Legal Responses to AIDS in Comparative Perspective Lawrence Gostin, Stanislaw J. Frankowski, 1998-10-01

AIDS Education G. Sabar-Friedman, I.I. Schenker, F.S. Sy, 2013-06-29 Sixteen years into the AIDS epidemic our understandings of the virus its transmission modes of controlling blood banks and testing are relatively well established In the last decade we have also experienced an astonishing amount of new social science research enabling us to better understand concepts like risk taking gender related prevention women's health and youth psychology just to mention a few In almost every country in the world efforts have been made to respond affirmatively to the challenge of stopping the further spread of HIV/AIDS Educational interventions have ranged from re-inventing the wheel to innovative programs using a variety of health education methods The field of evaluation research now provides us a better understanding of what works and what does not work Issues relating to human rights the relationship between the affected and the health/medical professional communities and to the inequality in the delivery of preventive and educational services are becoming an important part of the debates and discussions in the concerned societies

AIDS Law Today Yale AIDS Law Project Staff, 1993-01-01 Essays by policymakers practicing attorneys and physicians examine the many legal issues raised by the AIDS epidemic and the ways society through its laws can and should respond

Encyclopedia of AIDS Raymond A. Smith, 1998-08-27 First Published in 1998 Routledge is an imprint of Taylor Francis an information company

Reader's Guide to the Social Sciences Jonathan Michie, 2014-02-03 This 2 volume work includes approximately 1 200 entries in A-Z order critically reviewing the literature on specific topics from abortion to world systems theory In addition nine major entries cover each of the major disciplines political economy management and business human geography politics sociology law psychology organizational behavior and the history and development of the social sciences in a broader sense

Private Choices and Public Health Tomas J. Philipson, Richard A. Posner, 1993 Neither liberal nor conservative yet on the whole skeptical about governmental involvement in the epidemic this book is certain to be controversial but its injection of hard headed economic thinking into the AIDS debate is long overdue

Legal Research in

a Nutshell Morris L. Cohen, Kent C. Olson, 1992 **The John Marshall Law School Magazine**, 1996 Textbook of Pediatric HIV Care Steven L. Zeichner, Jennifer S. Read, 2005-04-28 This comprehensive textbook provides the definitive account of effective care for pediatric HIV patients Drawing on the massive and burgeoning published literature from a wide range of sources this volume summarises a wealth of information concerning the aetiology of the disease and the best clinical care for this vulnerable group It distils the very latest knowledge of virology immunology and pathogenesis and uses this to illuminate and explain management recommendations Recently many new agents for the treatment and prophylaxis of HIV infection and the opportunistic infections that accompany HIV infection have been developed accompanied by many new ways of monitoring HIV infection in children These new therapies and approaches to management are complicated but the long term health of HIV infected children depends on their meticulously correct application This textbook explains helps and guides the clinician through all these complexities to facilitate the best possible care for children with HIV infection

Women and HIV Prevention in Canada Jacqueline Gahagan, 2013 *Women and HIV Prevention in Canada* is a comprehensive collection of original readings that examine the impact of HIV AIDS on women in Canada It takes as its point of departure the lessons from the past two decades of HIV prevention efforts with an eye to advancing research policy and programmatic responses in a collaborative multidisciplinary manner The book includes contributions from academics researchers of topics including the epidemiology of women and HIV AIDS in Canada enhanced surveillance specific to women pregnancy and fertility issues housing as a determinant of health HIV prevention and prisons new HIV prevention technologies race transgender issues and other pressing primary and secondary HIV prevention issues for women Each chapter concludes with problem based learning scenarios and discussion questions making the book a valuable resource for students as well as practitioners and researchers in epidemiology in community health sociology of health nursing health promotion health service administration social work and health policy *Health-Harming Legal Needs* Rami Shoucri, Jennifer Stone, 2025-09-23 *Health Harming Legal Needs* equips primary health care professionals with the tools to recognize and respond to legal issues that are injurious to health particularly among low income patients Co developed by medical and legal experts this book advances health equity through the integration of legal support into clinical care Utilizing a practical case based approach it helps clinicians identify when legal issues such as eviction denial of social benefits immigration status family breakdown discrimination at work or criminal legal system involvement may be undermining their patients health It also focuses on several patient populations with unique legal needs including pediatric patients people living with HIV Indigenous peoples and people living with intellectual or developmental disabilities It demystifies the legal systems that patients interact with and builds clinician confidence in navigating and leveraging community legal support Central to the book is the introduction of Health and Justice Partnerships a flexible collaborative model that brings legal and health professionals together to address the root causes of poor health By fostering shared understanding and joint dialogue

across sectors the text shows how meaningful legal health collaboration can enhance patient care reduce provider burnout and promote equity and access to justice Through real world examples and actionable guidance the book underscores that legal support can make a decisive difference in moments that feel hopeless for both patients and care teams It ultimately encourages clinicians to see legal advocacy as part of a holistic approach to care and offers a road map for integrating this perspective into their practice

Neglected Diseases Paul Hunt, Rébecca Steward, Judith Bueno de Mesquita, Lisa Oldring, 2007 In recent years there has been a growing interest in neglected diseases as a public health issue However there has been less attention given to the links between neglected diseases and human rights Neglected diseases are more likely to occur where human rights such as the rights to health education and housing are not guaranteed Neglected diseases also often result in violations of human rights and fundamental freedoms including equality and non discrimination This review authored by the United Nations Special Rapporteur on the right of everyone to the enjoyment of the highest attainable standard of physical and mental health aims to introduce and explore some of these connections Addressing the human rights issues that cause or are a consequence of neglected diseases has an important role to play in helping to prevent and treat these diseases as well as in ensuring the dignity and well being of those afflicted This report aims to equip practitioners with an understanding of human rights how human rights abuses cause and result from neglected diseases and it signals how a human rights approach can contribute to the fight against neglected diseases

Global Lessons from the AIDS Pandemic Bradly J. Condon, Tapen Sinha, 2008-07-22 We began to research for this book in 2000 with the idea that we might contribute to the search for solutions to the global HIV AIDS pandemic by combining perspectives from different disciplines Much has happened in the intervening years First the severity of the HIV AIDS pandemic in sub Saharan Africa and the threat it posed for many other regions of the world led to a movement among several countries to correct the imbalance between producers and users of pharmaceutical products This effort produced a clarification of the right of governments to produce generic medicine under compulsory licenses and an amendment of the World Trade Organization's TRIPS Agreement to allow exports of generic medicines from one WTO Member to another In 2007 the amended rules were put into practice with Canada authorizing the export of generic antiretroviral drugs to Rwanda However at the same time global patent laws have been undermined due to regulatory capture most notably in free trade agreements and through political pressure on countries like Thailand to not to exercise their right to issue compulsory licenses for pharmaceutical products Second the amount of money available for the treatment and prevention of HIV AIDS has increased dramatically with the establishment of the World Bank Multi Country HIV AIDS Program for Africa MAP the Global Fund to Fight AIDS Tuberculosis and Malaria and the US President's Emergency Plan for AIDS Relief PEPFAR among other funding initiatives

Disability & International Development Malcolm MacLachlan, Leslie Swartz, 2009-07-21 One of the greatest challenges facing modern global health is how to include the most marginalized and impoverished people in international efforts to promote social and

economic development In Disability and International Development disability rights are situated within the broader context of global health and the need for much greater inter sector collaboration Reports from a broad cross section of low and middle income countries locales as diverse as Zimbabwe Bolivia Kyrgyzstan and Papua New Guinea move beyond surface discussions of what is working and what shows promise to discuss political and governance contexts the roles of disabled persons in research by outsiders concurrent struggles e g women s or children s rights and instructive inroads made by community activists and national Disabled People s Organizations The results are provocative and offer new lenses for viewing both the issues and the populations they affect Each of the book s chapters spotlights a topic as representative of the enormity and immediacy of challenges to inclusive global health including The impact of international human rights law on domestic law and local traditions The effect of failed states on the lives of people with disabilities Empowerment and advocacy disability organizations and movements HIV AIDS interventions with disabled persons Assistive technologies in low income countries Strategies for improving the lives of children with disabilities Cross disciplinary as well as cross cultural Disability and International Development will attract a wide audience of professionals in rehabilitation social welfare and human rights governmental and non governmental organizations and disabled people s organizations researchers and practitioners It will also be relevant to those working in health and welfare administration health policy international aid and development and human rights In addition graduate students in disability studies public and global health and international development should find this an important guide to the future of these fields

Politics in the Corridor of Dying Jennifer Chan, 2015-03 Drawing on more than one hundred interviews conducted across eighteen countries the author documents the emergence of a diverse range of community based nongovernmental and civil society groups engaged in patient focused AIDS advocacy worldwide She also critically evaluates the evolving role of these groups in challenging authoritative global health governance schemes put in place by what she describes as overcontrolling or sanctimonious governments scientists religious figures journalists educators and corporations From publisher description

Legal Aspects of HIV/AIDS, 2007 This is an invaluable resource for lawyers policy makers and other practitioners with an interest in countries responses to HIV AIDS Legal Aspects of HIV AIDS A Guide for Policy and Law Reform covers 65 wide ranging topics in a concise accessible format explaining how laws and regulations can either underpin or undermine public health programs and responsible personal behavior For each topic the Guide summarizes the key legal or policy issues provides relevant practice examples citing actual laws and regulations and offers a selective list of references that may be consulted for more information Laws relating to many areas of our lives from intimate physical conduct to international travel can contribute to stigma discrimination and exclusion or contrariwise can help remedy these inequities In order to create a supportive legal framework for responding to HIV AIDS it is important that governments effectively address gaps and other problematic aspects in their legislation and regulatory systems This book written by a team of leading legal experts helps them do so

HIV/AIDS and Work International Labour Office, 2004 It is estimated that by the end of 2003 there were just under 38 million people living with HIV AIDS with all but two million of these people of working age This report prepared by the ILO Programme on HIV AIDS and the World of Work sets out global estimates of the impact of HIV AIDS on the labour force and the working age population in 50 countries in Africa Asia Latin America and the Caribbean and in more developed regions Issues discussed include the implications for the private and public sectors on agriculture and concerns for food insecurity and on the informal economy on women and children policy implications and examples of responses to the problem in a variety of workplace settings provision of antiretroviral therapy in conjunction with HIV prevention in the workplace and the potential for expanded access to workplace based treatment The Lawyer's Reference Manual of Law Books and Citations Charles Carroll Soule, 1883
