Armed Conflict In Human History:

The Law of Armed Conflict Gary D. Solis, 2016-04-18 This book introduces students to the essential questions of the law of armed conflict and international humanitarian law

Human Rights in Armed Conflict Gerd Oberleitner, 2015-03-05 A comprehensive analysis of the legal challenges and practical consequences of applying international human rights law in armed conflict situations

Armed Conflict and International Law: In Search of the Human Face Mariëlle Matthee, Brigit Toebes, Marcel Brus, 2013-06-26 This book is written in memory of Avril McDonald who passed away in April 2010 Avril was an inspired and passionate scholar in the fields of international humanitarian law international criminal law human rights law and law in the field of arms control and disarmament What in particular made Avril's work special was her strong commitment with the human aspects throughout Fourteen scholars and practitioners have contributed to this *liber amicorum* which has led to a rich variety of topics within the disciplines of Avril's expertise They all have in common that they deal with the human perspectives of the discipline of law at hand They concentrate on the impact of the developments in international law on humans whether they are civilians victims of war or soldiers This human perspective of law makes this book an appropriate tribute to Avril McDonald and at the same time a unique and valuable contribution to international legal research in the present society A society that becomes more and more characterized by detailed legal systems defined by institutions that may frequently lack sufficient contact with the people concerned

Armed Conflict in the 21st Century Steven Metz, 2000

The Law of Armed Conflict Howard M. Hensel, 2017-09-29 Modern armed conflict has taken a variety of forms and occurs at a variety of levels raising serious questions concerning the relationship between the law of armed conflict and the reality of contemporary warfare Many contemporary armed conflicts are fought in pursuit of unlimited objectives whereas other modern wars seek to advance limited goals While in some cases modern wars are fought by traditional armies composed of clearly identifiable soldiers often modern armed conflicts are waged by guerrilla or partisan fighters whose identities are easily confused with non combatants Terrorism is increasingly a characteristic manifestation of this contemporary warfare In the broadest sense contemporary warfare has raised often controversial and vexing questions concerning the applicability of the law of armed conflict and when applicable the interpretation of its principles and tenets This engaging volume addresses some of the contemporary normative and legal challenges and problems associated with the application of the concepts of just war the just conduct of war and the law of armed conflict to 21st century warfare

Warfare and Armed Conflicts Micheal Clodfelter, 2017-04-24 In its revised and updated fourth edition this exhaustive encyclopedia provides a record of casualties of war from the last five centuries through 2015 with new statistical and analytical information Figures include casualties from global terrorism the wars in Iraq and Afghanistan and the fight against the Islamic State New entries cover an additional 20 armed conflicts between 1492 and 2007 not included in previous editions Arranged roughly by century and subdivided by world region chronological entries

include the name and dates of the conflict precursor events strategies and details the outcome and its aftermath **Armed Conflict and Environmental Damage** Dr. U C Jha,2014-08-01 Armed conflict and military activities have serious adverse impacts on the environment Modern weaponry troop movements landmines hazardous military waste and the destruction of forests for military use are a few sources of harm to the environment both during armed conflict and peacetime military activities Ecological assaults in combat areas are often kept a secret by the government resulting in even greater humanitarian and environmental harm Environmental degradation is increasingly being recognized as one of the most significant challenges of the 21st century and its effects are being felt worldwide Both domestic and international legislations have been inadequate in mitigating the impact of military activities This book provides details of the environmental destruction wreaked during international and non international armed conflicts and argues that the existing legal regime for the protection of the environment during armed conflict requires substantial modification It puts forward the view that though it is inconceivable to impose an absolute ban on environmental damage during military operations strengthening and clarifying the existing laws protecting the environment in times of conflict and enforcing environment friendly practices among military forces could go a long way in protecting natural assets of our earth **To War is Human** Pasquale De Marco,2025-07-16 To War is Human is a comprehensive exploration of the multifaceted nature of war delving into its causes consequences and profound impact on humanity This thought provoking volume encompasses history law ethics and politics providing a comprehensive perspective on the complexities of armed conflict War a persistent and devastating force throughout human history is a complex phenomenon with far reaching implications Its causes are diverse and multifaceted ranging from territorial disputes and ideological differences to economic and political factors The consequences of war are equally devastating leaving scars on individuals societies and the environment The book delves into the history of war examining its evolution from ancient battles to modern conflicts It explores the role of war in shaping civilizations driving technological advancements and influencing cultural norms The impact of war on individuals from soldiers to civilians is also examined shedding light on the psychological and emotional toll of armed conflict The legal frameworks governing war embodied in conventions and treaties are analyzed in depth These frameworks aim to regulate the conduct of armed conflict protect civilians and uphold human rights The challenges of enforcing these laws and the ongoing debates surrounding their effectiveness are also explored The ethical dimensions of war are explored through the lens of just war theory pacifism and the responsibility to protect These frameworks provide guidance on when why and how war can be justified raising profound questions about the morality of armed conflict and the tension between protecting innocent lives and the tragic consequences of violence If you like this book write a review **Military Medical Ethics in Contemporary Armed Conflict** Michael L. Gross,2021 Integrating the ethics of medicine and the ethics of war Military Medical Ethics in Contemporary Armed Conflict offers theorists and practitioners clinicians and commanders the tools they need to distribute scarce medical

resources in wartime Emphasizing that military medicine's goal is to maintain unit readiness and the force capabilities necessary to wage just war Michael L Gross instructs readers on when and how compatriot and host nation war fighters local civilians detainees and veterans should receive medical attention Readers will see how medicine functions also as a weapon of war To this end military forces deploy medical care to win local hearts and minds and harness medical science to enhance war fighter capabilities

Civilian Protection in Armed Conflicts Robert Schütte, 2014-10-29 The study analyzes three themes first the evolution of the concept of civilians in the course of human history and secondly the situation and victimization of civilians in armed conflict since 1990 and third how the international community since the end of the Cold War to protect civilians has monitored by the mandating robust UN peacekeeping missions The United Nations Mission in the Congo functions as a case study

The Law of Armed Conflict and the Use of Force Frauke Lachenmann, Rüdiger Wolfrum, 2017 This volume collects articles on the law of armed conflict and the use of force from the Max Planck Encyclopedia of Public International Law to facilitate easy access to content from the leading reference work in international law

Routledge Handbook of the Law of Armed Conflict Rain Liivoja, Tim McCormack, 2016-04-28 The law of armed conflict is a key element of the global legal order yet it finds itself in a state of flux created by the changing nature of warfare and the influences of other branches of international law The Routledge Handbook of the Law of Armed Conflict provides a unique perspective on the field covering all the key aspects of the law as well as identifying developing and often contentious areas of interest The handbook will feature original pieces by international experts in the field including academics staff of relevant NGOs and former members of the armed forces Made up of six parts in order to offer a comprehensive overview of the field the structure of the handbook is as follows Part I Fundamentals Part II Principle of distinction Part III Means and methods of warfare Part IV Special protection regimes Part V Compliance and enforcement Part VI Some contemporary issues Throughout the book attention is paid to non international conflicts as well as international conflicts with acknowledgement of the differences The contributors also consider the relationship between the law of armed conflict and human rights law looking at how the various rules and principles of human rights law interact with specific rules and principles of international humanitarian law in particular circumstances The Routledge Handbook of the Law of Armed Conflict provides a fresh take on the contemporary laws of war and is written for advanced level students academics researchers NGOs and policy makers with an interest in the field

Sociology in Today's World Brian Furze, Cengage Learning Australia, Pauline Savy, 2014 Sociology in Today's World explores why sociology is important and relevant to everyday life It teaches students how to think sociologically not just what to think and shows how sociology can help us make sense of our lives It comprehensively covers key aspects and current issues in Australian and New Zealand society whilst emphasising the importance of diversity and a global perspective

[An Introduction to Public International Law](#) Cecily Rose, Niels Blokker, Daniëlla Dam-de Jong, Simone van den Driest, Robert Heinsch, Erik Koppe, Nico Schrijver, 2022-03-03

Provides an accessible balanced and nuanced introduction to public international law with examples of how the law applies in practice Handbook of Globalisation and Tourism Dallen J. Timothy, 2019-12-27 Globalization entails the world becoming a smaller place through political socio cultural and economic processes These processes have salient implications for tourism and tourism itself is one of the driving forces behind globalization This book is a collection of conceptual treatises by international scholars about the dynamics and reach of globalization and its relationships with tourism It anatomizes and deconstructs the global forces processes and challenges that face the world of tourism It is international in scope encyclopedic in its conceptual depth empirically evocative and contemporary in its coverage **War and the Historic**

Environment Michael Dawson, 2024-07-19 This book explores how societies deal with the effects of war on the historic environment Written by historians archaeologists and conservation professionals it offers a dramatic perspective on the war in Ukraine It reveals the truth behind the Kremlin s just war narrative and touches on the complex relationship between war society and the historic environment with examples of heritage conservation archaeology and political expediency from Europe to Namibia Prompted by the Russian invasion of Ukraine in 2022 the first section Frontline Ukraine examines the manipulation of history the use of propaganda and the decolonisation of Russian memorials in former Soviet states It highlights how illegal archaeological excavations looting and the removal of museum collections beginning from seizure of Crimea in 2014 until the present day have contributed to an increasingly implausible Russian narrative which attempts to represent an imperial land grab as a just war In the second section Aspects of War the authors provide a wider perspective with chapters on the influence of film the effect of war on conservation forensic archaeology the reconstruction of damaged or destroyed museums as well as the relationship between America and the Hague Convention Topical and lucid this volume will be beneficial to students and researchers of history archaeology politics and international relations The chapters in this book were originally published in *The Historic Environment Policy Practice* and are accompanied by an updated introduction and a new conclusion Post-War Instability and Human Security in Nepal Purna Bahadur Karki, 2024-12-30 This book

studies post war instability in Nepal and its effect on human security It looks at Nepal s Maoist People s War the Nepali peace building process and political development in Nepal Drawing on in depth interviews the book discusses multiple issues of the peace building process including education health economics income gender inequality human rights and the sociopolitical inclusion of marginal people and backward communities The author also explores the relationship between peace building and the broader concept of freedom examining factors that affect Nepali determination The book will be useful for students and researchers of politics peace and conflict studies sociology development studies strategic and security studies contemporary history international relations Nepal studies and South Asian studies Military Investigations in Armed Conflict Claire Simmons, 2024-04-02 An allegation is made that a war crime was committed by a soldier during a conflict Who should investigate the allegation How should they investigate This book explores a topic of critical importance

in legal and policy discussions surrounding the accountability of military operations in armed conflict and problematises some presumptions that are often made about the topic The work provides the international legal framework necessary to address these questions and establishes the precise standards of independence and impartiality as applicable to investigations in armed conflict It questions the assumption that the standards of independence and impartiality of investigations should be measured in the same way that we measure these standards for judges courts and tribunals It also explores the ways in which military institutions and culture as well as the context of armed conflict may impact on the effectiveness of investigations or the perception of justice by those affected By demonstrating the precise ways in which military investigations can contribute to or hinder the effectiveness of investigations the book clarifies States responsibilities with regard to their accountability efforts for serious violations of international law in armed conflict The work will be a valuable resource for academics researchers and policy makers working in the areas of international humanitarian law international human rights law as well as political science and military ethics
