clinicians and researchers experienced in working with the Veterans Administration VA population the book is grounded in an understanding of the unique culture of the veteran with its specialized service delivery methods and procedures In addition to its focus on veterans with TBI the text also addresses the assessment and treatment of aging veterans of previous military conflicts and of combat and non combat veterans with neurological and emotional problems related to aging substance abuse HIV hepatitis psychiatric disorders and other problems Key Features Addresses the growing need for neuropsychological assessment and treatment of returning veterans as well as aging veterans of earlier conflicts Focuses on traumatic brain injury posttraumatic stress disorder and major depression Discusses assessment of malingering faking benefits pension return to work evaluations polytrauma management and training concerns Written by clinicians and researchers experienced in working with veterans Edited by a neuropsychology specialist who is well known in the VA community

*Litt's Drug Eruption Reference Manual Including Drug Interactions* Neil Shear, Jerome Z. Litt, 2009-01-14 Now in its 15th edition this most widely acclaimed book has been expanded and improved to provide reliable current and comprehensive information on drug eruptions and interactions essential for all dermatologists and primary care physicians With every medication having potential adverse sideeffects this manual serves as a remedy to the intricate Litt's Drug Eruption Reference Manual Including Drug Interactions, 13th Edition, 2007-02-26 Confirm adverse effects with the only source for practicing dermatologists pharmacists and clinicians devoted to newly approved commonly prescribed and over the counter drugs including herbals and supplements With an alphabetic listing of more than 7 000 drugs herbals and supplements combined Litt's is the dermatologist's number one choice for Handbook of Economic Evaluation of HIV Prevention Programs David R. Holtgrave, 1998-10-31 If resources for HIV prevention efforts were truly unlimited then this book would be entirely unnecessary In a world with limitless support for HIV prevention activities one would simply implement all effective or potentially effective programs without regard to expense We would do everything useful to prevent the further spread of the virus that has already claimed hundreds of thousands of lives in the United States and millions of lives worldwide Unfortunately funding for HIV prevention programs is limited Even though the amount of available funding may seem quite large especially in the United States it is still fixed and not sufficient to meet all needs for such programs This was very well illustrated in the summer of 1997 when over 500 community based organizations applied for a combined total of 18 million of HIV prevention funding from the U S Centers for Disease Control and Prevention CDC Less than one fifth of these organizations received support via this funding mechanism Hence although 18 million may seem like a large amount of money at first blush it is not enough to meet all of the prevention needs that could be addressed by these community based organizations
