Aggadat Bereshit:

Aggadat Bereshit Lieve Teugels, 2020-01-29 Aggadat Bereshit is a homiletic Midrash on the Book of Genesis written in Hebrew about the 10th century CE. It has a unique threefold structure dividing the chapters or homilies according to the three parts of Tenakh: Torah, Genesis, Prophets and Writings. It contains interesting material, some unparalleled in rabbinic literature, such as an anti-Christian interpretation of Genesis 22. Besides being the first translation, this volume presents some variants from manuscripts unknown by its last editor S. Buber. Krakow, 1903. This English translation will be welcomed in the world of Jewish and Biblical Studies academics as well as lay persons with lesser knowledge of rabbinic Hebrew. The extensive introduction gives an up-to-date overview of the questions as to text, contents, structure, dating, and provenance of this hitherto neglected Midrash.

Understanding Genesis Volume Two Michael Harvey Koplitz, 2024-05-27 Parsha Chayei Sarah, Parsha Vayera, and Parsha Toldot are deeply examined in this volume using Semitic Bible Study Methods, including an analysis of the language and culture.

Understanding Genesis Volume 1 Michael Harvey Koplitz, 2024-05-26 This is a commentary on the first three parshim of the book of Genesis using Semitic Bible Study Methods.

The Legends of the Jews Louis Ginzberg, 1998-05-13 The notes for Volumes One and Two tell where legends appear and reappear, where versions differ, and where they contradict each other. When legends have been the subject of learned interpretation or debate, Ginzberg provides guidance to the commentaries and disputants; when the legends are part of a larger controversy, he provides context.
