Ojo,2001 The past few years have been very traumatic ones for many Nigerians With the exception of those in power or close to the seat of power the changes of 1998 were a welcome relief given the tyranny and repression that the country had suffered under General Abacha With many people in prison and more in exile the death of Abacha was received with a sigh of relief Many observers have seen the resilience that has come to signify the strength and potential of this once giant of Africa as well as the destruction and the socio political and economic decay of the past decades The Nigerian people have endured the exploitation of their rights due to the lack of democratic leadership and with this in mind they have been called to attention to fight for their country **HIV and Aging** M. Brennan-Ing,R. F. DeMarco,2016-11-22 Despite decades of attention on building a global HIV research and programming agenda HIV in older populations has generally been neglected until recently This new book focuses on HIV and aging in the context of ageism with regard to prevention treatment guidelines funding and the engagement of communities and health and social service organizations The lack of perceived HIV risk in late adulthood among older people themselves as well on the part of providers and society in general has led to a lack of investment in education testing and programmatic responses Ageism perpetuates the invisibility of older adults and in turn renders current medical and social service systems unprepared to respond to patients needs While ageism may lead to some advantages discounts for services for example it is the negative aspects that must be addressed when determining the appropriate community level response to the epidemic **AIDS Bibliography** ,1989 *AIDS Issues* United States.
