Aging And Public Policy Social Control Or Social Justice:

The Four Lenses of Population Aging Patrik Marier, 2021-05-02 With its implications for health care the economy and an assortment of other policy areas population aging is one of the most pressing issues facing governments and society today and confronting its complex reality is becoming increasingly urgent particularly in the age of COVID 19 In *The Four Lenses of Population Aging* Patrik Marier looks at how Canada's ten provinces are preparing for an aging society Focusing on a wide range of administrative and policy challenges this analysis explores multiple actions from the development of strategic plans to the expansion of long term care capacity To enhance this analysis Marier adopts four lenses the intergenerational the medical the social gerontological and the organizational By comparing the unique insights and contributions of each lens Marier draws attention to the vital lessons and possible solutions to the challenges of an aging society Drawing on over a hundred interviews with senior civil servants and thousands of policy documents *The Four Lenses of Population Aging* is a significant contribution to public administration provincial politics and comparative public policy literatures and a timely resource for policymakers and general readers seeking an informed perspective on a timely and important issue Theories

on Law and Ageing Israel Doron, 2008-09-25 This book is about trying to answer questions These questions were well introduced by Prof Margaret Hall in the opening of her chapter in this book The fundamental idea of law and aging as a discrete category of legal principle and theory is controversial how and why are older adults or seniors or elders the very terminology is controversial and fraught with difficulties a discrete and distinct group for whom special legal thought and treatment is justified For some a category of law and aging is inherently paternalistic suggesting that older persons are like children especially in need of the protection of the law In this sense the argument continues the category itself internalizes ageist presumptions about older adults and is therefore inherently flawed and even harmful If certain older adults are because of physical or mental infirmities genuinely in need of an enhanced level of legal protection this entitlement should be conceptualized in terms of their disability older adults are not a distinct group but an arbitrarily delineated demographic category which contains within it any number of groups that are legitimately distinct for the purposes of legal theory the disabled women persons of colour Aboriginal persons rich and poor etc Indeed the artificial category of older adults may be seen as obfuscating submerging these more meaningful distinctions **Handbook of Communication and Aging Research**

Jon F. Nussbaum, Justine Coupland, 2004-04-12 This second edition of the *Handbook of Communication and Aging Research* captures the ever changing and expanding domain of aging research Since it was first recognized that there is more to social aging than demography gerontology has needed a communication perspective Like the first edition this handbook sets out to demonstrate that aging is not only an individual process but an interactive one The study of communication can lead to an understanding of what it means to grow old We may age physiologically and chronologically but our social aging how we behave as social actors toward others and even how we align ourselves with or come to understand the signs of difference or

change as we age are phenomena achieved primarily through communication experiences Synthesizing the vast amount of research that has been published on communication and aging in numerous international outlets over the last three decades the book's contributors include scholars from North America and the United Kingdom who are active researchers in the perspectives covered in their particular chapter Many of the chapters work to deny earlier images of aging as involving normative decrement to provide a picture of aging as a process of development involving positive choices and providing new opportunities A recurring theme in many chapters is that of the heterogeneity of the group of people who are variously categorized as older aged elderly or over 65 The contributors review the literature analytically in a way that reveals not only current theoretical and methodological approaches to communication and aging research but also sets the future agenda This handbook will be of great interest to scholars and researchers in gerontology developmental psychology and communication and in this updated edition will continue to play a key role in the study of communication and aging

Handbook of Aging, Health and Public Policy S. Irudaya Rajan, 2025-09-30 This handbook presents the latest information on all aspects of global aging with a focus on Asia including policies age associated diseases and conditions health services long term care living arrangements income and social security preventing abuse and the impact of migration on the elderly Furthermore the book presents a synthesis of research on population aging social protection policies crimes against the elderly new analyses of trends and discussions of major social policy strategies Written by academics practitioners and policymakers in the field of gerontology the book offers an informative resource for demographers gerontologists economists anthropologists and other social scientists studying various facets of aging as well as students in the social and health sciences

National Library of Medicine Current Catalog National Library of Medicine (U.S.), **Foisted upon the Government?** Edgar-André Montigny, 1997-07-01 While government officials in the 1890s claimed that forcing families to take responsibility for caring for the aged was in the interest of the elderly Edgar Andr Montigny reveals that government policy had more to do with saving money than a desire to serve the aged He provides a harsh critique of Ontario government policies toward the elderly and their families at the end of the nineteenth century and highlights similarities between what happened in the 1890s and current policy reforms in the area of long term care Montigny argues that government played a central role in determining how society viewed the elderly and family obligations to them Using census data municipal records and institutional case files he demonstrates that the government created and promoted an image of the aged population that bore little resemblance to reality and manipulated the concept of family obligations to justify policies to reduce social welfare costs The effect of these policies passed in the name of helping the elderly and their families was almost universally negative By dispelling the myths that continue to influence public policy concerning the aged Montigny provides a useful warning of the negative consequences of policies that are enacted to cut costs rather than to serve the population they are supposed to help

Shindul,Linda Evans,1985 **Federal Public Policy on Aging Since 1960** ,1987-09-18 This bibliography on federal policy on aging deals not only with official actions taken by government but also with the issues that cause such actions to be taken or at least proposed Dealing with a period beginning with 1960 when public support of national action on social insurance and other aging related matters was mounting this bibliography s entries cover the years through early 1986 taking due note of the contemporary wave of analyses protesting perceived inequities in social security and medicare provisions The 162 entries in Part One annotate book length or other evaluations declaring the failure partial success or considerable achievement of federal action that intended to make life better for older Americans In addition to global appraisals Part One offers entries dealing with key principles in the making of federal policy on aging The 589 entries that comprise Part Two provide a comprehensive sampling of the policies programs and issues of importance in the study of aging and older Americans Among the issues related to federal public policy on aging that are covered are income and retirement policy health and long term care housing services consumer issues discrimination education empowerment family policy intergenerational concerns minorities research rural programs training and women An appendix dealing with sources of additional information and author and subject indexes complete this volume This important new bibliography adds to our knowledge of sources for the study of federal policy making and the elderly Labor's Capital Teresa Ghilarducci,1992 This examination of the 120 year old American system of privatized social insurance reveals that the system fails to provide adequate retirement income security its most prominent goal and in fact its greatest influence is in supplying funds to U S capital markets Growing Old in America Beth B. Hess,Elizabeth Warren Markson, Modern industrial societies are characterized by long term declines in fertility and steady increases in life expectancy Together these trends result in an

aging population The United States is no exception since 1969 the median age has risen from 29.4 to a projected 36.4 in the year 2000 This fourth edition of the standard reader on the sociology of aging has been completely revised with 90 percent new material to reflect new information and new issues in this rapidly developing field Students and practicing professionals will find it a lively accessible overview

New Directions in Saskatchewan Public Policy David McGrane, 2011 In this new scholarly compilation by David P McGrane established and emerging trends in Saskatchewan public policy are the foundation for setting new directions for the province in the 21st century In what direction should Saskatchewan be headed in the 21st century To answer this question academics from various disciplines at the University of Regina and University of Saskatchewan have come together to produce *New Directions in Saskatchewan Public Policy* the first edited book exclusively devoted to public policy in the province with chapters discussing taxation immigration agriculture urban affairs poverty reduction the social economy labour aging Aboriginal public administration and climate change The authors provide an analysis and description of the current policies of the current government and also look back to explore what the Romanow and Martin governments did in these areas The overarching theme of the book is that despite the province's robust economic growth significant public policy challenges remain for the Saskatchewan provincial government The lesson is that economic growth does not magically solve entrenched societal problems and that economic prosperity will dissipate if worrisome social trends are left unchecked While many scholarly books shy away from prescription the authors of this book include sections in their chapters that set out new directions for policy development As such the book not only contains solid analysis of the present policy situation but also offers concrete ideas for future policy makers
