Office of Technology Assessment, 1995 **Advanced Automotive Technology** Business/Technology Books (B/T Books), 1997-07-01 Review of the Research and Development Plan for the Office of Advanced Automotive Technologies National Research Council, Division on Engineering and Physical Sciences, Commission on Engineering and Technical Systems, Committee on Advanced Automotive Technologies Plan, 1998-03-02 **Personal Cars and China** Chinese Academy of Engineering, National Academy of Engineering, National Research Council, Policy and Global Affairs, Development, Security, and Cooperation, 2003-03-05 This collaborative study between the NRC and the Chinese Academy of Engineering CAE addresses the problems facing China in the next twenty years as it attempts to provide personal transport desired by millions of Chinese while preserving the environment and the livability of its cities According to Song Jian president of the CAE the decision has already been taken to produce a moderate cost family car in China which will greatly increase the number of vehicles on the roads This study explores the issues confronting the country including health issues the challenge to urban areas particularly the growing number of megacities environmental protection infrastructure requirements and technological options for Chinese vehicles It draws on the experience of the United States and other countries and review model approaches to urban transportation and land use planning Recommendations and policy choices for China are described in detail **Commercialization of New Manufacturing Processes for Materials, Staff Research Study #22** , Commercialization of New Manufacturing Processes for Materials , 1998 **Partnership for a New Generation of Vehicles (PNGV)** United States. Congress. House. Committee on Science. Subcommittee on Energy and Environment, 1996 The Government as Dominant Shareholder: How Should the Taxpayers' Ownership Rights Be Exercised? Serial No. 111-132, December 16, 2009, 111-1 Hearing, * , 2011 The Government as Dominant Shareholder United States. Congress. House. Committee on Oversight and Government Reform. Subcommittee on Domestic Policy, 2011 **Handbook of Energy Efficiency and Renewable Energy** D. Yogi Goswami, Frank Kreith, 2007-05-07 Brought to you by the creator of numerous bestselling handbooks the Handbook of Energy Efficiency and Renewable Energy provides a thorough grounding in the analytic techniques and technological developments that underpin renewable energy use and environmental protection The handbook emphasizes the engineering aspects of energy conservation and renewable energy Taking a world view the editors discuss key topics underpinning energy efficiency and renewable energy systems They provide content at the forefront of the contemporary debate about energy and environmental futures This is vital information for planning a secure energy future Practical in approach the book covers technologies currently available or expected to be ready for implementation in the near future It sets the stage with a survey of current and future world wide energy issues then

explores energy policies and incentives for conservation and renewable energy covers economic assessment methods for conservation and generation technologies and discusses the environmental costs of various energy generation technologies The book goes on to examine distributed generation and demand side management procedures and gives a perspective on the efficiencies economics and environmental costs of fossil and nuclear technologies Highlighting energy conservation as the cornerstone of a successful national energy strategy the book covers energy management strategies for industry and buildings HVAC controls co generation and advances in specific technologies such as motors lighting appliances and heat pumps It explores energy storage and generation from renewable sources and underlines the role of infrastructure security and risk analysis in planning future energy transmission and storage systems These features and more make the Handbook of Energy Efficiency and Renewable Energy the tool for designing the energy sources of the future

Review of the Research Program of the Partnership for a New Generation of Vehicles National Research Council, Division on Engineering and Physical Sciences, Commission on Engineering and Technical Systems, Standing Committee to Review the Research Program of the Partnership for a New Generation of Vehicles, 1999-04-29 This fifth review of the Partnership for a New Generation of Vehicles assesses progress made in the program towards the development of high fuel economy vehicles One of the goals of the program is to develop midsize sedans with up to three times the fuel economy of today's vehicles Concept vehicles are slated for 2000 and production prototypes for 2004 The book addresses engine technologies batteries for energy storage fuel cells lightweight materials fuels emissions control systems power electronics and vehicle systems engineering

Voluntary Reporting of Greenhouse Gases, 1996 **Mitigating Greenhouse Gas Emissions**, 1997 *Industry, Trade, and Technology Review*, 1997 *Assessment of Fuel Economy Technologies for Light-Duty Vehicles* National Research Council, Division on Engineering and Physical Sciences, Board on Energy and Environmental Systems, Committee on the Assessment of Technologies for Improving Light-Duty Vehicle Fuel Economy, 2011-07-03 Various combinations of commercially available technologies could greatly reduce fuel consumption in passenger cars sport utility vehicles minivans and other light duty vehicles without compromising vehicle performance or safety Assessment of Technologies for Improving Light Duty Vehicle Fuel Economy estimates the potential fuel savings and costs to consumers of available technology combinations for three types of engines spark ignition gasoline compression ignition diesel and hybrid According to its estimates adopting the full combination of improved technologies in medium and large cars and pickup trucks with spark ignition engines could reduce fuel consumption by 29 percent at an additional cost of 2 200 to the consumer Replacing spark ignition engines with diesel engines and components would yield fuel savings of about 37 percent at an added cost of approximately 5 900 per vehicle and replacing spark ignition engines with hybrid engines and components would reduce fuel consumption by 43 percent at an increase of 6 000 per vehicle The book focuses on fuel consumption the amount of fuel consumed in a given driving distance because energy savings are directly related to the amount of fuel used In contrast fuel

economy measures how far a vehicle will travel with a gallon of fuel Because fuel consumption data indicate money saved on fuel purchases and reductions in carbon dioxide emissions the book finds that vehicle stickers should provide consumers with fuel consumption data in addition to fuel economy information **Forum for Applied Research and Public Policy** ,1998
