Harahan, 2008      **Knowledge Management and Organizational Memories** Rose Dieng-Kuntz, Nada Matta, 2012-12-06 Knowledge Management and Organizational Memories presents models methods and techniques for building managing and using corporate memories These models incorporate knowledge bases ontologies documents FAQs workflow systems case based reasoning systems multi agent systems and CSCW The book is divided into five parts methods knowledge based approaches ontologies and documents case based reasoning approaches and distributed and collaborative approaches      **Agent-based Supply Network Event Management** Roland Zimmermann, 2006-03-16 Supply Chain Event Management SCEM is one of the major topics in application oriented Supply Chain Management However many solutions lack conceptual precision and currently available client server SCEM systems are ill suited for complex supply networks in today s business environment Agent based proactive information logistics promises to overcome existing deficits by providing event related information to all participants in the distributed environment Hence follow up costs of disruptive events are significantly reduced for all network participants and performance of a supply network is increased In this book a thorough analysis of the event management problem domain is the starting point to develop a generic agent based approach to Supply Network Event Management The main focus lies on practical issues of event management e g semantic interoperability and economic benefits to be achieved with agent technology in this state of the art problem domain      **Trends in Supply Chain Design and Management** Hosang Jung, Fengshan Frank Chen, Bongju Jeong, 2007-07-17 New challenges in supply chain design and management emerged after the rapid development of information and network technologies and market requirements Four of these new technologies are Radio Frequency Identification RFID technology mobile transaction technology information handling and storage technology and multi agent technology They can enable companies to change their thinking about supply chain management to cope with these changes New methodologies include sustainable supply chain management advanced supply chain planning available to promise ATP systems and lean supply chain design and management This edited book describes new trends in supply chain design and management with an emphasis on technologies and methodologies and contains guidelines detailing the real world applications of these technologies and methodologies This book is of interest to researchers and practitioners and can also be used as a reference handbook by lecturers and postgraduate students in this field      **Agent-Mediated Knowledge Management** Ludger van Elst, Virginia Dignum, Andreas Abecker, 2004-01-26 This

book presents a coherent and well balanced collection of revised papers focusing on agent mediated knowledge management Most of the papers are extended and improved versions of work presented at the Symposium on Agent Mediated Knowledge Management AMKM 2003 held during the AAAI Spring Symposium in Stanford CA USA in March 2003 also included are 3 special articles including a detailed introduction to the topic by the volume editors The 28 papers are organized in topical sections on collaboration and peer to peer support agent based community support agent models for knowledge and organizations context and personalization ontologies and semantic Web agents and knowledge engineering Combat Poverty Agency Annual Report 2000 , FTS2001 transition challenges jeopardize program goals. ,2001 As you know telecommunications services are increasingly critical in transforming the way the federal government conducts business communicates internally and externally and interacts with citizens industry and state local and foreign governments Electronic government services based on reliable secure and cost effective telecommunications can enable agencies to streamline the way they conduct business reduce paperwork and delays and increase operational efficiencies They also offer the potential for building better relationships between government and the public by making interaction with citizens smoother easier and more efficient Accordingly it is important that a far reaching program like the FTS2001 program take full advantage of new services offered by industry that agencies effectively and efficiently implement these telecommunications services to improve operations and that the program be successfully implemented in order to maximize benefits to the taxpayers The FTS2001 program is the successor to FTS 2000 which provided long distance telecommunications services to federal agencies While federal agencies were required to use the FTS 2000 program for their long distance telecommunications FTS2001 is not mandatory The program relies instead on its ability to provide good services at low prices as a means of attracting and retaining federal customers Under the FTS2001 program strategy the General Services Administration GSA would also award contracts for local area telecommunications services and ultimately might allow those contractors to offer both local and FTS2001 long distance services *Engineering Societies in the Agents World V* Marie-Pierre Gleizes,Andrea Omicini,Franco Zambonelli,2005-08-25 The rst workshop Engineering Societies in the Agents World ESAW was held in August 2000 in conjunction with the 14th European Conference on Arti cial Intelligence ECAI 2000 in Berlin It was launched by a group of searchers who thought that the design and development of MASs multi agent systems not only needed adequate theoretical foundations but also a call for new techniques methodologies and infrastructures to develop MASs as arti cial societies The second ESAW was co located with the European Agent Summer School ACAI 2001 in Prague and mostly focused on logics and languages middleware infrastructures and applications In Madrid the third ESAW c centrated on models and methodologies and took place with the Cooperative Information Agents workshop CIA 2002 The fourth ESAW in London was the rst one that ran as a stand alone event apart from the usual works on methodologies and models it also stressed the issues of applications and m tidisciplinary models Based on the success of

previous ESAWs and also given that the different challenges in the construction of artificial societies are not yet fully addressed the fifth ESAW workshop was organized in the same spirit as its predecessors In particular

ESAW2004 took place at the IRIT Laboratory of the Universit e Paul Sabatier Toulouse France at the end of October 2004 It was not located with any other scientific event in the same way as ESAW 2003 ESAW 2004 remained committed to the use of the notion of MASs as the seeds for animated constructive and highly interdisciplinary discussions about technologies methodologies and tools for the engineering of complex distributed systems
