Adoption And Ethics:

The Morality of Adoption Timothy Patrick Jackson, 2005 The Religion Marriage and Family Series investigates marriage and family as major theological and cultural issues Given that both society and the church have debated these topics intensely but have actually studied them very little this series attempts to correct recent theological neglect of these important matters

The Ethics of Embryo Adoption and the Catholic Tradition Sarah-Vaughan Brakman, Darlene Fozard Weaver, 2008-04-08 The strength of this collection of essays is its careful consideration from a variety of perspectives within the Catholic tradition of the practice of embryo adoption It approaches the question in an open and reasonable way by allowing proponents of diverse positions within the tradition This method both sheds a great deal of light on the particular question and at the same time introduces the reader to the relevant general principles that guide Catholic moral thought

Ethics in American Adoption Linda Anne Babb, 1999-05-30 Today in the United States there is a lack of consensus about what constitutes ethical practice in adoption Although ethics in adoption is a hot topic adoption specialists and professionals are unsure about how to serve the best interests of children who need to be adopted and how birth parents adoptive parents and adult adoptees ought to be served This failure to identify and prioritize ethical standards in adoption has resulted in a lack of ethical decision making and inadequate and sometimes fraudulent treatment of those seeking adoption related services Destined to be seminal in the fields of ethics and adoption this books offers numerous case studies describing what is wrong with America s adoption system illustrating what the lack of applied ethical standards in adoption does to adoptees and those who love them and raising many questions about what adoption facilitators are doing who is accountable for what they are doing and whose interests they are serving

Mallon,Peg McCartt Hess,2005-09-14 This up to date and comprehensive resource by leaders in child welfare is the first book to reflect the impact of the Adoption and Safe Families Act ASFA of 1997 The text serves as a single source reference for a wide array of professionals who work in children youth and family services in the United States policymakers social workers psychologists educators attorneys guardians ad litem and family court judgesand as a text for students of child welfare practice and policy Features include Organized around ASFA s guiding principles of well being safety and permanency Focus on evidence based best practices Case examples integrated throughout First book to include data from the first round of National Child and Family Service Reviews Topics discussed include the latest on prevention of child abuse and neglect and child protective services risk and resilience in child development engaging families connecting families with public and community resources health and mental health care needs of children and adolescents domestic violence substance abuse in the family family preservation services family support services and the integration of family centered practices in child welfare gay and lesbian adolescents and their families children with disabilities and runaway and homeless youth The contributors also explore issues pertaining to foster care and adoption including a focus on permanency planning for children and youth and the need to provide services that are individualized and culturally and spiritually responsive to clients A review of salient systemic issues in the field of children youth and family services completes this collection **Family-making** Françoise Baylis,Carolyn McLeod,2014 This volume explores the ethics of making or expanding families through adoption or technologically assisted reproduction For many people these methods are separate and distinct they can choose either adoption or assisted reproduction But for others these options blend together For example in some jurisdictions the path of assisted reproduction for same sex couples is complicated by the need for the partner who is not genetically related to the resulting child to adopt this child if she wants to become the child s legal parent The essays in this volume critically examine moral choices to pursue adoption assisted reproduction or both and highlight the social norms that can distort decision making Among these norms are those that favour people having biologically related children bionormativity or that privilege a traditional understanding of family as a heterosexual unit with one or more children where both parents are the genetic biological legal and social

parents of these children As a whole the book looks at how adoption and assisted reproduction are morally distinct from one another but also emphasizes how the two are morally similar Choosing one the other or both of these approaches to family making can be complex in some respects but ought to be simple in others provided that one's main goal is to become a parent
