first president of Kenya was one of the most respected African leaders and was revered as the Grand Old Man of the African independence movement He cast a long shadow over Kenya and the rest of the continent and his formidable personality and legendary role as the leader of the independence movement also played a major role in thrusting his country on the international scene Kenya is also the economic powerhouse of East Africa It has the most developed and the strongest economy among all the countries which constitute the East African Community EAC They are Kenya Uganda Tanzania Rwanda and Burundi It is in fact the most developed country in the entire region of Eastern Africa which includes the countries in the Horn of Africa Somalia Ethiopia Eritrea and Djibouti This work is a general introduction to Kenya as a country and as a nation Subjects covered include a short history of the country its geography including administrative provinces and various ethnic groups in those provinces Mau Mau and the struggle for independence the early years of independence political developments through the decades the cultures of different ethnic groups the country's natural resources and much more Also addressed in the book is the country's ethnic diversity and the impact it has had on Kenya's stability as a country and as a nation composed of different ethnic and racial groups The author also looks at Kenya's national character from his background as an East African himself from neighbouring Tanzania in a study of comparative analysis between Kenya and Tanzania as political entities with different national characters to demonstrate that nations do indeed have different national characters This is an excellent introduction for those who want to learn about Kenya for the first time and even for those who already know about Kenya but want to learn more about the country Students and tourists alike will find this work to be very useful And for those going to Kenya or anywhere else in East Africa for the first time as tourists students scholars or simply as travellers the book will serve as an excellent source of information about life and different cultures and even about politics in contemporary times in one of the most dynamic countries on the African continent and which casts a shadow over the entire East African region although the rest of the countries in the region have not been entirely eclipsed by their powerful neighbour **Kenya, a Country Study**

,1982 *Kenya* Henry S. Bienen,2015-03-08 Kenya has been the object of much controversy among students of African politics Some view it as one of the greatest successes of the post independence period others see it as an example of all that is wrong with African development Henry Bienen approaches this controversy by asking whether the concept of political participation has been properly understood in the African context His case study of political participation in Kenya discusses administration party politics ethnicity and class He suggests that in a system dominated by elites individuals and groups exert influence primarily through patron client networks and local administrative and party organs Local politics is the most important arena for most people it is argued As long as the regime adopts policies which maximize economic growth and take

account of peasant middle and small holders and as long as individual representatives can be replaced even though no change of regime occurs limited political participation leads to political stability Originally published in 1974 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Undercurrents of Ethnic Conflicts in Kenya John O. Ouko, 2002-01-01 This book provides graphic and scholarly perspectives of ethnic conflict in Kenya where ethnocentrism has grown with time and where both ethnic and administrative units are coterminous As the country's Rift Valley attracted in migration since independence in 1963 it became the seedbed of a simmering ethnic strife that exploded in 1991-93 causing a flood of internally displaced people IDP and grinding agricultural activity and economic enterprise to a halt

Kenya six months on: A new beginning or business as usual? Ishbel Matheson, 2008-08-28 At the start of 2008

Kenya was in the grip of its worst crisis since independence The violence following the December 2007 election was unprecedented It continued for weeks and posed a real threat to the unity of the nation The initial spark was the contested presidential result where the incumbent Mwai Kibaki candidate of the Party of National Unity PNU claimed victory and was swiftly sworn in amid claims of widespread poll rigging But the unrest quickly took on an ethnic dimension The Kikuyus the group which has dominated Kenya economically since independence in 1963 bore the brunt of the violence They were perceived to be the backers of Mwai Kibaki a Kikuyu and his Kikuyu dominated PNU alliance The worst unrest was around the Northern Rift Valley town of Eldoret where Kalenjins mobilised against Kikuyu driving them away and burning their property But there was also serious violence in the Southern Rift with Kalenjin attacks on Kisii communities over land ownership issues and in Western Kenya particularly in the town of Kisumu where Luo supporters of the opposition Orange Democratic Movement ODM were shot by the Kenyan police In the Rift Valley towns of Naivasha Molo and Nakuru the Mungiki a Kikuyu outlawed militia attacked ODM supporters Families from the minority Ogiek hunter gatherer community close to Nakuru had their houses burnt down and their property destroyed by Kikuyu villagers By the time the powersharing deal was struck on 28 February 2008 bringing together the ODM and the PNU approximately 1 500 Kenyans had been killed over 400 000 displaced and an unknown number of women had been raped Six months on the Grand Coalition has survived

despite initial scepticism over its prospects and peace has returned to the Kenyan countryside But it is a fragile peace and dependent on strong leadership with a will to reform When the Grand Coalition was formed its leaders vowed to tackle the deeply rooted problems that led to the violence in the first place They promised a new inclusive approach to governing Kenya's multi ethnic society instead of the winner takes all mentality of the past But a key test of the pledge is how the Coalition reaches out to the country's most marginalized and impoverished communities The experience of Kenya's smaller minority and indigenous peoples see page 3 shows that thus far this promise has yet to be fulfilled Members of the Ogiek hunter gatherer group caught up in the violence have yet to receive any government assistance while internally displaced peoples IDPs from larger communities have received shelter seeds and fertilizers as well as the promise of compensation to rebuild houses Moreover despite the important reforms set in motion by the Kofi Annan brokered deal there has been no commitment to involve minority and indigenous peoples in these processes and it remains unclear how these communities will realise their right to participate in them Secondly Kenya's new prime minister has pledged to tackle what he termed the scourge of ethnicity in Kenya His meaning however remains unclear and potentially poses difficulties for minorities If it entails a more hostile approach to minorities rights to express their separate culture and identity then it will undercut the very point of the inclusive process that the reforms are supposed to achieve However if the prime minister means to tackle the politicization of ethnicity which has disfigured Kenya's governance since independence then the commitment is a welcome one But here again there are doubts about the political will to follow through on this promise Reconciliation efforts in the countryside have been largely NGO and church led The government's main priority seems to have been to disperse the large IDP camps rather than heal ethnic divisions Moreover the ODM's calls for an amnesty for their supporters arrested during the election violence puts a question mark over the party's commitment to tackle the culture of impunity which surrounds ethnic violence in Kenya The first part of this paper examines in greater detail how the government has dealt with the issue of ethnicity and fall out from the violence six months ago The second part of the paper looks at the prospects for reform through the lens of minority and indigenous rights

Africa and the West Godfrey Mwakikagile, 2000 Besides her natural beauty the scenery and the climate and her abundant wildlife and natural resources Africa is probably best known as the homeland of hundreds of millions of people who live in abject poverty Millions are wracked by disease and blinded by ignorance And just as many go hungry every day But there is something else which also distinguishes Africa lack of unity among her people That is one of the main reasons why they were conquered by foreigners and why Africa is still weak and poor today There is no other continent which is endowed with so much in terms of natural resources But there is also no other continent where it has been so easy for foreigners to take what does not belong to them This book began as a self examination of the African personality
