Aging And Human Motivation:

Aging and Human Motivation Ernest Furchtgott, Mary Wilkes Furchtgott, 1999-10-31 This book covers age associated changes in human motivation Starting with age decrements in energetic or biological functions it progresses to an analysis of the psychological and sociological factors that affect the behavioral choices of healthy older people The author emphasizes the contextual nature of human motives to examine a variety of behaviors ranging from the traditional to the more complex

Aging and Human Motivation Ernest Furchtgott, 2013-03-14 I first met Ernest Furchtgott twenty five years ago after joining the faculty of the College of Social Work at the University of South Carolina At that time Ernie chaired the Department of Psychology In the following three years we collaborated with an Academic Committee on Gerontology in conceptualizing and shaping the University's Certificate of Graduate Study in Gerontology Program guiding it to final approval by the South Carolina Commission on Higher Education For twenty years we team taught our graduate level course Psychosocial Approaches to Gerontology involving colleagues from related disciplines Over the years we examined and jointly graded hundreds of research posters prepared by our graduate students in gerontology as their final course requirement Several years ago Ernie formally retired from the university He instantly agreed to my request that he continue teaching the psychology of aging portion of our interdisciplinary course On campus nearly every day since retirement Ernie frequently telephoned to discuss a recent article in *The Gerontologist* or a paper presentation that had excited him at the Gerontological Society's annual scientific meeting He maintained a clear presence in the academic community

Spector,2017-03-02 The psychology of aging is an exciting and rapidly developing field This volume provides a collection of classic original and often widely cited papers including some older papers which may be hard to find through conventional searches Taken together they help to address some key questions what are the cognitive changes related to aging Is mental exercise useful To what extent might intelligence education or stimulating mental activities delay or even reduce cognitive symptoms of dementia However the book goes well beyond cognition and addresses social and emotional changes in aging as well as looking at how lifestyle factors may be influential in psychological functioning The section on the psychology of dementia covers the evolving psychological models plus innovative types of psychological interventions As more people live to an age where they are dependent on others the book also considers the stresses on carers and how carers can be supported Lastly other aspects of mental health problems in old age are addressed including depression PTSD and

personality disorder This collection of intriguing and inspiring papers will live up the shelves of students researchers and academics in the field as well as being a very useful resource for research teaching and study

Age in the Workplace

Donald Truxillo,Franco Fraccaroli,2016-01-08 The workforce across industrialized nations has become both older and more age diverse and this trend is expected to continue in the coming decades These changes will have important implications for motivating and managing both individual employees and teams and because people are retiring later it is important to address ways to sustain the wellbeing and productivity of workers With a specifically international focus this volume addresses these critical issues from the individual and psychological perspectives Based primarily in empirical research it covers a wide range of topics related to the aging workforce including the motivation of older workers to work and to retire what organizations can do to attract and retain the talent of older workers how to improve relations and productivity among age diverse teams how to design jobs to support older and younger talent and how to better understand why older workers may choose to return to work This volume includes contributions from the top psychological researchers in the field of the aging workforce This book was originally published as a special issue of the European Journal of Work and Organizational Psychology

The Multi-generational and Aging Workforce Ronald J. Burke,Cary L. Cooper,Alexander-Stamatios G.
