and Hayseeds: One Woman's Struggle Against the Underbelly of Small-Town Politics Cherie White, 2018-01-31 Shannon McGregor is a widowed mother of four children living just outside of Tucson Arizona and has the life others only dream of having She is a best selling author and can make a great living doing what she loves most writing novels Every area in her life is close to perfect her writing career could not be better she enjoys a closeness with her family and lots of friends who adore her However her life hasn't always been rosy Shannon is an adult survivor of vicious and relentless school bullying How had she risen above it By moving over a thousand miles away to Arizona to start a new life When her grandmother back in Thomasville Tennessee dies suddenly and Shannon inherits her estate she must return with her children to the home of her youth and make the necessary renovations to the house and sell the property before returning to Arizona However upon returning to the tiny town she learns that the very people who run the town are the same people whom had tormented her in school Tales from Wide Ruins Jean Cousins, 1996 Recounts the experiences of two Indian traders during the 1930s and 1940s describing the hardships endured by them and the Native Americans with whom they dealt *The Great Arizona Orphan Abduction* Linda Gordon, 1999-11-19 In 1904 New York nuns brought forty Irish orphans to a remote Arizona mining camp to be placed with Catholic families The Catholic families were Mexican as was the majority of the population Soon the town's Anglos furious at this interracial transgression formed a vigilante squad that kidnapped the children and nearly lynched the nuns and the local priest The Catholic Church sued to get its wards back but all the courts including the U S Supreme Court ruled in favor of the vigilantes The Great Arizona Orphan Abduction tells this disturbing and dramatic tale to

illuminate the creation of racial boundaries along the Mexican border Clifton Morenci Arizona was a wild West boomtown where the mines and smelters pulled in thousands of Mexican immigrant workers Racial walls hardened as the mines became big business and whiteness became a marker of superiority These already volatile race and class relations produced passions that erupted in the orphan incident To the Anglos of Clifton Morenci placing a white child with a Mexican family was tantamount to child abuse and they saw their kidnapping as a rescue Women initiated both sides of this confrontation Mexican women agreed to take in these orphans both serving their church and asserting a maternal prerogative Anglo women believed they had to save the orphans and they organized a vigilante squad to do it In retelling this nearly forgotten piece of American history Linda Gordon brilliantly recreates and dissects the tangled intersection of family and racial values in a gripping story that resonates with today's conflicts over the best interests of the child Glimpses of Phoenix David William Foster, 2013-05-01 Part of the self image of Phoenix is that the city has no history and that anything of importance happened yesterday Also that Phoenix the Arizona state capital is a clean city despite a past of police corruption and social oppression The real Phoenix easygoing sun drenched a place of ever expanding development and economic growth guarantees it is said an enviable lifestyle low taxes and unfettered personal freedom and opportunity Little of this is true Phoenix has been described as one of the least sustainable cities in the country This sixth largest urban area of the United States has an alarmingly superficial and tourism oriented discourse among its leaders This book examines a series of narrative works novels theater chronicles investigative reporting personal accounts editorial cartooning even a children's television program that question this discourse in a frequently stinging fashion The works examined are anchored in a critical understanding of the dominant urban myths of Greater Phoenix and an awareness of how all the newness modernity and fun in the sun mentality mask a uniquely dystopian human experience Metropolitan Phoenix Patricia Gober, 2013-02-12 Inhabitants of Phoenix tend to think small but live big They feel connected to individual neighborhoods and communities but drive farther to get to work feel the effects of the regional heat island and depend in part for their water on snow packs in Wyoming In Metropolitan Phoenix Patricia Gober explores the efforts to build a sustainable desert city in the face of environmental uncertainty rapid growth and increasing social diversity Metropolitan Phoenix chronicles the burgeoning of this desert community including the audacious decisions that created a metropolis of 3.6 million people in a harsh and demanding physical setting From the prehistoric Hohokam who constructed a thousand miles of irrigation canals to the Euro American farmers who converted the dryland river valley into an agricultural paradise at the end of the nineteenth century Gober stresses the sense of beginning again and building anew that has been deeply embedded in wave after wave of human migration to the region In the early twentieth century the so called health seekers asthmatics arthritis and tuberculosis sufferers arrived with the hope of leading more vigorous lives in the warm desert climate while the postwar period drew veterans and their families to the region to work in emerging electronics and defense industries Most recently a new

generation of elderly seeking active retirement has settled into planned retirement communities on the perimeter of the city Metropolitan Phoenix also tackles the future of the city The passage of a recent transportation initiative efforts to create a biotechnology incubator and growing publicity about water shortages and school funding have placed Phoenix at a crossroads forcing its citizens to grapple with the issues of social equity environmental quality and economic security Gober argues that given Phoenix s dramatic population growth and enormous capacity for change it can become a prototype for twenty first century urbanization reconnecting with its desert setting and building a multifaceted sense of identity that encompasses the entire metropolitan community The A-Z of Learning Mike Leibling, Robin Prior, 2005 A handy

compendium packed with facts and techniques that teachers will find useful to have at their fingertips It offers over 1 000 answers definitions and practical tips for the many questions that teachers need to answer **The Cognitive**
