Johnson, 2023-04-26 This book provides a comprehensive reading of Samuel Richardson s novels Using a combination of literary theory and criminology Christopher D Johnson demonstrates that Richardson not only understood the horrific dynamics of domestic violence but also recognized the degree to which his first novel Pamela or Virtue Rewarded 1740 could inadvertently normalize abusive relationships This recognition informed Richardson s subsequent novels and fueled his distrust of novelistic fiction especially those comedic works that depend on sudden transformations It also caused him to draw careful delineations between the practical instruction he hoped to provide and the ideals of his Christian faith particularly as they pertain to earthly suffering and self sacrifice The Richardson who emerges from the study becomes both a staunch defender of what he saw as a benevolent patriarchy and a fierce advocate for women s subjectivity happiness and safety **Excavations and Their Objects** Stephen Barker, 1996-01-01 This is a collection of essays concerned with the thematic implications of Freud s deep interest in the art objects in his collection of antiquity **Early Psychoanalytic Religious Writings** H. Origins of Religion in the Paleolithic Gregory J. Wightman, 2014-12-18 How did religion emerge and why? What are the links between behavior, environment, and religiosity? Diving millions of years into the past to a time when human ancestors began grappling with issues of safety, worth, identity, loss, power, and meaning in complex and difficult environments, Gregory J. Wightman explores the significance of goal-directed action and the rise of material culture for the advent of religiosity and ritual. The book opens by tackling questions of cognitive evolution and group psychology and how these ideas can integrate with archaeological evidence such as stone tools, shell beads, and graves. In turn, it focuses on how human ancestors engaged with their environments, how those engagements became routine, and how eventually certain routines took on a recognizably ritualistic flavor. Wightman also critically examines the very real constraints on drawing inferences about prehistoric belief systems solely from limited material residues. Nevertheless, Wightman argues that symbolic objects are not merely illustrative of religion but also constitutive of it. In the continual dance between brain and behavior, between internal and external environments, lie the seeds of ritual and religion. Weaving together insights from archaeology, anthropology, cognitive and cultural neuroscience, history, and philosophy of religions and evolutionary social and developmental psychology, Wightman provides an intricate, evidence-based understanding of religion's earliest origins. MORAL STANDARDS AND DEFENSE AGAINST AGGRESSION, THOMAS CARTWRIGHT GREENING, 1958 **A Theory of Primitive Christian Religion** Gerd Theissen, 2003 A discussion of primitive Christianity. Christianity in its original form; this work was first given as Speaker's Lectures in Oxford. Covering the first five centuries of Christianity, it argues that neither a theology of the New Testament nor a history of the early Church can do justice to all the dimensions of the earliest Christianity. It explores in depth the formation of primitive Christianity and studies the effect of the two great crises of primitive Christianity: the split with Judaism and the threat from Gnosticism. It is aimed at academic theologians. *The Astrological Neptune and the Quest for Redemption* Liz Greene, 2000-12-01 The longing for redemption is a many-headed daimon that dwells within the most earthbound and prosaic of souls. Neptune is the astrological symbol that describes this energy. Liz Greene, an internationally known astrologer, has given us the most complete and accessible book about Neptune ever written. She explores Neptune themes in literature, myth, politics, religion, fashion, and art to show how this energy manifests.
