razor sharp analysis Lind shows that China's ascent was fueled by what she calls smart authoritarianism a model of governance in which autocratic leaders temper tight political control with inclusive economic measures By balancing proinnovation policies with tools of repression China's leaders have obtained political control and economic growth These smart authoritarians Lind observes are not the brass knuckled dictators of the past they are their polished Savile Row clad progeny and they are found not only in China but also in authoritarian regimes worldwide Compelling and incisive Autocracy 2.0 is a must read for anyone seeking to understand China's meteoric rise and how today's autocrats are reshaping the technological frontier governance and the global balance of power      *Accountable Governance: Problems and Promises*
