J. K. Mason,2013-12-19 Handbook of Pediatric Psychology in School Settings Ronald T. Brown,2003-09-12 In recent years
the escalating costs of health care have caused managed care programs to shift the delivery of pediatric psychological
services away from specialized medical centers and into primary care and school settings One result has been a radical
expansion of school psychology into issues of clinical intervention health promotion and the assessment of psychotropic
medications School psychologists are now expected to either deliver or more likely to provide consultation regarding a wide
variety of pediatric psychological services Because this is a recent phenomenon very few school based psychologists or allied
health practitioners school counselors and social workers have received training in pediatric psychology The mission of this
book is to provide them with a comprehensive and authoritative guide to their newly acquired responsibilities in such areas
as psychotherapy psychopharmacology health promotion and prevention of disease This book is appropriate for anyone
