DiClemente, William B. Hansen, Lynn E. Ponton, 2013-11-21 Adolescence is a developmental period of accelerating physical psychological social cultural and cognitive development often characterized by confronting and surmounting a myriad of challenges and establishing a sense of self identity and autonomy It is also unfortunately a period fraught with many threats to the health and well being of adolescents and with substantial consequent impairment and disability Many of the adverse health consequences experienced by adolescents are to a large extent the result of their risk behaviors Many adolescents today and perhaps an increasing number in the future are at risk for death disease and other adverse health outcomes that are not primarily biomedical in origin In general there has been a marked change in the causes of morbidity and mortality among adolescents Previously infectious diseases accounted for a disproportionate share of adolescent morbidity and mortality At present however the overwhelming toll of adolescent morbidity and mortality is the result of lifestyle practices

Adolescent Behavior Research Advances Earl B. Darlow, 2007 Developmentally puberty is accompanied by major physical and emotional changes that alter a young person's relationships and patterns of interaction with others The transition into adolescence begins the move toward independence from parents and the need to establish one's own values personal and sexual identity and the skills and competencies needed to compete in adult society Independence requires young people to renegotiate family rules and degree of supervision by parents a process that can generate conflict and withdrawal from parents At the same time social networks expand and relationships with peers and adults in new social contexts equal or exceed in importance the relationships with parents The criteria for success and acceptance among peers and adults change Adapting to all of these changes in relationships social contexts status and performance criteria can generate great stress feelings of rejection and anger at perceived or real failure Young people may be attracted to violent behavior as a way of asserting their independence of the adult world and its rules as a way of gaining the attention and respect of peers as a way of compensating for limited personal competencies or as a response to restricted opportunities for success at school or in the community Good relationships with parents during childhood will help in a successful transition to adolescence but they do not guarantee it This book examines crucial issues in the field Behavioral and Emotional Disorders in Adolescents David A. Wolfe, Eric J. Mash, 2013-12-09 Systematic authoritative and timely this is an outstanding reference and text for anyone working with or studying adolescents More than 50 leading experts comprehensively review current knowledge on adolescent externalizing disorders internalizing disorders developmental disorders personality and health related disorders gender identity and sexual disorders and maltreatment and trauma Chapters identify the core features of each disorder

explore its etiology course and outcome address diagnostic issues specific to adolescents and describe effective assessment and treatment approaches The book also provides an integrative conceptual framework for understanding both healthy and maladaptive adolescent development

Encyclopedia of Adolescence Roger J.R. Levesque, 2011-09-05 The Encyclopedia of Adolescence breaks new ground as an important central resource for the study of adolescence Comprehensive in breadth and textbook in depth the Encyclopedia of Adolescence with entries presented in easy to access A to Z format serves as a reference repository of knowledge in the field as well as a frequently updated conduit of new knowledge long before such information trickles down from research to standard textbooks By making full use of Springer's print and online flexibility the Encyclopedia is at the forefront of efforts to advance the field by pushing and creating new boundaries and areas of study that further our understanding of adolescents and their place in society Substantively the Encyclopedia draws from four major areas of research relating to adolescence The first broad area includes research relating to Self Identity and Development in Adolescence This area covers research relating to identity from early adolescence through emerging adulthood basic aspects of development e.g biological cognitive social and foundational developmental theories In addition this area focuses on various types of identity gender sexual civic moral political racial spiritual religious and so forth The second broad area centers on Adolescents Social and Personal Relationships This area of research examines the nature and influence of a variety of important relationships including family peer friends sexual and romantic as well as significant nonparental adults The third area examines Adolescents in Social Institutions This area of research centers on the influence and nature of important institutions that serve as the socializing contexts for adolescents These major institutions include schools religious groups justice systems medical fields cultural contexts media legal systems economic structures and youth organizations Adolescent Mental Health constitutes the last major area of research This broad area of research focuses on the wide variety of human thoughts actions and behaviors relating to mental health from psychopathology to thriving Major topic examples include deviance violence crime pathology DSM normalcy risk victimization disabilities flow and positive youth development

Caribbean Youth Development, 2003-01-01 This study uses an ecological framework to consider negative behaviors and outcomes observed among Caribbean youth and also to identify ways to enhance positive influences Casting aside the often narrow view taken of youth as a marginal issue this report advocates the prioritization of youth development across all sectors and identifies key principles and actions for moving forward

Adolescent Psychiatry, V. 20 Richard C. Marohn, 2013-05-13 Launched in 1971 Adolescent Psychiatry in the words of founding coeditors Sherman C Feinstein Peter L Giovacchini and Arthur A Miller promised to explore adolescence as a process to enter challenging and exciting areas that may have profound effects on our basic concepts Further they promised a series that will provide a forum for the expression of ideas and problems that plague and excite so many of us working in this enigmatic but fascinating field For over two decades Adolescent Psychiatry has fulfilled this promise The repository of a wealth of original studies by preeminent clinicians developmental researchers and social scientists specializing in this stage of life the series has become an essential resource for all mental health professionals working with youth Volume 20 of the series serves as a tribute to editor emeritus Sherman C Feinstein In addition to an appreciation of and contributions by Dr Feinstein it contains heretofore unpublished papers by two other major figures in adolescent psychiatry founding father William Schonfeld and a Viennese colleague transplanted to America Siegfried Bernfeld With sections on general considerations of adolescence specific syndromes and treatment modalities volume 20 presents the work of many of today s preeminent minds in adolescent psychiatry

Behavior & Society, 1979 Problem Behavior Theory and Adolescent Health Richard Jessor, 2017-03-31 This second volume of Richard Jessor's influential works applies his groundbreaking theory to illuminating the psychosocial determinants of adolescent health. Focusing on a range of both health compromising and health enhancing behaviors including problem drinking, marijuana use, risky driving, and early sexual experience, as well as regular exercise and healthy diet, these writings advance understanding of the role of health behavior in adolescence and adolescent development. Chapters illustrate the relevance of the theory and of its interdisciplinary approach for research on behavioral health in adolescence and for the design of prevention intervention programs to promote healthy development. In addition, the book's comparative studies of U.S. and Chinese youth reveal the generality of the theory across societal and national differences. Topics featured in this book include Alcohol use and problem drinking in adolescent health and development, Psychosocial research on marijuana use, Understanding early initiation of sexual intercourse in adolescence, Smoking behavior in adolescence and young adulthood, Developmental change in risky driving, Healthy eating and regular exercise in adolescent health and development. **Problem Behavior Theory and Adolescent Health** is a must have resource for researchers, professors, clinicians, and related professionals, as well as graduate students in developmental and health psychology, sociology, criminology, criminal justice, public health, and related disciplines.

Drugs and Society Glen R. Hanson, Peter J. Venturelli, Annette E. Fleckenstein, 2006 **Drugs and Society** Ninth Edition clearly illustrates the impact of drug use and abuse on the lives of ordinary people and provides students with a realistic perspective of drug related problems in our society. Written in an objective and user friendly manner, this best selling text continues to captivate students by incorporating personal drug use and abuse experiences and perspectives throughout. Statistics and chapter content have been revised to include the latest information on current topics.

Youth-Community Partnerships for Adolescent Alcohol Prevention Andrea J. Romero, 2016-02-12 This forward thinking reference spotlights an expansive and inclusive community model for youth alcohol prevention as opposed to traditional individual and school based group approaches. Focusing on a long term intervention in a Southwestern border town, it documents the development of critical consciousness in an affected community and emphasizes young people as crucial drivers of change in their environment. The book's Community Readiness Model provides vital context for successful coalition building between youth, families, and community entities, e.g. schools, civic leaders, police, in reducing alcohol risk factors and promoting healthier choices. Given the severity and prevalence of youth alcohol use, this case study offers a viable blueprint for large scale engagement in prevention. Among the featured topics: Integrating research into prevention strategies using participatory action research, Breaking down silos between community based organizations, coalition development, Adult perspectives on nurturing youth leadership and coalition participation, Youth perspectives on youth power as the source of community development, Coalition as conclusion, tips on creating a functioning coalition, Community transformational resilience for adolescent alcohol prevention. **Youth Community Partnerships for Adolescent Alcohol Prevention** is both
