Kruger,2013-10-28 This is the first book length study of the rich fiction that has emerged from the AIDS crisis Examining first the ways in which scientific discourse on AIDS has reflected ideologies of gender and sexuality such as the construction of AIDS as a disease of gay men part of a battle over masculinity and thus largely excluding women with AIDS from public attention the book considers how such discourses have shaped narrative understandings of AIDS On the one hand AIDS is seen as an invariably fatal weakening of an individual s bodily defenses a depiction often used to reconfirm an identification between disease and a weak and vulnerable gayness On the other hand AIDS is understood in terms of an epidemic attributable to gay immorality or unnaturalness The fiction of AIDS depends upon these two narratives with one major subgenre of AIDS novel presenting narratives of personal illness decline and death and a second focusing on epidemic spread These novels also question the narrative structures upon which they depend intervening particularly against the homophobia of those structures though also sometimes reinforcing it **The Cancer Microbe** Alan Cantwell,1990 A revolutionary book which provides evidence to show that the infectious cause of cancer is already known and that the discovery was made a century ago P 4 of cover Transcending AIDS Peggy McGarrahan,1994 This is a poignant study of fifty registered nurses who have chosen to specialize in the care of HIV infected patients in New York City The nurses explain how they and their patients come to terms with fear anger rejection abandonment and death National Library of Medicine Current Catalog National Library of Medicine (U.S.), Theory of gontierism Vol 1 Darrell Gontier,2012-07-08 Darrells Theory of numbers and numerology completely different Conspiracy Panics Jack Z.
