Adirondack Alphabet:

Adirondack Alphabet Sheri Amsel, 1994 Mapping the Adirondacks Thatcher Hogan, 2024-09-15 New York State's famous Adirondack landscape is immense spanning over six million acres of public forests lakes rivers mountains and private lands In full color featuring hundreds of detailed maps and photos Mapping the Adirondacks celebrates it all with the first clear account of the original surveyor who explored and fully comprehended it Verplanck Colvin Everywhere below Colvin wrote were lakes and mountains so different from all maps yet so immovably true His monumental accomplishment helped motivate the citizens of New York in 1894 to legally protect it for generations to come As an eighteen year old budding travel writer explorer and surveyor Colvin began personally mapping a half million acres of true Adirondack wilderness in 1865 Then shortly after the state began partially funding his audacious project Colvin reinvented himself as the Superintendent of a Survey of the Adirondack Wilderness and hired another equally intrepid surveyor to help his ever dependable friend Mills Blake They extended the scope and granularity of their survey several times hired hundreds of Adirondack guides and other talented people to assist and devoted twenty eight years to the challenge of professionally surveying the Adirondacks Author Thatcher Hogan has carefully gleaned narratives and illustrations from Colvin's notoriously dense annual reports and reassembled them with additional historic photographs to chronicle a compelling true story of rugged exploration After a novice's explanation of Colvin and Blake's surveying terms the book follows their progress with one hundred of Hogan's new maps and summit views The Adirondack landscape remains formidable and fascinating many of the views are those that Colvin first discovered Along the way Hogan uncovers a story of intense ambition physical hardships and a weatherproof friendship The state's meager investment in their work paid off many times over Colvin and Blake's surveys provided New York with the incontrovertible evidence needed to prevail in hundreds of complex Adirondack land disputes Most significantly it enabled the state to consolidate and expand its extraordinary Adirondack Forest Preserves the prized mountains forests and waters of today's beloved Park **Canoeing the Adirondacks with Nessmuk** Dan Brennan, 1993-08-01 She's all my fancy painted her she's lovely she is light She waltzes on the waves by day and rests with me at night But I had nothing to do with her painting The man who built her did that And I commence with the canoe because that is about the first thing you need on entering the Northern Wilderness Nessmuk Thus opened Nessmuk's first commissioned letter for Forest and Stream in 1880 For years thereafter George Washington Sears under the penname Nessmuk contributed a glorious series of pieces on canoeing the Adirondacks exploring rivers and streams climbing the many mountains and peaks and chronicling his long relationship with one of the greatest canoe builders J Henry Rushton These letters brought Nessmuk fame and served to increase the magazine's circulation tremendously They hold a special place in wilderness writing and unfold in vivid detail the pageantry of the waterways from a bygone era An Adirondack Passage Christine Jerome, 2015-02-25 A paddling classic back in print with new maps photos details and afterword Christine Jerome walked into the Adirondack Museum in

Blue Mountain Lake NY and promptly fell in love with a 9 foot 10 pound canoe named the Sairy Gamp More than a century before in 1883 the Sairy Gamp had been paddled and portaged through the Adirondacks by a sixty one year old writer named George Washington Sears his pen name was Nessmuk The more Jerome learned about Sears the more she wanted to follow his route despite her lack of camping or canoeing experience In August 1990 she embarked in a 9 foot canoe made of Kevlar and with her husband John accompanying her in a slightly larger boat set off to retrace Sears s journey An Adirondack Passage is part social history part natural history part biography of Sears and part chronicle of a voyage Summer turns to fall while the Jeromes make their way north through sunshine and storms down cottage lined lakes and lonely wild streams Gusting winds bully their light canoes and by mid September the days are colder and shorter but the longer they paddle the more attached they become to the beauty around them Canada geese fly overhead monarch butterflies flutter southward and on the larger lakes young loons gather for their first migration to the sea Along the way the author pauses to tell us what Sears saw when he passed by and what happened to his favorite haunts in the ensuing century As the history of the region unfolds we meet hermits and millionaires hunting guides and society women hotelkeepers and dime novel writers and one lost dancing bear Christine Jerome has given us a memorable wilderness experience that readers who have never lifted a paddle will find fascinating and invigorating This new release from Breakaway Books is the third edition revised and updated with extra photos maps and a new afterword PRAISE FOR AN ADIRONDACK PASSAGE A fine piece of work and a great delight John McPhee An enchanting record of a canoe trip The New Yorker A writer of fine and watertight prose An Adirondack Passage is uncategorizable at once history naturalism sociology and a love story but unfailingly graceful Boston Globe Personal witty and thoughtful one of the best introductions to the area ever produced Audubon As refreshing a break from the busyness of life as I ve come across in awhile Newsday The writing is a constant pleasure Jerome has a style that suits her subject quiet and gentle as a paddle in still water She delivers her lore with wit and whimsy with fine descriptions and without shrill preaching or righteous posturing Smithsonian The closest thing to a national nonfiction best seller that the region has seen in ages and deservedly so Adirondack Life A captivating account She takes us into a world of hermits and millionaires of wild streams and glorious mountain scenery Publishers Weekly A delightful tale An informative readable adventure whose history and environmental lessons are taught well Library Journal In the Adirondacks Matt Dallos,2023-03-28 An immersive journey into the past present and future of a region many consider the Northeast s wilderness backyard Out of all the rural areas of the United States including those in the West which are bigger and propped up by more pervasive myths about adventure and nation and wilderness and freedom the Adirondacks has accumulated a well known identity beyond its boundaries Untouched unspoiled it is defined by what we haven t done to it Combining author Matt Dallos s personal observations with his thorough research of primary and secondary documents In the Adirondacks rambles through the region to understand its significance within American culture and what lessons it might offer us for how

we think about the environment In vivid prose Dallos digs through the region s past and present to excavate a series of compelling stories and places a moose named Harold a hot dog mogul s rustic mansion an ecological restoration on an alpine summit a hermit who demanded a helicopter ride and a millionaire who dressed up as a Native American to rob a stagecoach Along the way Dallos listens to locals and tourists visits wilderness areas and souvenir shops and digs through archives in museums and libraries In the Adirondacks blends lively history and immersive travel writing to explore the Adirondacks that captivated Dallos s childhood imagination while presenting a compelling and entertaining story about America s largest park outside of Alaska The result is an inquisitive journey through the region s bogs and lakes and boreal forests and the lives of residents and tourists Dallos turned toward the region to understand why he couldn t shake it from his mind What he learned is that he s not the only one In the Adirondacks explores the history and future of the most complicated contested park in North America raising important questions about the role of environmental preservation and the great outdoors in American history and culture

with its wild places The definitive book on camping in America A passionate witty and deeply engaging examination of why humans venture into the wild Cheryl Strayed author of *Wild* From the Sierras to the Adirondacks and the Everglades Dan White travels the nation to experience firsthand and sometimes face first how the American wilderness transformed from the devil's playground into a source of adventure relaxation and renewal Whether he's camping nude in cougar country being attacked by wildlife while glamping or crashing a girls only adventure for urban teens Dan White seeks to animate the evolution of outdoor recreation In the process he demonstrates how the likes of Emerson Thoreau Roosevelt and Muir along with visionaries such as Adirondack Murray Horace Kephart and Juliette Gordon Low helped blaze a trail from Transcendentalism to Leave No Trace

Writing the Land Daniel G. Payne, 2009-05-05 At the time of his death in 1921 John Burroughs 1837 1921 was America's most beloved nature writer a best selling author whose friends and admirers included Walt Whitman Theodore Roosevelt John Muir Henry Ford and Thomas Edison Burroughs was second only to Emerson in fostering the nature study movement of the nineteenth century and the popularity of his work inspired Houghton Mifflin to publish or reissue the work of numerous other nature writers including that of Thoreau and Muir His first collection of essays *Wake Robin* was published in 1871 and over the next fifty years Burroughs wrote almost two dozen books and hundreds of essays not only on nature but on literature travel philosophy religion and science By the turn of the century Burroughs was America's most beloved nature writer whose friends and admirers included Walt Whitman Theodore Roosevelt John Muir Henry Ford and Thomas Edison Burroughs died in 1921 while on a train ride back to his New York from California His final words *Are we home yet* were a remarkably fitting coda to the career of a writer so closely identified with his native Catskill region of New York State In many of his essays Burroughs explores the woods and fields of home and in doing so like Henry Thoreau and his explorations of Concord Massachusetts he transcends the local and examines the universal theme of our relation with nature and our native landscape Burroughs's emphasis on place and the local now seems modern once again as the current interest in bioregionalism and climate change demonstrates it has become increasingly evident that thinking locally is thinking globally Since 1992 the SUNY College at Oneonta has hosted the biannual John Burroughs Nature Conference and Seminar *Sharp Eyes* which honors the influence of Burroughs on American nature writing Distinguished keynote speakers who have addressed the conference include John Elder John Tallmadge Joy Harjo Robin Wall Kimmerer Edward Kanze James Perrin Warren and Edward J. Rinehan Jr The scope of the conference is not limited solely to Burroughs however as each year the writers and scholars in attendance direct their attention toward a particular issue of significance to contemporary nature writers and scholars of environmental literature The theme of this collection *Writing the Land* John Burroughs and his Legacy was featured in the 2006 conference and includes essays on John Burroughs as well as essays on the work of other writers who like Burroughs are linked closely through their work to a particular landscape or region The third and final section of this book features invited essays by three distinguished scholars John Tallmadge Robert Beuka and

Charlotte Zo Walker who consider the topic of what writing about the land and nature means from three different perspectives urban suburban and rural

Wallace, 1888 *River of Mountains* Peter Lourie, 1995 Lourie s account of his trip is a fresh look at one of America s great and complex waterways one of the few in fact that still contains its historical and biological species of fish It is also the longest inland estuary in the world Henry Hudson called it the great river of the mountains Nowadays too often the Hudson is stereotyped as a ruined polluted industrial river its glorious past is compared to its present neglect Forever Wild Philip G. Terrie, 1994-08-01 In this work Terrie offers an assessment of the roles that the Adirondacks have played in American history He brings to life the scientists and scholars the travellers and sportsmen the publicists and bureaucrats who together
