## **Ain Search Of The True West Culture Economics And Proble:**

In Search of the True West Esther Kingston-Mann, 1998-12-21 This ground breaking work documents Russian efforts to appropriate Western solutions to the problem of economic backwardness since the time of Catherine the Great Entangled then as now with issues of cultural borrowing educated Russians searched for Western nations ideas and social groups that embodied universal economic truths applicable to their own country Esther Kingston Mann describes Russian Westernization which emphasized German as well as Anglo U S economics while she raises important questions about core values of Western culture and how cultural values and priorities are determined This is the first historical account of the significant role played by Russian social scientists in nineteenth century Western economic and social thought In an era of rapid Western colonial expansion the Russian quest for the right Western economic model became more urgent Was Russia condemned to the fate of India if it did not become an England In the 1900s Russian liberal economists emphasized cultural difference and historical context while Marxists and prerevolutionary government reformers declared that inexorable economic laws doomed peasants and their medieval communities On the eve of 1917 both the tsarist regime and its leading critics agreed that Russia must choose between Western style progress or feudal stagnation And when peasants and communes survived until Stalin s time he mercilessly destroyed them in the name of progress Today Russia s painful modernizing traditions shape the policies of contemporary reformers who seem as certain as their predecessors that economic progress requires wholesale obliteration of the past

Afghanistan and Haiti Absorbing and authoritative Fragile States will be an invaluable resource for students and scholars of international relations security studies and development

**Imagining Russian Regions** Susan Smith-Peter, 2017-10-02 In *Imagining Russian Regions Subnational Identity and Civil Society in Nineteenth Century Russia* Susan Smith Peter shows how ideas of civil society encouraged the growth of subnational identity in Russia before 1861 Adam Smith and G W F Hegel's ideas of civil society influenced Russians and the resulting plans to stimulate the growth of civil society also formed subnational identities It challenges the view of the provinces as empty space held by Nikolai Gogol who rejected the new non noble provincial identity and welcomed a noble only district identity By 1861 these non noble and noble publics would come together to form a multi estate provincial civil society whose promise was not fulfilled due to the decision of the government to keep the peasant estate institutionally separate

*The House in the Garden* John Randolph, 2018-07-05 Aspiring thinkers require a stage for their performance and an audience to help give their actions distinction and meaning To be made durable and influential their charismatic stories have to be framed by supporting ideals practices and institutions Although the biographies of the Empire's most famous thinkers have a comfortable platform in modern Russia's printed record scholars have yet to explore fully the intimate context surrounding their activities in the early nineteenth century There is as a result a certain homeless quality to our understandings of Imperial Russian culture which this history of one extremely productive home will help us correct from *The House in the Garden* The House in the Garden explores the role played by domesticity in the making of Imperial Russian intellectual traditions It tells the story of the Bakunins a distinguished noble family who in 1779 chose to abandon their home in St Petersburg for a rustic manor house in central Russia's Tver Province At the time the Russian government was encouraging its elite subjects to see their private lives as a forum for the representation of imperial virtues and norms Drawing on the family's vast archive Randolph describes the Bakunins attempts to live up to this ideal and to convert their new home Priamukhino into an example of modern civilization In particular Randolph shows how the Bakunin home fostered the development of a group of charismatic young students from Moscow University who in the 1830s sought to use their experiences at Priamukhino to reimagine themselves as agents of Russia's enlightenment Some of the story Randolph tells is familiar to historians The anarchist Mikhail Bakunin whose early philosophical evolution Randolph describes was born at Priamukhino while the radical critic Vissarion Belinsky claimed to have been transformed by his experiences there When Tom Stoppard sought to portray the spiritual history of the Russian intelligentsia in his trilogy *The Coast of Utopia* he chose Priamukhino as the scene for act 1 Yet Randolph's research allows us to watch this drama from a radically different perspective It shows how the culture of Russian Idealism so long presumed to be a product of alienation actually relied on the support provided by the cult of distinction that the Russian government had built around noble homes It also allows us to see the other actors and agents of private life and most notably the Bakunin women as participants in the creation of modern Russian social thought The result is a work that revises our understanding of Russian intellectual history

**The Social Sciences in Modern Japan** Andrew E. Barshay, 2007-11-19 A stunning achievement as the first full account of social science in a non Western society Barshay tells an epic story of how a handful of Japanese intellectuals used social science to make sense of the new society into which they were moving What they did helps us understand not only Japan but the whole modern world Robert Bellah Professor of Sociology Emeritus University of California Berkeley and author of Tokugawa Religion and Imagining Japan      *Being Soviet* Timothy Johnston, 2011-08-18 Being Soviet adopts a refreshing and innovative approach to the crucial years between 1939 and 1953 in the USSR It examines how the language of Soviet identity evolved in this period and how ordinary citizens responded to that shift      **Race and Racism in Russia** N. Zakharov, 2015-03-23 Race and Racism in Russia identifies the striking changes in racial ideas practices exclusions and violence in Russia since the 1990s revealing how Russianness has become a synonym for racial whiteness This groundbreaking book provides new theories and substantive insights into race and ethnicity in a Russian context      Empire Speaks Out Ilya Gerasimov, Jan Kusber, Alexander Semyonov, 2009-06-02 Historians habitually write about empires that expand wage wars and collapse as if empires were self evident and self conscious entities with a distinct and clear sense of purpose The stories of empires are told in the language of modern nation centred social sciences multi cultural and heterogeneous empires of the past appear either as huge nations with a common language culture and territory or as amalgamations of would be nations striving to gain independence Empire Speaks Out reconstructs the historical encounter of the Russian Empire of the seventeenth through the early twentieth centuries with the complex challenge of modernity It does so by

taking the self awareness of empire seriously and by looking into how bureaucrats ideologues politicians scholars and modern professionals described the ethnic cultural and social diversity of the empire Empire then reveals itself not through deliberate and well conceived actions of some mysterious political body but as a series of imperial situations that different people encounter and perceive in common categories The rationalization of previously intuitive social practices as imperial languages is the central theme of the collection This book is published with support from Volkswagen Foundation within the collective research project Languages of Self Description and Representation in the Russian Empire Routledge Handbook of the History of Global Economic Thought Vincent Barnett,2014-08-27 The Routledge Handbook of the History of Global Economic Thought offers the first comprehensive overview of the long run history of economic thought from a truly international perspective Although globalization has facilitated the spread of ideas between nations the history of economics has tended to be studied either thematically by topic in terms of different currents of thought or individually by economist Work has been published in the past on the economic thought traditions of specific countries but this pioneering volume is unique in offering a wide ranging comparative account of the development of economic ideas and philosophies on the international stage The volume brings together leading experts on the development of economic ideas from across the world in order to offer a truly international comparison of the economics within nation states Each author presents a long term perspective on economics in their region allowing global patterns in the progress of economic ideas over time to be identified The specially commissioned chapters cover the vast sweep of the history of economics across five world regions including Europe England Scotland Ireland Italy Greece Spain Portugal Germany Sweden Russia and the Ukraine the Americas the USA Canada Mexico and Central America Spanish Speaking South America Brazil and the Caribbean the Middle East Turkey Israel Arab Islamic Economics Persia Iran North Africa Africa West Africa Southern Africa Mozambique and Angola and the Asia Pacific Region Australia and New Zealand China Southeast Asia the Asian Tigers India This rigorous ambitious and highly scholarly volume will be of key interest to students academics policy professionals and to interested general readers across the globe
