*Administrative Traditions* B. Guy Peters, 2021 This book examines contemporary public administration and its historical roots and how those traditions continue to influence administrative behaviour      **Making Accountability Work** Marie-Louise Bemelmans-Videc, Jeremy Lonsdale, Burt Perrin, 2017-12-02 Like honesty and clean water accountability is invariably seen as a good thing Conversely the absence of accountability is associated with most of the greatest abuses in human history Accountability is thus closely linked with the exercise of power and the legitimacy of policies and those pursuing them This book looks at the role of evaluation and of audit as key elements in democratic accountability processes The contributors explore the apparent paradox of there being more accountability related activities today than ever before at the same time as much public debate laments what is seen as a lack of actual accountability Such a situation raises a number of questions Is there a need for different approaches to establishing accountability or can current arrangements be modified to make them more effective Are present practices part of the problem and are they preventing a mature debate about performance improvement taking place How can systems awash with performance information ensure that at least some of it makes sense to a wide range of potential users How is it that greater accountability and transparency can so quickly have become associated with concerns about perverse incentives and be seen by some as a costly burden The volume includes detailed case studies and synthesizes up to date research evidence drawn from very different governmental systems ending with practical advice for those involved in the accountability processes In doing so it attempts to address both conceptual ambiguities about the notion of accountability and the practical uncertainties over its implications for democratic government This book is aimed at serious people who think about trends in the use of evaluation and audit in seeking to hold governments accountable for their actions and performance      **Public Sector Leadership** Jeffrey A. Federalism, Bureaucracy, and Public Policy Richard J. Schultz,1980-04-01 In this book Richard J Schultz analyses the political process which resulted in a major section of the 1967 National Transportation Act Part III which deals with highway transport regulation never being implemented In effect he presents us with a case study of an act that has not become law In his analysis Professor Schultz employs two models to explain the fate of Part III the first is the unitary actor model common to the study of Canadian intergovernmental relations the second is the far less commonly used bureaucratic politics model He finds the first model leaves unanswered too many critical questions while the second with its emphasis on the forces that give rise to internal conflict and competition and the consequent colouring this can give to negotiations between governments offers a more comprehensive explanation of the stalemate that resulted in the shelving of Part III Using the analysis of the particular case study the book discusses the broader issues of the underlying dynamics of both intergovernmental and intragovernmental relations in Canada The study challenges some of the common assumptions about the nature of the policy process within a parliamentary system and suggests in particular that central agencies may not exercise the degree of control frequently ascribed to them and more significantly that power and influence are much more widely dispersed and diffused within our parliamentary system than is generally acknowledged

**Civil Service Systems in Anglo-American Countries** John Halligan,2004-01-01 Civil Service Systems in Anglo American Countries presents a comprehensive overview of the important issues in modern bureaucracies combined with a comparative analysis of the civil service systems administrative traditions of five Anglo American nations

**More than Mayor or Manager** James H. Svara,Douglas J. Watson,2010-11-23 Different forms of city government are in widespread use across the United States The two most common structures are the mayor council form and the council

manager form In many large U S cities there have been passionate movements to change the structure of city governments and equally intense efforts to defend an existing structure Charter change or preservation is supported to solve problems such as legislative gridlock corruption weak executive leadership short range policies or ineffective delivery of services Some of these cities changed their form of government through referendum while other cities chose to retain the form in use More than Mayor or Manager offers in depth case studies of fourteen large U S cities that have considered changing their form of government over the past two decades St Petersburg Florida Spokane Washington Hartford Connecticut Richmond Virginia San Diego California Oakland California Kansas City Missouri Grand Rapids Michigan Dallas Texas Cincinnati Ohio El Paso Texas Topeka Kansas St Louis Missouri and Portland Oregon The case studies shed light on what these constitutional contests teach us about different forms of government the causes that support movements for change what the advocates of change promised what is at stake for the nature of elected and professional leadership and the relationship between leaders and why some referendums succeeded while others failed This insightful volume will be of special interest to leaders and interest groups currently considering or facing efforts to change the form of government as well as scholars in the field of urban studies     The Parliamentary ,1977     **Administrative Theory** Ramesh Kumar Arora,1984
