Forthcoming Books Rose Army, 2002 **Talking Philosophy** Bryan Magee, 2001 This book consists of fifteen dialogues between Bryan Magee and some of the outstanding thinkers of the twentieth century. It is based on a highly successful BBC television series which had enormous impact. The informality and clarity of the conversational form makes even the most difficult ideas accessible to the general reader. Isaiah Berlin opens by considering the fundamental question: What is philosophy? Subsequent conversations examine such widely different schools as Marxism and existentialism. Chomsky, Quine, Marcuse and others discuss their own work. A. J. Ayer reviews logical positivism. Iris Murdoch talks about the relation between philosophy and literature. Moral philosophy, political philosophy, the philosophy of language and the philosophy of science are all treated in depth by the thinkers whose work has shaped the fields.

Frayn Plays: 1 Michael Frayn, 2017-01-12 One of theatre's subtlest, most sophisticated minds. The Times. Alphabetical Order. A comic essay about two types of woman, a very intelligent comedy because of its classic simplicity and unusual in the way that the two types of women do not become stereotypes. Daily Telegraph. Donkeys Years, a satire on the establishment and British institutions. Gorgeous farce, all the funnier for emerging from credible aspirations and natural anxieties; the play is richer and cannier than we expect farces to be. New Statesman. Clouds is a satire on government-sponsored trips and a portrait of sexual jealousy; it is poignantly and unerringly funny. Guardian. Make and Break is a satirical commentary on British corporate interests abroad. Full of pain, ruthless observation and a sense of humour which is sardonic, lunatic and warm. Sunday Times. Noises Off, the West End hit play about a company of actors stepping from a sex farce into their own nightmarish lives backstage. A very intelligent joke about the fragility of all forms of drama, a pulverisingly funny play. Guardian. All of these plays are attempts to show something of the world not to change it or to promote any particular idea of it. That's not to say there are no ideas in them. In fact, what they are all about in one way or another is the way in which we impose our ideas upon the world around us. It might be objected that one single theme is a somewhat sparse provision to sustain five separate and dissimilar plays. I can only say that it is a theme which has occupied philosophers for over two thousand years and one which is likely to occupy them for at least two thousand more. Michael Frayn.
