[Methods in Religion, Spirituality & Aging](#) James W. Ellor, 2013-10-18. Since the 1971 White House Conference on Aging in the United States, the need to move from religiosity into new areas such as spiritual assessment and spirituality has emerged. This movement has picked up momentum among scholars, particularly in terms of research in the area of spirituality. While spirituality as a term is employed in many new studies, this term continues to defy the quest for a single definition and method. This book is divided into three sections. In the first, the authors reflect on the philosophical and theological issues presented by these terms from a variety of both cognate and practical methodological approaches. The second section offers insights from the major professions of sociology, psychology, public health, nursing, and social work. The final section offers insight and assistance to researchers and authors on specific religious traditions. This book will be important for anyone working to develop such practical tools as spiritual assessment forms for those who engage in more formal scholarly investigation. **Changing Cultures of Ageing and Spirituality** Elizabeth MacKinlay, Ann Harrington, 2023-09-12. This book addresses important issues of ageing and spirituality and reflects on the impact of culture on both constructs. The papers are contemporary in that they include excerpts of cultural impact on spirituality from New Zealand, Singapore, India, United Kingdom, Australia, and the United States. This book marks almost 20 years of international conferences on ageing and spirituality that commenced in January 2000. It opens the conversation to all who were part of this journey of ageing, including older people, practitioners in ageing and aged care, researchers, and those who reflect on the process of growing older. Chapters feature diverse perspectives highlighting the need for inclusivity in conversations that surround ageing and recognize how development of cultures is influenced by the society where they emerge and by minority groups within larger society. Chapters also note the

occurrence of subcultures of ageing and aged care The conference was held shortly before the onset of the COVID 19 pandemic with the chapters being written often during times of lockdown Their content reflects the importance of spirituality in times of isolation and can show ways of reaching out to vulnerable older people of various faiths and cultures whatever their situations Changing Cultures of Ageing and Spirituality will be a key resource for academics researchers and advanced students of Theology Divinity and Religious Studies Gerontology Sociology Psychology Mental Health and Nursing The chapters included in this book were originally published as a special issue of Journal of Religion Spirituality Aging Aging and God William M Clements, Harold G Koenig, 2014-03-05 This important book examines the relationship between religion and mental health throughout the life cycle with a special emphasis on later life It asserts that successful aging is possible regardless of physical health or environmental circumstances and that religious beliefs and behaviors may facilitate successful aging Aging and God thoroughly examines the effects of religion and mental health on aging and provides a centralized resource of up to date references of research in the field It focuses on recent findings theoretical issues and implications for clinical practice and contains ideas for further research In Aging and God you ll also find information on project design that can help you develop grant applications and carry out studies Aging and God is a helpful book for both mental health and religious professionals It helps mental health specialists better understand the spiritual needs of older adults and the impact that religion can have on facilitating mental health It also describes how religion can be utilized in clinical practice and integrated into psychotherapeutic approaches to older patients The book brings religious professionals current knowledge of the major psychological problems that older adults face and how religion can be used to help alleviate these problems Full of pertinent information Aging and God addresses theoretical aspects of human development focusing on cognitive moral and religious faith development examines situations and disorders of particular concern to older persons and looks at how religion can be used as a resource applies research findings to the problem of meeting the spiritual and mental health needs of elders with chronic or acute health problems provides an in depth look at end of life issues such as physician assisted suicide Hospital and nursing home chaplains will find this book informative and encouraging as will gerontologists hospital administrators and community clergy faced with increasingly older congregations It gives mental health professionals new strategies to help improve the later years of older adults and makes an excellent text for courses on religion mental health and aging Middle aged and older adults as well as their families will also find Aging and God enjoyable and inspiring as they attempt to grapple with the myriad adjustment and coping problems associated with aging Aging, Spirituality and Palliative Care Rev Elizabeth Mackinley, 2006-10-24 Gain greater depth of understanding of end of life spiritual issues for older adults The period of time when a person approaches death is always difficult both for the patient and the caregiver Aging Spirituality and Palliative Care discusses best practices in aged and palliative care while addressing patients diverse spiritual **Congressional Record** United States.
