Johnson, 1972 *Living with the Passive-Aggressive Man* Scott Wetzler, 2011-01-18 With more than 100 000 copies in print *Living with the Passive Aggressive Man* draws on case histories from clinical psychologist Scott Wetzler's practice to help you identify the destructive behavior the root causes and motivations and solutions Do you know one of these men The catch me if you can lover Phil's romantic and passionate one minute distant and cold the next The deviously manipulative coworker or boss Jack denies resenting Nora's rapid rise in the company but when they're assigned to work together on a project he undermines her The obstructionist procrastinating husband Bob keeps telling his wife he'll finish the painting job he began years ago but he never seems to get around to it These are all classic examples of the passive aggressive man This personality syndrome in which hostility wears a mask of passivity is currently the number one source of men's problems in relationships and on the job In *Living with the Passive Aggressive Man* Scott Wetzler draws upon numerous case histories from his own practice to explain how and why the passive aggressive man thinks feels and acts the way he does Dr Wetzler also offers advice on How to avoid playing victim manager or rescuer to the P A How to get his anger and fear into the open How to help the P A become a better lover husband and father How to survive passive aggressive game playing on the job *Living with a man's passive aggression* can be an emotional seesaw ride But armed with this book you can avoid the bumpy landings **Men, Women, And Aggression** Anne Campbell, 1993-06 A look at gender differences employs candid interviews with ordinary men and women to offer a new understanding of aggression asking why men are more aggressive than women **Discussions on War and Human Aggression** R. D. Givens, Martin A. Nettleship, 2011-05-12 No detailed description available for *Discussions on War and Human Aggression* **Man and Aggression** Ashley Montagu, 1973 *Man and Aggression* was first published in 1968 as a direct challenge to the concept of man's instinctual aggressive drive A concept advanced in the newly developing science of ethology the study of the behavior of different species by the eminent ethologist Konrad Lorenz and popularized in books by Robert Ardrey The appearance of subsequent critiques of the Lorenz thesis led the editor to enlarge and revise his original collection This second edition contains eight additional essays strengthening the book's sustained and reasoned criticism of the still fashionable contention that ethologists can understand human behavior by observing that of lower animals The nineteen authorities represented in this volume offer a fine dissection of this Hobbesian view of man They note among other phenomena the proclivities of many kinds of mammals to live together harmoniously they discuss the evidence for spontaneous aggression and distinguish between defensive and predatory killing they probe the possible cultural sources of human aggression Also included for the first time is an exploration of the ritual origin of cannibalism and an examination of the writings of Desmond Morris and Anthony Storr The book's purpose remains in the words of the editor to put the record straight to correct what threatens to become an epidemic error concerning the causes of man's aggression and to redirect

attention to a consideration of the real causes of such behavior Adapted from book jacket **A - Airports** British Library,2012-05-21 No detailed description available for A Airports **Wrestling with Destiny** Lucy Holmes,2013-03-20 Can psychoanalysis help people control their destinies Using empirical evidence from neuroscience Lucy Holmes makes a powerful argument that it can This book considers the various ways in which destiny is linked to the repetition compulsion and how free association in psychoanalysis can literally change the mind in ways that can help people reshape and take control of the future Freud s psychoanalysis is revealed here to be startlingly modern in its consonance with the latest findings in the study of the brain The compulsion to repeat can propel human beings toward destinies they would never have consciously chosen The tenacity of this human tendency can inhibit our ability to meet life s challenges These challenges include our gender an inability to master the complexities of loving and the strains of marriage fears regarding the impertinence of being successful the unconscious reptilian pleasure we derive from going to war and raping the planet and the inexorable decline and decay of our mortal flesh This book argues that the evolved talking that occurs in the psychoanalytic process can change the chemistry and structure of the brain in a way that helps the talker face these challenges and take charge of his or her own destiny The author presents a cogent hypothesis spanning brain and mind to clarify how the basic rule of psychoanalysis just say everything can actually cure This will appeal to mental health professionals such as psychoanalysts and psychotherapists and students at the post graduate level as well as the general interested reader *Religion and Men's Violence Against Women* Andy J. Johnson,2015-04-14 This reference offers the nuanced understanding and practical guidance needed to address domestic violence sexual assault and human trafficking in diverse religious communities Introductory chapters sort through the complexities from abusers distorting of sacred texts to justifying their actions to survivors conflicting feelings toward their faith The core of the book surveys findings on gender violence across Christian Jewish Islamic Eastern and Indigenous traditions both attitudes that promote abuse and spiritual resources that can be used to promote healing Best practices are included for appropriate treatment of survivors their children and abusers and for partnering with communities and clergy toward stemming violence against women Among the topics featured Ecclesiastical policies vs lived social relationships gender parity attitudes and ethics Women s spiritual struggles and resources to cope with intimate partner aggression Christian stereotypes and violence against North America s native women Addressing intimate partner violence in rural church communities Collaboration between community service agencies and faith based institutions Providing hope in faith communities creating a domestic violence policy for families Religion and Men s Violence against Women will gain a wide audience among psychologists social workers marriage and family therapists and other mental health professionals who treat religious clients or specialize in treating survivors and perpetrators of domestic and intimate partner violence stalking sexual assault rape or human trafficking **Breaking Passive-Aggressive Cycles** Dee Brown,2010-06 Help for women who are impacted by passive aggressive men

Tracing the Melanesian Person Susan R. Hemer, 2013 This book explores what it means to be Lihirian through an analysis of everyday life in the Lihir Islands Papua New Guinea Atop four volcanic islands in the Pacific Ocean east of New Ireland Lihirians are living in a world that has rapidly changed in the last century through the work of Christian missions government administration and the development of a large gold mine Lihir Gold Ltd Being Lihirian in the context of these changes is challenging yet Lihirians retain a strong sense of themselves and their islands as distinctive This book aims to reconcile what has been termed the root metaphor of Melanesian sociality as based on relational or composite personhood with the strong individualist tendencies and sense of self that are found in everyday practice in Lihir In looking beyond the ideals of moral conduct to the practice of relations and emotion it can be seen that the symbolism of Melanesian sociality does not encompass the practical reality of what it means to be Lihirian Emotion is a ubiquitous part of life in Lihir Emotions

are motivations reactions and remarks on the state of self and other in short emotions are integral to relations and persons in Lihir This book considers emotions both through their performative contexts as well as the more usual lexical analyses of emotion terms and commentaries In moving beyond lexical analyses Hemer argues that the strong focus on the semantics of emotion in anthropology has been at the expense of the embodied practice of emotion that was apparent in Lihir Through this engaging ethnographic account of connections conflicts and loss in Lihir Hemer s own fieldwork journey of making relationships experiencing disputes and finally leaving the field is mirrored Structured into three parts the book works through the complexities of creating and sustaining relationships the evaluation of conduct as moral and the practices of conflict and the experiences and transformations of death and grief Throughout these parts various emotions are highlighted and interrogated for their relationship to psychological understandings and definitions love anger jealousy sadness Emotions are also understood in a historical context and as connected to social changes wrought by interactions with global phenomena such as religion

The Concept of Defense Mechanisms in Contemporary Psychology Uwe Hentschel, Gudmund J.W. Smith, Wolfram Ehlers, Juris G. Draguns, 2012-12-06 What is the scientific status and the truth value of the concept of defense mechanisms Among contemporary psychologists three types of answers to this question may be expected Some would wholeheartedly endorse the theoretical clinical and research value of this notion others would reject it outright Between these two extremes a large number of observers perhaps the majority would suspend their judgment Their attitude compounded of hope and doubt would capitalize on defense as an interesting and promising concept At the same time these psychologists would express skepticism and disappointment over its clinical limitations theoretical ambiguity and research failures The present volume is primarily addressed to the audience of hopeful skeptics those who have not given up on the notion of defense yet have been frustrated by the difficulties of incorporating it into the modern streamlined structure of psychology To this end we have brought together theoretical and empirical contributions germane to defense together with reports about their applications to clinical and personality assessment especially in relation to psychopathology psychosomatics and psychotherapeutic intervention
