Bowles, 2011-02-14 This in depth analysis of Adrian Pipers art locates her groundbreaking work at the nexus of Conceptual and feminist art of the late 1960s and 1970s **Adrian Piper**, 1987 **Adrian Piper** Adrian Piper, Ikon Gallery, 1991

Selected Writings in Art Criticism, 1967-1992 Adrian Piper, 1996 Out of Order Out of Sight is an artistic and intellectual autobiography and commentary on mainstream art art criticism and American culture of the last twenty five years Cover African-American Perspectives on Biomedical Ethics Harley Flack, Edmund D. Pellegrino, 1992 By analyzing the amalgam of Greek philosophy Jewish and Christian teachings and secular humanism that composes our dominant ethical system the authors of this volume explore the question of whether or not Western and non Western moral values can be commingled without bilateral loss of cultural integrity They take as their philosophical point of departure the observation that both ethical relativism and ethical absolutism have become morally indefensible in the context of the multicultural American life and they variously consider the need for an ethical middle ground **Out of Order, Out of Sight** Adrian Piper, 1996 Adrian Piper joins the ranks of writer artists who have provided much of the basic and most reliable literature on modern and contemporary art Out of Order Out of Sight is an artistic and intellectual autobiography and an occasionally scathing commentary on mainstream art art criticism and American culture of the last twenty five years Piper is an internationally recognized conceptual artist and the only African American in the early conceptual art movement of the 1960s The writings in Out of Order Out of Sight trace the development of her thinking about her artwork and the art world and her evolving awareness of herself as a creative racial and gendered subject situated in an often limiting and always absurd cultural and social context **Body Art/performing the Subject** Amelia Jones, 1998 With great originality and scholarship Amelia Jones maps out an extraordinary history of body art over the last three decades and embeds it in the theoretical terrain of postmoderism The result is a wonderful and permissive space in which the viewer can wander Moira Roth Trefethen professor of art history Mills College Art, Activism, and Oppositionality Grant H. Kester, 1998 A collection of essays from the influential American journal of film video and photography exploring ideologies and institutions of the artworld current media strategies for producing social change and topics around gender race and representation I

Women Artists in the 20th and 21st Century Ilka Becker, 2001 Taschen's inventive layout is effective in presenting the provocative works words and biographies of the nearly 100 women artists gathered here Grosenick a freelance art historian in Germany has selected women artists working in Germany the US South Africa Japan Poland France Scandinavia and Spain among other countries The entry for each artist is six pages with much of the space devoted to good quality color photos of her work c Book News Inc **The Contingent Object of Contemporary Art** Martha Buskirk, 2005-02-18 An exploration of transformations in the nature of the art object and artistic authorship in the last four decades In this book Martha Buskirk

addresses the interesting fact that since the early 1960s almost anything can and has been called art Among other practices contemporary artists have employed mass produced elements impermanent materials and appropriated imagery have incorporated performance and video and have created works through instructions carried out by others Furthermore works of art that lack traditional signs of authenticity or permanence have been embraced by institutions long devoted to the original and the permanent Buskirk begins with questions of authorship raised by minimalists use of industrial materials and methods including competing claims of ownership and artistic authorship evident in conflicts over the right to fabricate artists works Examining recent examples of appropriation she finds precedents in pop art and the early twentieth century readymade and explores the intersection of contemporary artistic copying and the system of copyrights trademarks and brand names characteristic of other forms of commodity production She also investigates the ways that connections between work and context have transformed art and institutional conventions the impact of new materials on definitions of medium the role of the document as both primary and secondary object and the significance of conceptually oriented performance work for the intersection of photography and the human body in contemporary art Buskirk explores how artists active in the 1980s and 1990s have recombined strategies of the art of the 1960s and 1970s She also shows how the mechanisms through which art is presented shape not only readings of the work but the work itself She uses her discussion of the readymade and conceptual art to explore broader issues of authorship reproduction context and temporality *Breaking the Mind Barrier* Todd Siler, 1997-10 Siler's provocative and highly accessible work is designed to help readers gain a fuller understanding of this artist visionary's latest tome casting a fresh light on the unrealized symmetry of the mind and the universe Illustrations

 the artist s strategic use of direct address the dialectic posture her art takes in relationship to its viewers to trouble the field
 of vision and claim a voice in the late 1970s through the 1990s when her voice was seen as out of turn in the art world
 Speaking Out of Turn situates O Grady s significant contributions within the history of American conceptualism and
 performance art while also attending to the work s heightened visibility in the contemporary moment revealing both the
 marginalization of O Grady in the past and an urgent need to revisit her art in the present **The Female Body** Laurence
