Adrift In New York And The World Before Him:

Adrift in New York Horatio Alger, 2019-09-25 Reproduction of the original *Adrift in New York* by Horatio Alger

Public Sentiments Glenn Hendler, 2003-04-03 In this book Glenn Hendler explores what he calls the logic of sympathy in novels by Walt Whitman Louisa May Alcott T S Arthur Martin Delany Horatio Alger Fanny Fern Nathaniel Parker Willis Henry James Mark Twain and William Dean Howells For these nineteenth century writers he argues sympathetic identification was not strictly an individual feminizing and private feeling but the quintessentially public sentiment a transformative emotion with the power to shape social institutions and political movements Uniting current scholarship on gender in nineteenth century American culture with historical and theoretical debates on the definition of the public sphere in the period Hendler shows how novels taught diverse readers to feel right to experience their identities as male or female black or white middle or working class through a sentimental emotionally based structure of feeling He links novels with such wide ranging cultural and political discourses as the temperance movement feminism and black nationalism *Public Sentiments* demonstrates that whether published for commercial reasons or for higher moral and aesthetic purposes the nineteenth century American novel was conceived of as a public instrument designed to play in a sentimental key **The**

Fatal Environment Richard Slotkin, 1998 Discusses the subjugation of Native Americans on the American frontier and explains how it was used to justify American territorial expansion *Intertextual Encounters in American Fiction, Film, and Popular Culture* Michael Dunne, 2001 Intertextual encounters occur whenever an author or the author's text recognizes references alludes to imitates parodies or otherwise elicits an audience member's familiarity with other texts F Scott Fitzgerald and Nathanael West use the fiction of Horatio Alger Jr as an intertext in their novels *The Great Gatsby* and *A Cool Million* Callie Khouri and Ridley Scott use the buddy road picture genre as an intertext for their *Thelma and Louise* In all these cases intertextual encounters take place between artists between texts between texts and audiences between artists and audiences Michael Dunne investigates works from the 1830s to the 1990s and from the canonical American novel to *Bugs Bunny* and *Jerry Seinfeld* **Ethics is a Daily Deal** Leslie E Sekerka, 2015-12-11 Are you an ethical person Regardless of your answer a follow up probe might be How do you know Your personal values reflect your beliefs what you care about These values if they really matter to you are activated by and through your everyday decisions How do you ensure that your values those that reflect your best ethical self are actually demonstrated in the choices you make on a daily basis Sometimes what we say we value does not match our actual behavior Being ethical requires the ability to discern and navigate competing values continually striving to attain both personal and organizational goals with moral strength This necessitates the development of skills that support personal governance and your moral competency To be ethical building moral strength needs to become a focus of your daily life which calls for making a deliberate effort to apply the values you say you hold In reading this book you will see how awareness of your thoughts and emotions along with specific moral competencies can

influence your desire to do the right thing and bolster your ability to exercise moral strength at work Drawing insight from the latest research in management business ethics organizational behavior and psychology each chapter is intended to help adult learners examine leverage and continue to develop their best ethical selves in organizational life *Civic Passions* Cecelia Tichi, 2009-10-01 A gripping and inspiring book *Civic Passions* examines innovative leadership in periods of crisis in American history Starting from the late nineteenth century when respected voices warned that America was on the brink of collapse Cecelia Tichi explores the wisdom of practical visionaries who were confronted with a series of social political and financial upheavals that in certain respects seem eerily similar to modern times The United States then as now was riddled with political corruption financial panics social disruption labor strife and bourgeois inertia Drawing on a wealth of evocative personal accounts biographies and archival material Tichi brings seven iconoclastic and often overlooked individuals from the Gilded Age back to life We meet physician Alice Hamilton theologian Walter Rauschenbusch jurist Louis D Brandeis consumer advocate Florence Kelley antilynching activist Ida B Wells Barnett economist John R Commons and child welfare advocate Julia Lathrop Bucking the status quo of the Gilded Age as well as middle class complacency these reformers tirelessly garnered popular support as they championed progressive solutions to seemingly intractable social problems *Civic Passions* is a provocative and powerfully written social history a collection of minibiographies and a user's manual on how a generation of social reformers can turn peril into progress with fresh workable ideas Together these narratives of advocacy provide a stunning precedent of progressive action and show how citizen activists can engage the problems of the age in imaginative ways While offering useful models to encourage the nation in a newly progressive direction *Civic Passions* reminds us that one determined individual can make a difference **Shakespearean Romance** Howard M.

Felperin, 2015-03-08 If Shakespeare's last plays *Pericles* *Cymbeline* *The Winter's Tale* *The Tempest* and *Henry VIII* are to be neither debunked nor idealized but taken seriously on their own terms they must be examined within the traditions and conventions of romance Howard Felperin defines this relatively neglected literary mode and locates these plays within it But as he shows romance was not simply an established genre in which Shakespeare worked at both the beginning and end of his career but a mode of perceiving the world that pervades and shapes his entire work The last plays are examined to answer such questions as How does Shakespeare raise to a higher power the conventions of romance available to him particularly those of the native medieval drama How does he bring us to accept these elements of romance Above all how does romance the mode in which the imagination enjoys its freest expression become the vehicle not of beautiful escapist fantasy but of moral truth Originally published in 1972 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of

Entrepreneurs play a central role in economic growth and development but how they do so is the subject of considerable
debate This book explains that process through an historical case study of an automobile insurance entrepreneur Samuel P
Black Jr and Erie Insurance the company he helped build It also recounts the largely untold history of American automobile
insurance One of this study s central themes is the role of innovation in the entrepreneurial process The rise of Erie
Insurance from a four person enterprise in Erie Pennsylvania in 1925 to the fourteenth largest property casualty insurer
today was the result in part of Black s relentless push to innovate His continual efforts to cut costs develop new products
satisfy customers increase sales and improve operations all contributed greatly to the company s growth A second theme is
the automobile s dramatic impact on modern America Its takeover of mass transportation provided the basis for the
development of the automobile insurance industry and created many of the opportunities that Black and Erie Insurance
capitalized on These themes combine in the history of Black and Erie Insurance to illuminate the dynamic process by which
the cultural social economic and technological environment creates opportunities that entrepreneurs and entrepreneurial
firms exploit and how entrepreneurial actions stimulate economic growth **Jack in the Forecastle; Or, Incidents in the**
