Aids Opposing Viewpoints:

AIDS Bibliography, 1993 *AIDS, Fear and Society* Kenneth J. Doka, 2014-05-01 Historically AIDS is just one of a series of dreaded diseases that have aroused both great fear and irrational actions The previous diseases including bubonic plague syphilis tuberculosis leprosy and cancer have evoked such a sense of dread that rational moves to halt the disease have become compromised This text examines the deep sense of fear that AIDS evokes stigmatizing those who suffer from the disease as well as their families and caregivers Until AIDS can be seen for what it actually is a life threatening disease policies providing for humane treatment will not evolve The book also emphasizes that diseases are more than biological phenomena or individual catastrophes they are profoundly social events The ways in which diseases are spread and treated are strongly influenced by larger sociological considerations and they may have the capacity to change social institutions or society Itself Rooting Aids In The History Of Diseases The First Part Of The book reviews the nature history and responses of earlier dreaded diseases The next section examines AIDS itself proposed as the archetypal dreaded disease Already creating a sense of panic AIDS is also shown to be a social disease likely to have significant effects on the social order Thus only by containing the epidemic of fear and controlling the resulting irrationality can the AIDS epidemic be halted **AIDS in America** Susan Hunter, 2025-09-23 With more than one million people currently infected and half a million already dead the U S ranks among the top ten most severe AIDS epidemics in the world Americans should know more about the current state of the epidemic so they can protect themselves and demand that the government act responsibly to reduce the danger of HIV in this country Hunter exposes the ways in which the U S shamefully resembles a developing country and the many fronts on which the government has failed to control the spread of the disease In this startling book she also shows what we must do to change the future of AIDS AIDS Tamara L. Roleff, Charles P. Cozic, 1998 In this anthology scientists activists and dissenters explore the controversy surrounding the AIDS crisis Chapters include What Is the State of the Global AIDS Epidemic What Policies Should Be Adopted for HIV Testing How Can the Spread of AIDS Be Controlled How Should AIDS Be Treated **Diagnosis: Difference** Abby Wilkerson, 2019-05-15 How is justice in the delivery of health care influenced by the culture of medicine In a groundbreaking new work of feminist bioethics Abby L Wilkerson examines the cultural status of the medical establishment Challenging traditional views she shows that morality in health care has a far reaching impact on social justice Situating her analysis in the context of the AIDS and women s health movements Wilkerson explores continuing patterns of injustice in medicine the function of health care as social control and the unequal risk of illness and injury among different social groups She assesses the role of medicine and bioethics in the sexual oppression of women and of gay and bisexual men and defines the forces undermining the role of bioethics in monitoring the moral status of health care What changes would make bioethicists more responsive to the needs of oppressed groups Wilkerson s book points the way toward a better understanding of medical authority and brings a fresh perspective to health activism demonstrating that a feminist

and sexually inclusive analysis has much to offer in revealing the hidden cultural politics of medicine *National Library of Medicine Current Catalog* National Library of Medicine (U.S.),1993 **The Encyclopedia of Stress and Stress-Related Diseases, Second Edition** Ada P. Kahn,2006 Presents information on stresses in the environment their causes effects and possible ways to minimize or eliminate them *Culture @ the Cutting Edge* Curwen Best,2004 The anglophone Caribbean has long been celebrated and known for its vibrant and innovative music Reggae dancehall calypso soca gospel and ringbang have flourished within the Caribbean and have exploded on the worldwide stage Somewhat surprisingly many facets of this contribution have not been analysed or discussed by academic writing This work deliberately moves away from the customary exclusive focus on Trinidad and Jamaica and broadens the discourse to represent the wider region It addresses such topics as the status of Caribbean gospel the birth of new musical styles in the Eastern Caribbean cultural misrepresentation in Caribbean music videos the representation of Aids in Caribbean music and the impact of the actual music technology utilized by Caribbean musicians since the 1980s **HIV/AIDS Susceptibility and Racial Disparities** Dr. Sylvester Hillard,2014-07-08 This book focuses on the fact that major disparities exist between whites and people of color where the HIV infection rate is concerned with an emphasis on blacks Therein the author looks at several factors that seem to give rise to this disturbing situation *Current Catalog* National Library of Medicine (U.S.),1993-04 **AIDS: Responses, Interventions and Care** Peter Aggleton,Peter Davies,Graham Hart,2003-09-02 First published in 1991 Routledge is an imprint of Taylor Francis an informa company **Junior High School Library Catalog** ,2006 *Gay Macho* Martin P. Levine,1998 A sociological study of the emergence of the gay male culture from the explosion of gay liberation in the early 1970s through the beginning of the AIDS crisis of the mid 1980s The first half of the book is the dissertation of Levine who based it primarily on field work conducted in Greenwich Village s growing gay community in the late 1970s He looks at the sociology of gay masculinity hypermasculine sexuality and gender confirmation and the birth of the gay clone The second half of the work is made up of essays which chronicle the beginning of the AIDS epidemic examine the myth of sexual compulsivity and look at the implications of constructionist theory for social research on the AIDS epidemic Annotation copyrighted by Book News Inc Portland OR **Communicating for Success** Cheryl Hamilton,Tony Kroll,Bonnie Creel,2023-02-28 Communicating for Success third edition is a core textbook for Introduction to Communication courses and gives students an overview of the subfields of Communication Studies and how these areas provide practical fun and immediate applications to students pursuing a wide variety of career paths as well as practical instruction in public speaking for success on today s social media platforms This fully updated third edition focuses on the key communication competencies recommended by the National Communication Association including verbal and nonverbal communication listening interpersonal communication and conflict resolution group and organizational communication public speaking leadership and the roles of social media technology culture gender and ethics in communication With a vibrant and engaging

Our Humanist Heritage George Frater,2010-07 This fast paced and well documented analysis of the government s steady march away from God will either thrill or anger you depending on your worldview For those of us who acknowledge the Creator of the Universe as our God Savior and Lord this document tends to stir up both the sadness at the exponential slippage from our foundations as a Country and a challenge to stand strongly and openly against the growing intensity of those who would remove religion from America The nations rage sometimes and imagine a vain thing but he who sits in the heavens shall laugh Mr Frater has done a wonderful job of tracing the Humanist movement from its early inception and its subtle and damaging impact on our nation over the decades All serious students of history and those of Kingdom concern should avail themselves of his work
