The Dance of Identities John D. Palmer, 2010-10-04 Korean adoptees have a difficult time relating to any of the racial identity models because they are people of color who often grew up in white homes and communities Biracial and nonadopted people of color typically have at least one parent whom they can racially identify with which may also allow them access to certain racialized groups When Korean adoptees attempt to immerse into the Korean community they feel uncomfortable and unwelcome because they are unfamiliar with Korean customs and language *The Dance of Identities* looks at how Korean adoptees dance or engage with their various identities white Korean Korean adoptee and those in between and beyond and begin the journey toward self discovery and empowerment Throughout the author draws closely on his own experiences and those of thirty eight other Korean adoptees mainly from the U S Chapters are organized according to major themes that emerged from interviews with adoptees Wanting to be like White examines assimilation into a White middle class identity during childhood Although their White identity may be challenged at times for the most part adoptees feel accepted as honorary Whites among their families and friends *Opening Pandora's Box* discusses the shattering of adoptees early views on race and racism and the

problems of being raised colorblind in a race conscious society Engaging and Reflecting is filled with adoptee voices as they discover their racial and transracial identities as young adults During this stage many engage in activities that they believe make more culturally Korean such as joining Korean churches and Korean student associations in college Questioning What I Have Done delves into the issues that arise when Korean adoptees explore their multiple identities and the possible effects on relationships with parents and spouses In Empowering Identities the author explores how adoptees are able to take control of their racial and transracial identities by reaching out to parents prospective parents and adoption agencies and by educating Korean and Korean Americans about their lives The final chapter Linking the Dance of Identities Theory to Life Experiences reiterates for adoptees parents adoption agencies and social justice activists and educators the need for identity journeys and the empowered identities that can result The Dance of Identities is an honest look at the complex nature of race and how we can begin to address race and racism from a fresh perspective It will be well received by not only members of the Korean adoption community and transracial parents but also Asian American scholars educators and social workers

Adopted from Asia Frances M. Koh,1993 Strangers and Kin Barbara Melosh,2002-11-08 Strangers and Kin is the history of adoption An adoptive mother herself Barbara Melosh tells the story of how married couples without children sought to care for and nurture other people s children as their own Taking this history into the early twenty first century Melosh offers unflinching insight to the contemporary debates that swirl around adoption the challenges to adoption secrecy the ethics and geopolitics of international adoption and the conflicts over transracial adoption Choosing Ethnicity, Negotiating Race Mia Tuan, Jiannbin Lee Shiao,2011-01-13 Transnational adoption was once a rarity in the United States but Americans have been choosing to adopt children from abroad with increasing frequency since the mid twentieth century Korean adoptees make up the largest share of international adoptions 25 percent of all children adopted from outside the United States but they remain understudied among Asian American groups What kind of identities do adoptees develop as members of American families and in a cultural climate that often views them as foreigners Choosing Ethnicity Negotiating Race is the only study of this unique population to collect in depth interviews with a multigenerational random sample of adult Korean adoptees The book examines how Korean adoptees form their social identities and compares them to native born Asian Americans who are not adopted How do American stereotypes influence the ways Korean adoptees identify themselves Does the need to explore a Korean cultural identity or the absence of this need shift according to life stage or circumstance In Choosing Ethnicity Negotiating Race sixty one adult Korean adoptees representing different genders social classes and communities reflect on early childhood young adulthood their current lives and how they experience others perceptions of them The authors find that most adoptees do not identify themselves strongly in ethnic terms although they will at times identify as Korean or Asian American in order to deflect questions from outsiders about their cultural backgrounds Indeed Korean adoptees are far less likely than their non adopted Asian American peers to explore their ethnic

backgrounds by joining ethnic organizations or social networks Adoptees who do not explore their ethnic identity early in life are less likely ever to do so citing such causes as general aversion lack of opportunity or the personal insignificance of race ethnicity and adoption in their lives Nonetheless the choice of many adoptees not to identify as Korean or Asian American does not diminish the salience of racial stereotypes in their lives Korean adoptees must continually navigate society's assumptions about Asian Americans regardless of whether they chose to identify ethnically Choosing Ethnicity Negotiating Race is a crucial examination of this little studied American population and will make informative reading for adoptive families adoption agencies and policymakers The authors demonstrate that while race is a social construct its influence on daily life is real This book provides an insightful analysis of how potent this influence can be for transnational adoptees and all Americans *The Spirit of Asian America: A Tapestry of Personal Journeys and Dreams* Pasquale De Marco, 2025-07-24
