Agile Servant Community Leadership By Community Foundations:

An Agile Servant Richard Magat, 1989 Commissioned under the Community Leadership Subcommittee of the Council on Foundations the publication includes chapters on leadership standards donors creating capital and collaboration Also profiles sixteen U S community foundations in case studies which show how critical issues are handled in community foundations today

Here for Good: Community Foundations and the Challenges of the 21st Century Terry Mazany, David C. Perry, 2014-12-18 Community foundations bring together the resources of individuals families and businesses to support effective nonprofits in their communities Over the years foundations have come to engage community problem solving through more than just grant making They have added a rich array of other activities including programs of community capacity building active modes of advocacy and centres for meeting In 2011 the 700 institutions in the United States gave an estimated 4.2 billion to a variety of nonprofit activities in fields that included the arts and education health and human services the environment and disaster relief The origins of this book stem from conversations among the leadership of community foundations about the challenges they must overcome in order to make such foundational contributions to their communities As community foundations enter the second century of their existence the first foundation was formed in Cleveland in 1914 the need for knowledge and best practices has never been greater This book with expert authors representing the best and the brightest in this important field fills that need

The Routledge Companion to Philanthropy Tobias Jung, Susan D. Phillips, Jenny Harrow, 2016-05-17 Philanthropy the use of private resources for public purposes is undergoing a transformation both in practice and as an emerging field of study Expectations of what philanthropy can achieve have risen significantly in recent years reflecting a substantial but uneven increase in global wealth and the rolling back of state services in anticipation that philanthropy will fill the void In addition to this experiments with entrepreneurial and venture philanthropy are producing novel intersections of the public non profit and private spheres accompanied by new kinds of partnerships and hybrid organisational forms The Routledge Companion to Philanthropy examines these changes and other challenges that philanthropists and philanthropic organisations face With contributions from an international team of leading contemporary thinkers on philanthropy this Companion provides an introduction to and critical exploration of philanthropy discussing current theories research and the diverse professional practices within the field from a variety of disciplinary perspectives The Routledge Companion to Philanthropy is a rich and valuable resource for students researchers practitioners and policymakers working in or interested in philanthropy

Participatory Grantmaking in Philanthropy Cynthia M. Gibson, Chris Cardona, Jasmine McGinnis Johnson, David Suárez, 2024-12-02 A new community based framework assessing the impact of participatory grantmaking on philanthropy Institutional foundations are influential yet it can be difficult to understand how they operate How do their staff members make decisions What impact do these decisions have on nonprofits civil society and democracy more broadly One practice that holds promise for demystifying this relationship is

participatory grantmaking whereby stakeholders and grantees participate in making decisions about grant dollars that were previously reserved for professional foundation staff The community based case studies in Participatory Grantmaking in Philanthropy signal a cultural shift away from the power of elite institutions and their penchant for top down decision making This book combines perspectives from academics and practitioners who address how participatory grantmaking relates to other features of contemporary giving including trust based philanthropy giving circles crowdfunding conservative philanthropy giving traditions in communities of color and global giving Using in depth case studies quantitative research and other evidence based methods of exploration Participatory Grantmaking in Philanthropy will be a strong resource for philanthropy practitioners not only at the community level but also at large institutional foundations as well as megadonors seeking to integrate diversity equity and inclusion into their decision making practices **Rebuilding Communities the Public Trust Way** Jeffrey S. Lowe, 2006-01-01 Rebuilding Communities the Public Trust Way highlights cases of community foundation assistance to Community Development Corporations CDCs during the final two decades of the twentieth century in Cleveland Ohio Florida and New Orleans Louisiana Author Jeffrey S Lowe describes the influence of these three community foundations on CDC capacity to engage in activities that facilitate the revitalization of urban communities and provides recommendations for other community foundations and policymakers seeking to work with CDCs This is an essential read for persons involved in the fields of philanthropy and nonprofit organizations and scholars of community development urban history and social policy Philanthropic Foundations Ellen Condliffe Lagemann, 1999-07-22 Foundations are socially and politically significant but this simple fact has mostly been ignored by students of American history This collection represents an important contribution to an emerging field Kenneth Prewitt Social Science Research Council **The Foundations of Texan Philanthropy** Mary L. Kelley, Mary L. Scheer, 2004 The Lone Star State has produced not only revolutionary heroes and cowboy legends but also larger than life promoters of philanthropic activity The Foundations of Texan Philanthropy the first systematic study of the origins of foundation philanthropy in early twentieth century Texas chronicles the fortunes motivations and benefactions of affluent Texans who pioneered organized giving for the public good In the three decades following the creation of the George W Brackenridge Foundation in 1920 donors established approximately 180 private philanthropic institutions These charitable minded organizations funded medical research established educational scholarships and supported community projects In addition to the Brackenridge Foundation this book features George B Dealey and the Dallas Foundation Jesse Jones and the Houston Endowment Miss Ima and the Hogg Foundation for Mental Health the Amon G Carter Foundation and the Conference of Southwest Foundations which united the many foundations in the region The Foundations of Texan Philanthropy balances personal and family stories with the missions and financial operations of the foundations they established The result is a detailed look at some of the leaders of Texas history and the ways in which their largesse has continued to influence the history of the Lone Star State **The**
