foundation of the first Greek colonies on the North Pontic shores at the end of the seventh and sixth century BCE through the first centuries of the Roman imperial period This volume closely examines relevant categories of archaeological material including amphorae architectural remains funerary and dedicatory monuments inscriptions and burial complexes Geographically it encompasses the coastal territories of modern Russia and Ukraine The Northern Black Sea in Antiquity embraces an inclusive and comparative approach while discussing new archaeological evidence offering fresh insights into familiar questions and presenting original interpretations of well known artifacts
