Spencer, 1966 *Hearings* United States. Congress Senate, 1949 *Losing the Center* Jeffrey Bloodworth, 2013-07 Many Americans consider John F Kennedy's presidency to represent the apex of American liberalism Kennedy's Vital Center blueprint united middle class and working class Democrats and promoted freedom abroad while recognizing the limits of American power Liberalism thrived in the early 1960s but its heyday was short lived In *Losing the Center* Jeffrey Bloodworth demonstrates how and why the once dominant ideology began its steep decline exploring its failures through the biographies of some of the Democratic Party's most important leaders including Daniel Patrick Moynihan Henry Scoop Jackson Bella Abzug Harold Ford Sr and Jimmy Carter By illuminating historical events through the stories of the people at the center of the action Bloodworth sheds new light on topics such as feminism the environment the liberal abandonment of the working class and civil rights legislation This meticulously researched study authoritatively argues that liberalism's demise was prompted not by a Republican revolution or the mistakes of a few prominent politicians but instead by decades of ideological incoherence and political ineptitude among liberals Bloodworth demonstrates that Democrats caused their own party's decline by failing to realize that their policies contradicted the priorities of mainstream voters who were more concerned about social issues than economic ones With its unique biographical approach and masterful use of archival materials this detailed and accessible book promises to stand as one of the definitive texts on the state of American liberalism in the second half of the twentieth century Subnational Hydropolitics Scott Moore, 2018 It's often claimed that future wars will be fought over water But while international water conflict is rare it's common between subnational jurisdictions like states and provinces Drawing on cases in the United States China India and France this book explains why these subnational water conflicts occur and how they can be prevented *Colonel Edward E. little known figure filling a critical gap in the literature of the northern Civil War experience      **Geological Survey Professional Papers** ,1949      **The Supai Group of Grand Canyon** Edwin Dinwiddie McKee,1982      **The Best of News Design 34th Edition** Society for News Design,2013-11 The Best of News Design 34th Edition the latest edition in Rockport s highly respected series presents the winning entries from the Society for News Design s 2013 competition Bold full color layouts feature the best of the best in news features portfolios visuals and more and each entry is accompanied by insightful commentary on the elements that made the piece a standout winner Every industry professional aspires to one day see his or her work in this book      **Oversight and Authorization of the Antitrust Division, U.S. Department of Justice** United States. *Queer Alliances* Erin Mayo-Adam,2020-07-14 A unique investigation into how alliances form in highly polarized times among LGBTQ immigrant and labor rights activists revealing the impacts within each rights movement *Queer Alliances* investigates coalition formation among LGBTQ immigrant and labor rights activists in the United States revealing how these new alliances impact political movement formation In the early 2000s the LGBTQ and immigrant rights movements operated separately from and sometimes in a hostile manner towards each other Since 2008 by contrast major alliances have formed at the national and state level across these communities Yet this new coalition formation came at a cost Today coalitions across these communities have been largely reluctant to address issues of police brutality mass incarceration economic inequality and the ruthless immigrant regulatory complex *Queer Alliances* examines the extent to which grassroots groups bridged historic divisions based on race gender class and immigration status through the development of coalitions looking specifically at coalition building around expanding LGBTQ rights in Washington State and immigrant and migrant rights in Arizona Erin Mayo Adam traces the evolution of political movement formation in each state and shows that while the movements expanded they simultaneously ossified around goals that matter to the most advantaged segments of their respective communities Through a detailed multi method study that involves archival research and in depth interviews with organization leaders and advocates *Queer Alliances* centers local coalition based mobilization across and within multiple movements rather than national campaigns and court cases that often occur at the end of movement formation Mayo Adam argues that the construction of common political movement narratives and a shared core of opponents can help to explain the paradoxical effects of coalition formation On the one hand the development of shared political movement narratives and common opponents can expand movements in some contexts On the other hand the episodic nature of rights based campaigns can simultaneously contain and undermine movement expansion reinforcing movement divisions Mayo Adam reveals the extent to which inter and intra movement coalitions formed to win rights or thwart rights losses represent and

serve intersectionally marginalized communities who are often absent from contemporary accounts of social movement formation
