Armageddon 1945 An Oral History Of The Conquest Of Germany

Christian Hartmann

Armageddon 1945 An Oral History Of The Conquest Of Germany:

The Truth of War Doctor Tom Lewis, 2023-11-01 *The Truth of War* unveils a penetrating exploration of the most contentious facets of military combat delving into the necessity of killing the complex decisions surrounding the taking or sparing of prisoners and the intricate dilemmas concerning the targeting of civilians With a profound analysis of seven significant conflicts this book challenges conventional beliefs arguing that war possesses its own set of rules that often diverge from society's established laws and values At its core the book confronts the harsh reality that soldiers engaged in close quarter combat must swiftly adapt to become efficient killers in order to survive emphasising the stark choice they face hone their lethal skills or meet a perilous demise The author contends that the requirements of war demand an unflinching acceptance of this disturbing truth By drawing from history encompassing conflicts such as the Boer War World Wars I and II the wars in Korea Vietnam the Falklands Iraq and Afghanistan the author presents a comprehensive examination of the ethical dilemmas embedded within each episode Through meticulous research and vivid storytelling *The Truth of War* peels back the layers of sanitised perceptions exposing the gritty realities that within the realm of warfare In unveiling the hidden truths and complexities of war this brilliant and thought provoking book shines a blazing light on the multifaceted nature of combat challenging readers to reevaluate their preconceived notions and confront the uncomfortable truths that lie at the heart of humanity's most enduring and controversial endeavour war

A History of World Societies John P. McKay, 2007-02-12 Explore World History with *A History of World Societies* With its vibrant distinctive narrative and commitment to telling the stories of all peoples *A History of World Societies* will be your guide through the many cultures of human history *Individuals in Society* introduces you to the unique stories of dynamic characters Listening to the Past brings influential and interesting voices to life *Global Trade* helps you make connections about the interactions of cultures

Armageddon Max Hastings, 2012-04-19 In *Armageddon* one of Britain's most highly regarded historians tells the epic story of the bloody last eight months of the war in Europe Hastings triumphs he conveys brilliantly what fighting was like for those who had to do it David Stafford *The Times* Masterly Craig Brown *Mail on Sunday* In 1944 German forces suffered catastrophic defeats during the battles for Holland and the German border Yet in the following weeks the ailing Wehrmacht was able to achieve one of the greatest military feats of the Second World War The Germans regrouped and found the strength to halt the seemingly inexorable Allied advance prolonging the war into 1945 Drawing on original research and fascinating individual experiences Max Hastings's definitive account provides a fresh and gripping insight into the final twists and turns of the war revealing how Europe's fate hung in the balance until the bitter end *Magisterial Armageddon* is a magnificent achievement Christopher Silvester *Financial Times*

Lethality in Combat Doctor Tom Lewis, 2012-02-01 *Lethality in Combat* shines a blazing light on the three most controversial aspects of military combat the necessity of killing the taking or not of prisoners and the targeting of civilians This book argues that when a nation state sends its soldiers to

fight the state must accept the full implications of this uncomfortable as they may be Drawing on seven conflicts the Boer War World Wars I and II and the wars in Korea Vietnam the Falklands and Iraq the author considers these ethical issues

Atomic Salvation Doctor Tom Lewis, 2020-07-08 So did not the atomic weapons bring about a great peace Since the initial grateful acknowledgement of the success of the A bomb attacks in ending World War II there has been a steady reversal of opinion and sentiment from a first hearty appreciation to a condemnation by many of the United States for its actions *Atomic Salvation* investigates the full situation of the times to a previously unplumbed depth It examines documents from both Japanese and Allied sources but it uses logical in depth analysis to extend beyond the mere recounting of statistics It charts the full extent of the possible casualties on both sides if a conventional assault akin to D Day had gone ahead The work is concerned solely with the military necessity to use the bombs but it also investigates why that necessity has been increasingly challenged over the successive decades Controversially the book shows that the Japanese nation would have lost many millions of their people likely around 28 million if the nation had been attacked in the manner by which Germany was defeated by amphibious assault artillery and air attacks preceding infantry insertion and finally by subduing the last of the defenders of the enemy capital From the other side the book investigates the enormous political pressure placed on America as a result of their military situation The USA's Truman Administration had little choice but to use the new weapon given the more than a million deaths Allied forces would undoubtedly have suffered through conventional assault Through investigation of reactions then and since *Atomic Salvation* charts reaction to the bombings It looks briefly at a range of reactions through the decades and shows that there has been relentless pressure on the world to condemn what at the time was seen as the best and the only military solution to end the war Never has such an exhaustive analysis been made of the necessity behind bringing World War II to a halt

The Second World War Nick Smart, 2017-11-30 The significant and sustained popular interest in the Second World War is matched by the scale and scope of scholarly engagement in the subject The articles selected for this volume cover a wide range of topics reflecting the fact that the largest recorded war in history and the most intense period of global instability in the twentieth century was fought by many different states large and small over differing periods of time and for many different reasons In an area where there is no shortage of material to choose from the articles presented here are distinguished for their depth of scholarship stylistic elegance and inter disciplinary confidence

America, History and Life, 2003 Provides historical coverage of the United States and Canada from prehistory to the present Includes information abstracted from over 2 000 journals published worldwide

Forthcoming Books Rose Army, 1997-12

Arts & Humanities Citation Index, 1991 A multidisciplinary index covering the journal literature of the arts and humanities It fully covers 1 144 of the world's leading arts and humanities journals and it indexes individually selected relevant items from over 6 800 major science and social science journals

Armageddon Max Hastings, 2005-10-18 The author has scoured the archives of the major combatants and interviewed many survivors to create an unprecedented

understanding of the events and their impact for this rousing and revealing chronicle of the crucial final 18 months of World War II

Germany on May 8, 1945 Jurgen Hesse, 1995-01-01

The Day the War Ended Martin Gilbert, 1995 By the author of *The Holocaust* This is a history of the events of 8 May 1945 and its repercussions published to coincide with the 50th Anniversary celebrations of VE Day in May 1995 It focuses not only on the events of that day but also looks forward from that day to the years ahead The theme of the book is the way in which the world today has been moulded by the events of 8 May 1945 Gilbert traces in narrative form the events and personalities of that day from the early hours of the morning until midnight looking at the topics and people first in their 8 May context and then in the wider sweep of the events to which they led across the years The story of one day's impact and its aftermath combines global perspectives with the stories of individuals

The World at War Richard Holmes, 2011 Originally broadcast in 1973 the landmark television series *The World at War* tells the story of the Second World War through the testimony of key participants This book uses the interviews from the series along with many that never made the final cut to weave a narrative of the war

All Hell Let Loose Max Hastings, 2011 A magisterial history of the greatest and most terrible event in history from one of the finest historians of the Second World War A book which shows the impact of war upon hundreds of millions of people around the world soldiers sailors and airmen housewives farm workers and children

Armageddon Clive Ponting, 2012-02-29 Fifty years after the end of World War II Clive Ponting provides a major reassessment of the most destructive conflict in human history one in which 85 million people died *Armageddon* avoids conventional chronological accounts in order to concentrate on the deeper forces shaping the origins course and outcome of the war across the globe It analyses how and why the war spread from being a limited European conflict to the only global war why countries were dragged into the fighting and how only a small number of neutral states escaped It compares the two alliances how they mobilized their resources and their strategies for victory It avoids a detailed description of how commanders maneuvered on the battlefield and concentrates instead on the impact the war had on individual soldiers sailors and airmen Equally important is the fate of hundreds of millions of civilians How did they survive occupation and what did resistance collaboration and liberation really involve and what happened at the end of the war *Armageddon* has a truly global sweep combined with an eye for detail and provides fascinating comparisons from a multi-faceted war It contains new facts asks provocative questions and challenges many of the common assumptions about the war It is a compelling new inquiry

Germany 1945 Richard Bessel, 2010 This is an original and compelling account of Germany's emergence from the catastrophe of World War II

The End Ian Kershaw, 2012-08-28 From the author of *To Hell and Back* a fascinating and original exploration of how the Third Reich was willing and able to fight to the bitter end of World War II Countless books have been written about why Nazi Germany lost the Second World War yet remarkably little attention has been paid to the equally vital questions of how and why the Third Reich did not surrender until Germany had been left in ruins and almost completely occupied Drawing on prodigious new research Ian Kershaw an award-winning historian and the

author of *Fateful Choices* explores these fascinating questions in a gripping and focused narrative that begins with the failed bomb plot in July 1944 and ends with the death of Adolf Hitler and the German capitulation in 1945 *The End* paints a harrowing yet enthralling portrait of the Third Reich in its last desperate gasps **Operation Barbarossa** Christian Hartmann, 2013-07-25 The war between Nazi Germany and Stalin's Soviet Union that raged between 1941 and 1945 was the ultimate confrontation between the two great totalitarian ideologies of the twentieth century Unprecedented in the scale of the destruction that it wrought and the deep historical scars that it left behind it was a gargantuan conflict in every sense of the term in the vast territories over which it ranged its intensity and duration the huge numbers of people involved and last but by no means least the millions of victims that it claimed The invasion of the Soviet Union was the conflict that Hitler had always ultimately planned for a pitiless war of conquest and destruction in which the Fuehrer dreamed of creating his Thousand Year Reich destroying his ideological opponents and enslaving or eliminating whole peoples in the process It was right from the start a struggle for survival conducted with great bitterness and savagery by opponents who knew that defeat meant the destruction of everything they stood for The outcome of this bitter struggle was quite as momentous as the struggle which had preceded it By 1945 a huge swathe of Europe between Berlin and Moscow had been reduced to a devastated wasteland in which whole societies had been erased from the face of the earth Over 26 million Soviets and between four and five million Germans lay dead The victory of the Red Army transformed the Soviet Union into one of the world's two superpowers It also saw the complete destruction of Hitler's megalomaniac vision for the East the division of the German Reich and the Soviet domination of Eastern Europe for a generation In *Operation Barbarossa* German military historian Christian Hartmann draws upon the latest research enriched by a wealth of eye witness testimony from both the Soviet and the German sides to paint a masterly overview of these momentous four years and their human consequences one that is both gripping and at times deeply moving **A World in Flames** Martin Kitchen, 1990 [Hitler and His Generals](#) Adolf Hitler, 2003 The only complete edition in any language of all the known stenographic conferences These are the first verbatim records in history of military planning at the highest level

Recognizing the exaggeration ways to get this book **Armageddon 1945 An Oral History Of The Conquest Of Germany** is additionally useful.
