Administration Of Sir William Gregory:

The Administration of Sir William Gregory Bertram Bastiampillai, 1968 The Administration of Sir William Gregory B. Bastiampillai, 1968 Towards World Heritage Melanie Hall, 2016-02-24 Historic preservation whether of landscapes or buildings was an important development of the nineteenth century in many countries There is however surprisingly little understanding about how it took place and research into it is narrowly focused For example generally landscape preservation from this time is examined separately from buildings preservation is seen in terms of national narratives or considered within the contexts of area studies and it is usually seen from a specific disciplinary perspective All of these later categorizations did not apply at the time and consequently a very partial view is achieved In order to begin unlocking a very complex phenomenon that has helped to define our own age this dynamic collection of essays brings together an international and transdisciplinary line up of academics and practitioners to reconsider preservation s origins in the second half of the nineteenth and early part of the twentieth century With a focus on Britain and the British Empire and including case studies from the United States Canada Sweden France Germany Sri Lanka The Holy Land and Turkey this book places preservation in imperial international and national contexts demonstrating that there was far more interaction between different countries in this arena than may be supposed and revealing remarkable but hitherto hidden overlaps and intersections It examines three main themes the influence of religion the political and sub diplomatic aspects of preservation and the professionalization of preservation practice Internationalizing trends already existed through the churches the universities and the diplomatic services as well as familial ties that had an important impact on preservation s epistemic communities and its targets Other internationalizing factors include an interest in national histories and the histories of architecture and art particularly when known through illustration a growing interest in biography especially of founding fathers or famous literary figures and tourism Although the focus is on architectural preservation this book demonstrates that in this formative period the preservation of buildings and landscapes needs to be considered together as it often was at the time and in context The conclusion reached is that the preservation movement has to be understood in imperial and international contexts rather than in simply national or regional ones

Public Intervention in Farmer-Managed Irrigation Systems , Review of Governor Sir Arthur Hamilton Gordon's Administration of Ceylon, 1883-90 Kosmos, 1890 **Lady Gregory and Irish National Theatre** Eglantina Remport, 2018-04-26 This book is the first comprehensive critical assessment of the aesthetic and social ideals of Lady Augusta Gregory founder patron director and dramatist of the Abbey Theatre in Dublin It elaborates on her distinctive vision of the social role of a National Theatre in Ireland especially in relation to the various reform movements of her age the Pre Raphaelite Movement the Co operative Movement and the Home Industries Movement It illustrates the impact of John Ruskin on the aesthetic and social ideals of Lady Gregory and her circle that included Horace Plunkett George Russell John Millington Synge William Butler Yeats and George Bernard Shaw All of these friends visited the

The Home, Nations and Empires, and Ephemeral Exhibition Spaces Dominique Bauer,Camilla Murgia,2025-10-01 This book explores ephemeral exhibition spaces between 1750 and 1918 The chapters focus on two related spaces the domestic interior and its imagery and exhibitions and museums that display both national imperial identity and the otherness that lurks beyond a country s borders What is revealed is that the same tension operates in these private and public realms namely that between identification and self projection on the one hand and alienation otherness and objectification on the other In uncovering this the authors show that the self the citizen society and the other are realities that are constantly being asserted defined and objectified This takes place they demonstrate in a ceaseless dynamic of projection versus alienation and intimacy versus distancing Racing Life of Lord George Cavendish Bentinck, M.
