 this edited volume started in spring of 1998 some two years before the sixtieth birthday of Bernard P Zeigler The idea was to
 bring together distinguished researchers colleagues and former students of Professor Zeigler to present their latest findings
 at the AIS 2000 conference During the spring of 1999 the initial ideas evolved into creating a volume of articles surrounding
 seminal concepts pertaining to modeling and simulation as proposed developed and advocated by Professor Zeigler
 throughout his scientific career Also included would be articles describing progress covering related aspects of software
 engineering and artificial intelligence As this volume is emphasizing concepts and ideas spawned by the work of Bernard P
 Zeigler it is most appropriate to offer a biographical sketch of his scientific life thus putting into a historical perspective the
 contributions presented in this volume as well as new research directions that may lie ahead Bernard P Zeigler was born
