Gilks,Yibeltal Assefa Alemu,2024-09-01 In highlighting how a WHO Public Health Approach PHA has been successfully used in developing countries to provide HIV AIDS patients with antiretroviral therapy ART this important book provides a template for how the PHA can be implemented to treat other chronic but non communicable diseases NCDs as well With over 28 million people globally now receiving treatment for HIV AIDS it s clear there are lessons to be learnt from the provision of ART which have great relevance for NCD care and towards achieving universal health coverage in the global south The first section of the book provides a detailed overview of the strategy that enabled such a successful programme to be taken place the challenges faced and its evolution over time The book then moves on to assert that by approaching other chronic NCDs in a similar way focussing on populations with integrated long term and short term person centred care there is a pathway towards universal health care and Universal Health Coverage across the developing world Discussing many of the most pressing diseases and public health issues affecting these regions this book provides global health scholars and practitioners with a detailed analysis of the challenges faced in tackling these diseases but also an integrated person centred health care approach by which these challenges may be met *Sant'Egidio's Dream* Roberto Morozzo della Rocca,2024-05-01 The story of an innovative program of treatment for AIDS in Africa that succeeded in the face of international development agencies afro pessimism Until this century Western governments and foundations framing policies for AIDS relief in Africa maintained that prevention alone was a preferable alternative to prevention plus treatment which would be costly and impractical in Africa or would benefit only the prosperous and well connected Sant Egidio s Dream argues that this initial failed approach to AIDS in African countries reflects a global moral blindness to the imperative to save lives which was not lost on the Community of Sant Egidio an Italian Catholic social movement rooted in the gospel and friendship and present in 70 countries Drawing on two decades of peacemaking and humanitarian experience in Africa the movement grasped the evidence that HIV if treated does not lead to AIDS and to death and saw that treatment gives hope in Africa just as it does in the developed world By enabling large numbers of people to live with a chronic disease and involving family and neighbors in

free and effective care it offers a dream of a society surviving and even thriving in spite of HIV In 2002 Sant Egidio established the DREAM Drug Resource Enhancement Against AIDS and Malnutrition project a community based approach to the AIDS crisis rooted in medicine epidemiology and public health that has proven effective in ten countries where it has been implemented and has emerged as a model for healthcare in the global South
