Roger L Ransom follows the consequences of the what if scenario over an extended period of time exploring such issues as the fate of slavery in a CSA how the economies of the USA and the CSA would have developed and how their foreign policies would have differed The result is a fascinating historical vision that is a source of insight into the critical events of the Civil War period as they actually happened *A Bibliography of Historical Economics to 1980* Deirdre N. Hersch, Jr, 1990 Historians and economists will find here what their fields have in common the movement since the 1950s known variously as cliometrics economic history or historical economics A leading figure in the movement Donald McCloskey has compiled with the help of George Hersch and a panel of distinguished advisors a highly comprehensive bibliography of historical economics covering the period up until 1980 The book will be useful to all economic historians as well as quantitative historians applied economists historical demographers business historians national income accountants and social historians *Themes of the American Civil War* Susan-Mary Grant, Brian Holden-Reid, 2009-09-10 *Themes of the American Civil War* offers a timely and useful guide to this vast topic for a new generation of students The volume provides a broad ranging assessment of the causes complexities and consequences of America's most destructive conflict to date The essays written by top scholars in the field and reworked for this new edition explore how and in what ways differing interpretations of the war have arisen and explains clearly why the American Civil War remains a subject of enduring interest It includes chapters covering four broad areas including The Political Front The Military Front The Race Front and The Ideological Front Additions to the second edition include a new introduction added to the current introduction by James McPherson a chapter on gender as well as information on the remembrance of the war historical memory The addition of several maps a timeline and an appendix listing further reading battlefield statistics and battle regiment general names focuses the book squarely at undergraduates in both the US and abroad **Technology, Sustainability, and Rural Development in Africa** Maumbe, Blessing, Okello, Julius J., 2013-03-31 This book provides research analytical methods techniques and development policies in ICT adoption and diffusion in Africa and around the globe highlighting the major trends in ICT applications and rural development Provided by publisher *Landless Households in Rural Europe, 1600-1900* Christine Fertig, Richard Paping, Henry French, 2022 First comparative study of landless households brings out their major role in European history and society The numbers of landless people those lacking formal rights to land or possessing only tiny smallholdings grew rapidly across post medieval Europe as rural population and economic growth divided landowners and farmers from increasingly landless rural workers But they have hitherto been relatively neglected a gap which this volume covering Scandinavia Germany Austria Netherlands Belgium Britain France and Spain from the sixteenth to the early twentieth centuries aims to fill making creative use of a diverse range of unexplored sources Instead of concentrating on the well documented cases of landholding peasants it explores the many different experiences of the numerous rural landless It explains how their households were formed often in the face of economic difficulties and official hostility how all the

members of a family contributed to its survival how the landless related to other social groups and negotiated access to vital resources and how they adapted as rural society was changed by war politics agrarian and industrial development government policy and welfare systems Contributors Arnau Barquer i Cerd John Broad Dieter Bruneel Christine Fertig Henry French Margareth Lanzinger Jonas Lindstr m Riikka Miettinen Richard Paping Wouter Ronsijn Merja Uotila Nadine Vivierlated to other social groups and negotiated access to vital resources and how they adapted as rural society was changed by war politics agrarian and industrial development government policy and welfare systems Contributors Arnau Barquer i Cerd John Broad Dieter Bruneel Christine Fertig Henry French Margareth Lanzinger Jonas Lindstr m Riikka Miettinen Richard Paping Wouter Ronsijn Merja Uotila Nadine Vivierlated to other social groups and negotiated access to vital resources and how they adapted as rural society was changed by war politics agrarian and industrial development government policy and welfare systems Contributors Arnau Barquer i Cerd John Broad Dieter Bruneel Christine Fertig Henry French Margareth Lanzinger Jonas Lindstr m Riikka Miettinen Richard Paping Wouter Ronsijn Merja Uotila Nadine Vivierlated to other social groups and negotiated access to vital resources and how they adapted as rural society was changed by war politics agrarian and industrial development government policy and welfare systems Contributors Arnau Barquer i Cerd John Broad Dieter Bruneel Christine Fertig Henry French Margareth Lanzinger Jonas Lindstr m Riikka Miettinen Richard Paping Wouter Ronsijn Merja Uotila Nadine Vivier

Selected Speeches and News Releases United States. Department of Agriculture. Office of Public Affairs (1989-),1990 **Up from the Mudsills of Hell** Connie L. Lester,2006-12-01 Up from the Mudsills of Hell analyzes agrarian activism in Tennessee from the 1870s to 1915 within the context of farmers lives community institutions and familial and communal networks Locating the origins of the agrarian movements in the state s late antebellum and post Civil War farm economy Connie Lester traces the development of rural reform from the cooperative efforts of the Grange the Agricultural Wheel and the Farmers Alliance through the insurgency of the People s Party and the emerging rural bureaucracy of the Cooperative Extension Service and the Tennessee Department of Agriculture Lester ties together a rich and often contradictory history of cooperativism prohibition disfranchisement labor conflicts and third party politics to show that Tennessee agrarianism was more complex and threatening to the established political and economic order than previously recognized As farmers reached across gender racial and political boundaries to create a mass movement they shifted the ground under the monoliths of southern life Once the Democratic Party had destroyed the insurgency farmers responded in both traditional and progressive ways Some turned inward focusing on a localism that promoted sometimes through violence rigid adherence to established social boundaries Others however organized into the Farmers Union whose membership infiltrated the Tennessee Department of Agriculture and the Cooperative Extension Service Acting through these bureaucracies Tennessee agrarian leaders exerted an important influence over the development of agricultural legislation for the twentieth century Up from the Mudsills of Hell not only

provides an important reassessment of agrarian reform and radicalism in Tennessee but also links this Upper South state into the broader sweep of southern and American farm movements emerging in the late nineteenth century *The Wild and the Sown* Mauro Ambrosoli, 1997-01-09 This book describes the spread of new agricultural practice in the half millennium after 1350 and reconstructs a neglected part of Europe's agricultural past the introduction of fodder crops and the continuous reorganisation of traditional botanical inputs within a new system of farming It breaks entirely new ground by showing the distant historical origins of a major transformation in land potential and farm productivity A vast range of evidence is cited from Italy France England and elsewhere to produce in effect an economic social and cultural history of Europe in which the focus is on the long distance consequences of the agricultural revolution **Consumers' Guide** United States. Agricultural Adjustment Administration, 1939 Farm to Factory Robert C. Allen, 2021-07-13 To say that history's greatest economic experiment Soviet communism was also its greatest economic failure is to say what many consider obvious Here in a startling reinterpretation Robert Allen argues that the USSR was one of the most successful developing economies of the twentieth century He reaches this provocative conclusion by recalculating national consumption and using economic demographic and computer simulation models to address the what if questions central to Soviet history Moreover by comparing Soviet performance not only with advanced but with less developed countries he provides a meaningful context for its evaluation Although the Russian economy began to develop in the late nineteenth century based on wheat exports modern economic growth proved elusive But growth was rapid from 1928 to the 1970s due to successful Five Year Plans Notwithstanding the horrors of Stalinism the building of heavy industry accelerated growth during the 1930s and raised living standards especially for the many peasants who moved to cities A sudden drop in fertility due to the education of women and their employment outside the home also facilitated growth While highlighting the previously underemphasized achievements of Soviet planning *Farm to Factory* also shows through methodical analysis set in fluid prose that Stalin's worst excesses such as the bloody collectivization of agriculture did little to spur growth Economic development stagnated after 1970 as vital resources were diverted to the military and as a Soviet leadership lacking in original thought pursued wasteful investments
