Networks Alex Pappachen James,2019-04-08 This book introduces readers to the fundamentals of deep neural network
architectures with a special emphasis on memristor circuits and systems At first the book offers an overview of neuro
memristive systems including memristor devices models and theory as well as an introduction to deep learning neural
networks such as multi layer networks convolution neural networks hierarchical temporal memory and long short term
memories and deep neuro fuzzy networks It then focuses on the design of these neural networks using memristor crossbar
architectures in detail The book integrates the theory with various applications of neuro memristive circuits and systems It
provides an introductory tutorial on a range of issues in the design evaluation techniques and implementations of different
deep neural network architectures with memristors
