Adult Nursing Practice Ian Bullock, Jill Macleod Clark, Joanne

Rycroft-Malone, 2012-05-24 *Adult Nursing Practice* Using evidence in care enables today's students and newly qualified nurses develop the knowledge and skills they need to deliver and lead care tomorrow. Reflecting the principles of evidence based care in line with the current NMC competencies this textbook helps students learn to manage patients with common conditions and fundamental health needs so they can provide the best possible evidence based care. Written and edited by leading nurses from practice education and research it focuses on common diseases, fundamental health needs and symptoms that nurses encounter in daily practice. Conditions are clearly explained so that the causes of ill health are easily understood. Every chapter covers pathophysiology, indicates the key priorities for nursing assessment and discusses what the evidence says before considering nursing management options. Throughout the authors' clear signposts to trustworthy evidence mean that students can effortlessly select the best nursing interventions for their patients using the current available evidence base. The ideal guide for students preparing for registration and newly qualified staff going through preceptorship it is packed with over 115 illustrations and lots of features to bring the subject to life and make learning easier. *BLNursing* assessment illustrations outline challenges caused by common diseases in a helpful and memorable way, highlighting issues that need assessment. *BLRed flag* icons indicate the warning signs of deterioration and urgent questions are listed that can be used for assessment and monitoring. *BLCase studies* of effective evidence based interventions show the difference that high quality nursing care makes. *BLCross references* between common conditions, causes and managing related health needs and symptoms develop understanding by clearly linking pathophysiology with nursing management options. *BLTheory into practice* boxes further enhance learning through suggested activities such as exploring key evidence, considering major practice issues or applying core knowledge while out on placement. *BLOnline resource centre* at www.oxfordtextbooks.co.uk/orc/bullock Filled with interactive and useful e-learning resources to help students test their learning, keep up to date with the latest evidence and further expand their knowledge it features *BLClinical decision making scenarios*, *BLQuiz questions*, *BLUpdates to content*, *BLHyperlinked references*, *BLImages from the book*, *BLLecturer resources*. *Foundations of Adult Nursing* Dianne Burns, 2015-04-30 Covering the issues, themes and principles that explain what it means to be a nurse today this book provides the theory students need to know and applies it to the diverse patient groups and settings that students will encounter on their placements. Key features of the book are: Introduces the core aspects of adult nursing. An evidence based approach with discussion of literature, policy and research and suggested further reading for every chapter. Over 30 case studies to help students understand the realities of practice across a range of settings including primary care and the community. Stop and think boxes which challenge assumptions and encourage reflection. A companion website with sample questions for lecturers to use in seminars, multiple choice questions for student revision and free SAGE journal articles. The book has been closely developed in line with the NMC Standards and Essential Skills Clusters and supports students across their entire degree programme as they develop into nurses of the future ready to deliver and lead care.
