Armenia And Karabagh The Struggle For Unity Minority Rights Publications:

Armenia and Karabagh: the struggle for unity Christopher J. Walker, 1991-12-31 Despite a history of persecution oppression and dispersion the Armenian people continue to display a determination for survival and a high degree of national self awareness Yet perestroika and glasnost found Soviet Armenia unprepared for the re emergence of Armenian political nationalism The focus of this book is on an issue crucial to Armenian identity the disputed territory of Mountainous Nagorno Karabagh in neighbouring Azerbaijan For centuries a centre of Armenian culture and intellectual life and with an Armenian majority Karabagh or Artsakh has consistently been denied an Armenian identity by successive Russian British and Azeri rulers Since 1920 Armenians of Karabagh have been immured against their will in Azerbaijan and deprived of many basic rights Today the majority people of Karabagh still define themselves as Armenian and continue the struggle for unification with the Republic of Armenia despite a crippling economic blockade A unique work on the subject this book also presents an objective history of the Armenian people in the USSR T rkiye and the diaspora Please note that the terminology in the fields of minority rights and indigenous peoples rights has changed over time MRG strives to reflect these changes as well as respect the right to self identification on the part of minorities and indigenous peoples At the same time after over 50 years work we know that our archive is of considerable interest to activists and researchers Therefore we make available as much of our back catalogue as possible while being aware that the language used may not reflect current thinking on these issues

World Directory of Minorities Bridget Anderson, James Chin, John Connell, Patrick Costello, Lindsey Crickmay, Chris Dammers, James Ferguson, David Hawk, David McDowall, Anna Matveeva, Julia Maxted, Neil Melvin, Peter O'Neill, Suzanne Pattle, Martyn Rady, Javaid Rehman, Alex Roslin, Nikhil Roy, David Sogge, Bogdan Szajkowski, Carl Wilson, Abebe Zegeye, 1997-01-01 This publication is the first version of the World Directory of Minorities and Indigenous Peoples published in 1997 The full Directory is now available and continually updated on our website The large majority of violent conflicts in the world today are conflicts within states with groups polarized across ethnic and religious divides and not across borders Ethnic religious and linguistic minorities are often among the poorest of the poor suffer discrimination and are frequently the victims of human rights abuses Time and time again in the past the United Nations system governments and even non governmental organizations NGOs working in the field of conflict prevention have failed to promote the human rights of minorities or to take early action to promote cooperation between communities Early action may have prevented the loss of millions of lives in many countries ranging from Rwanda to the former Yugoslavia and from Sri Lanka to Guatemala It is also significant that the Nobel Peace Prize was awarded to the Dalai Lama in 1989 and to Jose Ramos Horta and Bishop Carlos Belo in 1996 as a result of their peaceful campaigns to promote the rights of their people The situation of minorities is then a matter of major concern and it is essential that accurate objective and up to date information is made available This Directory contributes to that process It is difficult to assess accurately what proportion of the world s population identify themselves as

belonging to minority communities Conservative estimates place this above 10 per cent and some suggest that more than 20 per cent of the world's population belongs to several thousand different minority groups and subgroups National statistics are often skewed for political reasons and there is no universally accepted definition of minorities The word has different interpretations in different societies throughout the world while the United Nations General Assembly has not sought to reach a definition beyond that implied in the title of the UN Declaration on the Rights of Persons belonging to National or Ethnic Religious and Linguistic Minorities adopted in December 1992 Minority Rights Group focuses its work on non dominant ethnic religious and linguistic communities whether or not they are numerical minorities The concept thus relates to any self identified community that is marginalized without power unable to take decisions over its destiny and often experiencing high levels of illiteracy under education and overt or covert discrimination The basic rights of such communities need protection and promotion There is however a danger of generalizing about minorities and forgetting the complexity of their social composition including the rural poor urban migrants older people women and children These groups may be considered as doubly vulnerable What makes their situation particularly problematic is that there is often a deliberate political policy on the part of majorities and states not to give due regard to the legitimate interests of minorities while members of minorities see their identity as central to their social and economic situation They are often excluded from political power and decision making in the development process without equal opportunities to secure a better quality of life One further danger may lie in regarding ethnicities as fixed rather than as the potentially fluid phenomena that they often are Situational ethnicity does occur and individuals and groups do modify their self identifications depending on circumstances Please note that the terminology in the fields of minority rights and indigenous peoples rights has changed over time MRG strives to reflect these changes as well as respect the right to self identification on the part of minorities and indigenous peoples At the same time after over 50 years work we know that our archive is of considerable interest to activists and researchers Therefore we make available as much of our back catalogue as possible while being aware that the language used may not reflect current thinking on these issues

Negotiating Armenian-Azerbaijani Peace Ohannes

Geukjian, 2016-04-22 Conflict resolution conflict management and conflict transformations are major themes in this unique

book which examines explores and analyses the mediation attempts of the Organization for Security and Cooperation in Europe in the Nagorno Karabakh conflict Ohannes Geukjian shows the most striking characteristic of a protracted internal conflict such as this is its asymmetry and explains that without meeting basic human needs like identity recognition security and participation resolving any protracted social conflict is very difficult The Armenian Azerbaijani case demonstrates how official diplomacy may not be able to solve protracted internal conflicts as without addressing the real causes of the problematic relationship attempts at peace making will always be sporadic and the space for mutual understanding and compromise shrink Geukjian shows that conflict transformation has a particular salience in asymmetric conflicts such as this where the goal is to transform unjust relationships and where a high degree of polarisation between the disputants has taken root Using the Nagorno Karabakh case this book focuses on the anatomy and causes of deadlock in negotiations and highlights the many difficulties in achieving a breakthrough

Armenia and Karabagh Christopher J. Walker, 1991 Conclusion Looking to the future Modern Hatreds Stuart J. Kaufman, 2015-06-22 Ethnic conflict has been the driving force of wars all over the world yet it remains an enigma What is it about ethnicity that breaks countries apart and drives people to acts of savage violence against their lifelong neighbors Stuart Kaufman rejects the notion of permanent ancient hatreds as the answer Dissatisfied as well with a purely rationalist explanation he finds the roots of ethnic violence in myths and symbols the stories ethnic groups tell about who they are Ethnic wars Kaufman argues result from the politics of these myths and symbols appeals to flags and faded glories that aim to stir emotions rather than to address interests Popular hostility based on these myths impels groups to follow extremist leaders invoking such emotion laden ethnic symbols If ethnic domination becomes their goal ethnic war is the likely result Kaufman examines contemporary ethnic wars in the Caucasus and southeastern Europe Drawing on information from a variety of sources including visits to the regions and dozens of personal interviews he demonstrates that diplomacy and economic incentives are not enough to prevent or end ethnic wars The key to real conflict resolution is peacebuilding the often overlooked effort by nongovernmental organizations to change hostile attitudes at both the elite and the grassroots levels *The Armenians* Edmund Herzig, Marina Kurkchian, 2004-11-10 A comprehensive introduction to the historical forces and recent social and political developments that have shaped today s Armenian people With contributions from leading Armenian American and European specialists the book focuses on identity formation exploring how the Armenians perceptions of themselves and their place in the world are informed by their history culture and present day situation The book also covers contemporary politics economy and society and relates these to ongoing debates over future directions for the Armenian people both in the homeland and in the diaspora communities *International Handbook of Multigenerational Legacies of Trauma* Yael Danieli, 2013-03-09 In this extraordinary new text an international array of scholars explore the enduring legacy of such social shocks as war genocide slavery tyranny crime and disease Among the cases addressed are instances of genocide in Turkey Cambodia and Russia the plight of the families of Holocaust survivors atomic bomb survivors in Japan and even the children of Nazis the long term effects associated with the Vietnam War and the war in Yugoslavia and the psychology arising from the legacy of slavery in America **No Longer Invisible: Afro-Latin Americans Today**, 1995-06-01 Latin Americans of African ancestry have historically been an oppressed and neglected minority Almost all

descended from slaves and numbering perhaps 125 million people they have generally been denied access to power influence or material progress While Afro Latin Americans have frequently challenged their oppression with some success and have seen many aspects of their culture absorbed into mainstream Latin American life persistent myths of colour blind racial democracy and blanqueamiento whitening mask the insidious and often brutal reality of the discrimination they face Written by scholars from many countries No Longer Invisible charts the Afro Latin American experience from slavery to contemporary times showing the contrasts as well as the similarities across the region Intended both for specialists and for interested general readers the book makes an important contribution to the study of racism and anti racism in Latin America today The distinct but extraordinarily diverse ethnic and cultural identities of Afro Latin Americans have received little official recognition But today a growing movement is voicing pride in the Afro Latin American heritage asserting common identities and working to defend and advance collective rights This fascinating book provides a major human rights focused survey that aims to reflect and be part of that process of rediscovery and renewal Each chapter considers a particular country or subregion The authors discuss the historical background the legacy of resistance to oppression how members of the minorities see themselves their culture the contemporary experience of discrimination contrasting ethnic identities assumed by women and men collective aspirations the struggle for equality and future prospects The book also includes a wide ranging general introduction a final chapter that poses fundamental questions about comparative race relations in the Americas and beyond a regional population map and black and white photographs Please note that the terminology in the fields of minority rights and indigenous peoples rights has changed over time MRG strives to reflect these changes as well as respect the right to self identification on the part of minorities and indigenous peoples At the same time after over 50 years work we know that our archive is of considerable interest to activists and researchers Therefore we make available as much of our back catalogue as possible while being aware that the language used may not reflect current thinking on these issues
