*Impulse* Michael J. Griffin, Tom Moylan, 2007 A series of essays by an international and trans disciplinary group of contributors which explores the nature and extent of the utopian impulse Working across a range of historical periods and cultures the book investigates key aspects of utopian theory texts and socio political practices Political Violence and the Struggle in South Africa Andre du Toit, N. Chabani Manganyi, 2016-07-27 This book provides a unique perspective at once scholarly and fully engaged on the political violence in South Africa during The Time of the Comrades in the mid 1980s The work of a group of social scientists and professionals whose own work and thinking have been profoundly affected by the political crisis of that time it provides an in depth research and analysis as well as critical reflections on the difficult political and theoretical issues raised by political violence and the struggle in South Africa **Violence and Dystopia** Daniel

Cojocaru, 2015-09-18 Violence and Dystopia is a critical examination of imitative desire scapegoating and sacrifice in selected contemporary Western dystopian narratives through the lens of Ren Girard's mimetic theory The first chapter offers an overview of the history of Western utopia dystopia with a special emphasis on the problem of conflictive mimesis and scapegoating violence and a critical introduction to Girard's theory The second chapter is devoted to J G Ballard's seminal novel Crash 1973 Chuck Palahniuk's Fight Club 1996 and Rant 2007 and Brad Anderson's film The Machinist 2004 It is argued that the car crash functions as a metaphor for conflictive mimetic desire and leads to a quasi sacrificial crisis as defined by Girard for archaic religion The third chapter focuses on the psychogeographical writings of Iain Sinclair and Peter Ackroyd Walking the streets of London the pedestrian represents the excluded underside of the world of Ballardian speed The walking subject is portrayed in terms of the expelled victim of Girardian theory The fourth chapter considers violent crowds as portrayed by Ballard's late fiction the writings of Stewart Home and David Peace's GB84 2004 In accordance with Girard's hypothesis the discussed narratives reveal the failure of scapegoat expulsion to restore peace to the potentially self destructive violent crowds The fifth chapter examines the post apocalyptic environments resulting from failed scapegoat expulsion and mimetic conflict out of control as portrayed in Sinclair's Radon Daughters 1994 Margaret Atwood's The Handmaid's Tale 1985 and Oryx and Crake 2003 and Will Self's The Book of Dave 2006 Coping with Violence in the New Testament Pieter de Villiers, Jan Willem van Henten, 2012-01-20 Violence is present in the very heart of religion and its sacred traditions also of Christianity and the Bible The problem however is not only that violence is ingrained in the mere existence

of religions with their sacred traditions It is equally problematic to realise that the icy grip of violence on the sacred has gone unnoticed and unchallenged for a very long time The present publication aims to contribute to the recent scholarly debate about the interconnections between violence and monotheistic religions by analysing the role of violence in the New Testament as well as by offering some hermeneutical perspectives on violence as it is articulated in the earliest Christian writings Contributors include Andries G van Aarde Paul Decock Pieter G R de Villiers Ernest van Eck Jan Willem van Henten Rob van Houwelingen Kobus Kok Tobias Nicklas Jeremy Punt Jan G van der Watt and Wim Weren The Johannine Footwashing as the Sign of Perfect Love Bincy Mathew, 2018-11-23 Back cover Was the footwashing in Jn 13 1 20 simply an act of service or humility Bincy Mathew provides a critical and thorough exegetical analysis of the footwashing and shows that it is the symbolic prefiguration of Jesus death on the cross enacted during the last supper to manifest his perfect love for his own **Horizons of the Future** Graham B. Slater, 2024-06-14 Horizons of the Future Science Fiction Utopian

Imagination and the Politics of Education examines the relationship between science fiction education and social change in the 21st century Global capitalism is ecologically unsustainable and ethically indefensible time is running out to alter the course of history if humanity is to have hope of a livable future beyond the next century However alternatives are possible offering much more equality care justice joy and hope than the established order Popular culture and schools are key sites of struggles to imagine such alternatives Drawing on critical theory cultural studies and sociology Slater articulates the promising connection between science fiction and the future of education He offers cutting edge engagement with themes perspectives and modes of imagination in science fiction that can be mobilized politically and pedagogically to envision and enact critical forms of education that cultivate new utopian ways of relating to self society and the future This thought provoking book will be of interest to scholars and students in the social sciences and education **The Ashgate Research**

**Companion to International Criminal Law** Yvonne McDermott, 2016-03-23 International criminal law is at a crucial point in its history and development and the time is right for practitioners academics and students to take stock of the lessons learnt from the past fifteen years as the international community moves towards an increasingly uni polar international criminal legal order with the International Criminal Court ICC at the helm This unique Research Companion takes a critical approach to a wide variety of theoretical practical legal and policy issues surrounding and underpinning the operation of international criminal law as applied by international criminal tribunals The book is divided into four main parts The first part analyses international crimes and modes of liability with a view to identifying areas which have been inconsistently or misguidedly interpreted overlooked to date or are likely to be increasingly significant in future The second part examines international criminal processes and procedures and here the authors discuss issues such as victim participation and the rights of the accused The third part is a discussion of complementarity and sentencing while the final part of the book looks at international criminal justice in context The authors raise issues which are likely to provide the most significant challenges

and most promising opportunities for the continuing development of this body of law As international criminal law becomes more established as a distinct discipline it becomes imperative for international criminal scholarship to provide a degree of critical analysis both of individual legal issues and of the international criminal project as a whole This book represents an important collective effort to introduce an element of legal realism or critical legal studies into the academic discourse

**War, Aggression and Self-Defence** Yoram Dinstein, 2017-09-28 Yoram Dinstein's influential War Aggression and Self Defence is an indispensable guide to the international legal issues of war and peace Violence Explained John Wear Burton, 1997 Burton argues that the sources of conflict and violence are on the one hand the denial to many of their personal needs for development social recognition and identity and on the other the social expectation of compliance and the means used to enforce it Social protest terrorism revolution self appointed leaderships ethnic conflicts industrial strife street gangs of unemployed youth and even some family violence can be explained within this frame of structural violence He examines the adversarial institutions of society leadership legislatures the work place the legal system and the international relations system and considers what each would be like if designed to solve basic problems rather than to contain them This provocative and challenging book will be of interest to students lecturers and practitioners of politics administration and management industry law and law enforcement education and social work **Religion and Violence** Jeffrey Ian Ross, 2015-03-04 First Published in 2015 Daily newspaper headlines talk radio and cable television broadcasts and Internet news web sites continuously highlight the relationship between religion and violence These media contain stories about such diverse incidents as suicide attacks by Islamic fundamentalists in Afghanistan Iraq Israel Pakistan and elsewhere and assassinations of doctors who perform abortions by white American Christian true believers in the United States How does one make sense of the role of religion in violence and of perpetrators of violence who cite religion as a motivation This encyclopedia includes a wide range of entries biographies of key figures historical events religious groups countries and regions where religion and violence have intersected and practices rituals and processes of religious violence Christian Faith and Violence 2, 2019-12-30 Volumes 10 and 11 of Studies in Reformed Theology consist of the texts written for the fifth international conference of the International Reformed Theological Institute IRTI which was dedicated to the theme Christian Faith and Violence Specific theological questions were at the core of the discussions e.g. what does violence imply for the doctrine of God How to deal with biblical stories and commands that often contain an overwhelmingly violent character What about applying christian ethics in situations of violence that we are exposed to What is our calling in situations of oppression and a longing for liberation and justice **Practical Pacifism** Andrew Fiala, 2004 The United States has a unique responsibility and opportunity to use democracy to end war but after 9 11 many can no longer imagine pacifism in any form Practical Pacifism argues for an approach to peace that aims toward a moral consensus that is developed pragmatically through dialogue aimed at overlapping consensus Andrew Fiala is an Associate Professor of Philosophy and Humanistic

Studies at the University of Wisconsin He has written many articles for Philosophy in the Contemporary World Metaphilosophy Res Publica the Internet Encyclopedia of Philosophy and The Humanist Divine Violence and the Character of God Claude F. Mariottini,2022-02-01 There is much violence in the Old Testament both human and divine Christians and non Christians react differently to what they read about the God of the Old Testament Some people are so affected by the violence found in the Old Testament that they give up on God stop going to church and reading the Bible and eventually lose their faith Others are offended by divine violence and seek to find an alternative explanation for the violent acts of God in the Old Testament A popular alternative in the twenty first century is to return to the second century and adopt some form of Marcionism and make the God of the Old Testament to be a different God from the God revealed by Christ in the New Testament The purpose of this book is not a defense of God and his use of violence The author seeks to understand why God acted the way he did and to understand the reason for divine violence in the Old Testament Yahweh did use violence in his work of reconciliation However the use of violence was necessary when everything else failed Israel provoked God to anger When God brought judgment upon his people he did so with tears in his eyes **Fredric Jameson** Adam Charles Roberts,2000 Widely recognised as one of today s most important cultural critics Adam Roberts offers an engaging introduction to this crucial figure which will convince any student of contemporary theory that Jameson must be read *Marxism, Revolution and Utopia* Herbert Marcuse,2014-03-26 This collection assembles some of Herbert Marcuse s most important work and presents for the first time his responses to and development of classic Marxist approaches to revolution and utopia as well as his own theoretical and political perspectives This sixth and final volume of Marcuse s collected papers shows Marcuse s rejection of the prevailing twentieth century Marxist theory and socialist practice which he saw as inadequate for a thorough critique of Western and Soviet bureaucracy and the development of his revolutionary thought towards a critique of the consumer society Marcuse s later philosophical perspectives on technology ecology and human emancipation sat at odds with many of the classic tenets of Marx s materialist dialectic which placed the working class as the central agent of change in capitalist societies As the material from this volume shows Marcuse was not only a theorist of Marxist thought and practice in the twentieth century but also proves to be an essential thinker for understanding the neoliberal phase of capitalism and resistance in the twenty first century A comprehensive introduction by Douglas Kellner and Clayton Pierce places Marcuse s philosophy in the context of his engagement with the main currents of twentieth century philosophy while also providing important analyses of his anticipatory theorization of capitalist development through a neoliberal restructuring of society The volume concludes with an afterword by Peter Marcuse Coyote's Song Richard D. Erlich,2009-12-01 A major study of the major and minor fiction poetry and children s books of SF and fantasy writer Ursula K Le Guin As Le Guin herself writes It is written in English not academese and will be of interest to a wide spectrum of students scholars and interested readers **Utopia Matters** Marinela Freitas,2005 **Utopian Thought in the Western**

**World** Frank Edward MANUEL, Fritzie Prigohzy Manuel, Frank Edward Manuel, 2009-06-30 This masterly study has a grand sweep. It ranges over centuries with a long look backward over several millennia. Yet the history it unfolds is primarily the story of individuals, thinkers and dreamers who envisaged an ideal social order and described it persuasively, leaving a mark on their own and later times. The roster of utopians includes men of all stripes in different countries and eras, figures as disparate as More and Fourier, the Marquis de Sade and Edward Bellamy, Rousseau and Marx. Fascinating character studies of the major figures are among the delights of the book. Utopian writings run the gamut from fictional narratives to theoretical treatises, from political manifestos to constitutions for a new society. The Manuels have structured five centuries of utopian invention by identifying successive constellations, groups of thinkers joined by common social and moral concerns. Within this framework they analyze individual writings in the context of the author's life and of the socio-economic, religious and political exigencies of his time. Concentrating on innovative works, they highlight disjunctures as well as continuities in utopian thought from the Renaissance through the twentieth century. Witty and erudite, challenging in its interpretations and provocative in the questions it poses, the Manuels' anatomy of utopia is an adventure in ideas. **A Pacifist at Iwo Jima** Lee Mandel, 2022-03-23 In the 1930s Rabbi Roland Gittelsohn was a distinguished scholar and vocal pacifist. After the attack on Pearl Harbor, he had a change of heart and volunteered to serve as a chaplain in the US Navy. The first rabbi ever deployed with the Marine Corps, he found himself in the bloody battle at Iwo Jima. At war's end, at the dedication of the 5th Marine Division cemetery, he gave a renowned speech known as the Gettysburg Address of World War II. This biography is based on multiple sources, including Gittelsohn's personal papers, beginning with his family's emigration from Russia to the United States. From the growing antiwar movement after World War I to the training of military chaplains and the anti-Semitism among their ranks, important events further contextualize Gittelsohn's life, including his illustrious postwar career and service on President Harry S. Truman's Committee on Civil Rights.
