Niederösterreich 1997-2007 Walter Zschokke, 2007 In the course of the 20th century the Federal State of Lower Austria a province which once belonged to the city of Vienna has emancipated itself in a series of stages The selection of St Pölten as the federal state capital in place of Vienna and the subsequent construction of a government district represent the culmination of this process of emancipation This rural industrial region was until recently regarded as an architectural wasteland However in recent years numerous buildings have been erected which need have no fear of international comparison Parallel to the works of better known architects such as Coop Himmelb(l)au Hermann Czech Ernst Hiesmayr Hans Hollein Klaus Kada Adolf Krischanitz Laurids Ortner Gustav Peichl Boris Podrecca Elsa Prochazka Anton Schweighofer Karla Kowalski Michael Szyszkowitz and Heinz Tesar who gave a first signal with one or more executed designs buildings of a high design quality have also been produced by younger architects most of them from Lower Austria Ernst Beneder Walter Ifsits Paul Katzberger and Karin Bily Adolph H. Kelz Gerhard Lindner Michael Loudon Elena and Alois Neururer Rudolf Prohazka Franz Sam Franziska Ullmann and others have built a series of sensitive perfectly worked out buildings and a further generation has already completed its apprentice pieces The interesting and positive development of architectural culture in towns in Lower Austria since the mid eighties which received official support through an increase in the number of competitions held and the introduction of design advisory bodies is documented here by more than one hundred buildings erected in course of the last decade An essay by the architecture critic Otto Kapfinger and the texts by Walter Zschokke explain the buildings and illustrate their context The well known Viennese architectural photographer Margherita Spiluttini and Rupert Steiner a young photographer have made an extensive series of black and white photographs for this publication In combination with selected plans they produce a detailed picture of this architecturally ambitious region
