Hawes, Andrew C. Holman, Christopher Kirkey, 2021-04-13 The year 1968 in Canada was an extraordinary one unlike any other in its frenetic pace of activities and their consequences for the development of a new national consciousness among Canadians It was a year when decisions and actions both in Canada and outside its borders were thick and contentious and whose effects were momentous and far reaching It saw the rise of Trudeaumania and the birth of the Parti Qu b cois the articulation of the new nationalism in English Canada and an alternative vision for Indigenous rights and governance a series of public hearings in the Royal Commission on the Status of Women the establishment of the Canadian Radio and Television Commission nation wide Medicare and CanLit and a striving for both a new relationship with the United States and a more independent foreign policy everywhere else And more Virtually no segment of Canadian life was untouched by both the turmoil and the promise of generational change Published in English with chapters in French **Agenda for Canada** John Roberts, 1985 *The Market or the Public Domain* Daniel

Drache,2005-07-08 Examining the powerful idea of the return reconstitution and redeployment of the public domain in a post Seattle and post Washington consensus world order this innovative book is the most forward looking and comprehensive examination of the need to rethink the tenants of global free trade In the past two decades countries have focused on broadening and guaranteeing market access and as the pendulum swings back for the market the issue of investing in the public domain becomes a priority The authors believe that devising new institutions of governance for a globalizing world requires fundamental change nationally and internationally They argue that new public spaces places and services are required to strengthen democracy and create sanctuaries in society where the market mechanism cannot reach The public domain is an incipient concept that enables states to reduce the intrusiveness of markets and at the same time develop a strong national performance to reduce the inequality and social exclusion in an increasingly volatile global economy This original volume boasts an impressive list of international contributors who have demonstrated innovation and leadership in their fields It will strongly appeal to advanced students academics and policy makers involved in the field of global governance and international political economy Canada Among Nations 1984 Tomlin, Brian, Appel Molot, Maureen, 1985 An annual outlining national and international issues and Canadian policy towards them Queen's Quarterly ,1987

Negotiating World Order Gamani Corea,1986 **Canadiana** ,1986 **Handbook of Institutional Approaches to International Business** Geoffrey Wood,Mehmet Demirbag,2012-01-01 The latest generation of research in comparative institutional analysis of business is impressively captured in this volume readers find depth in theory development breadth in application to practice and policy and insight on the big research issues ahead Both generalist and specialist readers will find much of value here Bruce Evan Kaufman Georgia State University US This inspiring Handbook brings together alternative perspectives from a range of disciplines to shed light on the nature of institutions and their relationship to firm level practices and outcomes across a wide range of national settings Expertly written by leading scholars from a range of different starting points this compendium presents a synthesis of recent work relating to institutionally informed accounts from transitional and emerging markets as well as from mature economies It specifically focuses on the linkage between institutions and what goes on inside firms and the relationship between setting strategic choice and systemic outcomes The Handbook is explicitly multi disciplinary encompassing perspectives from a range of the functional areas of management studies It will prove invaluable for postgraduate students and faculty in international business and the wider research community in the areas of international business corporate governance socio economics and comparative HRM **Health Promotion and the Policy Process** Carole Clavier,Evelyne de Leeuw,2013-09-12 Scholars and governments recognize the importance of policy development and implementation for population health but there is a lack of systematic theoretical and conceptual development in the health field to address the issue Health Promotion and the Policy Process is the first book to take an in depth look at the theoretical advances in the political sciences including discussing the significance of political

economy and sociology which so far have made little progress in health promotion development The book argues that focusing on how public policies work makes it possible to move beyond the more behavioural health education approach and make the transition from political statements to political strategies The authors draw from a wide array of theories on the policy process in the fields of political science and political sociology to illuminate health promotion strategies and objectives For example they discuss how Kingdon s Multiple Streams Model Sabatier s Advocacy Coalition Framework and policy network theories can contribute to greater health equity healthy public policies and community development Through practical and critical tools research and experience based discussion Health Promotion and the Policy Process discusses how theories can be used to influence evaluate orient or implement health promotion interventions and policies This book will be essential reading for health promoters who want to make a difference by influencing social determinants of health at the policy level including students public health professionals researchers practitioners decision makers and those concerned with applied policy research

Restructuring Hegemony in the Global Political Economy Henk W

Overbeek,1993-05-06 Since the late 1970s the spread of Neo liberalism and the failure of socialist economies and systems in Eastern Europe have resulted in a practically unchallenged hegemony of international capital across the globe Neo liberalism is now the dominant ideology legitimizing the privatisation of state controlled economies and the substitution of the

Geographies of New Femininities Nina Laurie,Claire Dywer,Sarah L. Holloway,Fiona Smith,2014-06-03 Geographies of New Femininities examines the emergence of contemporary constructions of femininity in a global context It asks whether these femininities are new and suggests that current celebrations of diversity in the lived experience and performance of women s identities are largely Euro centric Through four in depth case studies Geographies of New Femininities illustrates how constructions of femininities across the world reflect gender inequalities embedded within global local geographies of social and economic change The analysis brings together key themes in geography and feminist studies showing how globalisation and the fracturing of identities are influencing research on gender Throughout the book the authors explore spaces of opportunity and oppression for women and highlight the geographies associated with the negotiation of gender identities Geographies of New Femininities moves between empirical and theoretical debate using first hand accounts to work through methodological issues relating to gender and geography It is deliberately written in an accessible style to encourage students to engage with up to date research on gender

Divided Loyalties Brooke Jeffrey,2010-12-04 The Liberal Party has governed Canada for much of the country s history Yet over the past two decades the natural governing party has seen a decrease in traditional support finding itself in opposition for nearly half of that time In *Divided Loyalties* Brooke Jeffrey draws on her own experience as a party insider and on interviews with more than sixty senior Liberals to

follow the trajectory of the party from 1984 to the leadership of Stéphane Dion in 2008. Riven by internal strife, leadership disputes and financial woes, the Liberal Party today faces unprecedented challenges that threaten its very future. Conventional wisdom attributes the origins of the disarray to personal conflict between Jean Chrétien and Paul Martin. However, Jeffrey argues that this divisiveness is actually the continuation of a dispute over Canadian federalism and national unity which began decades earlier between John Turner and Pierre Trudeau. This dispute, as evidenced by recent leadership crises, remains unresolved to this day. An insightful examination of the federal Liberal Party, *Divided Loyalties*, sheds much needed light on an increasingly fissured party.

Canadian Forest Policy Michael Howlett, 2001-01-01

Arguing that the complexity of policy making in the forest sector has led many analysts to focus exclusively on specific sectoral activities or jurisdictions, this collection of essays offers a simplifying framework of analysis.
