Leaders and Battles W.J. Wood,2009-04-23 No one man can win a battle by himself but battles have been won and lost because of the strength or failings of one individual the leader What went on in the minds and hearts of a select group of military leaders at critical moments in battle is the theme of this book In Leaders and Battles W J Wood re creates ten battles from history depicting the action in vivid detail the brilliant formations charging horses clanking bayonets The point of view is always that of the commanding officer The particular quality of leadership that won or lost the encounter is very clear For Mad Anthony Wayne at Stony Point it was courage that won the day For Scipio Africanus at Ilipa it was imagination Custer s judgment at the Little Big Horn was definitely in question When the French stormed Ratisbon it was the inspiration of Lannes that broke the impasse At the battle of Bushy Run Bouquet could never have outwitted Pontiac had he lacked flexibility The dynamics of battle as well as the strategy and tactics involved are equally well demonstrated Though the means of fighting varied as much as the time and the civilizations involved the lessons learned are just as applicable today Men no longer fight with drawn swords make barricades out of mealie bags or use a swarm of bees as a weapon But that is part of this book s fascination Leaders and Battles is a remarkable retelling of fighting engagements for the armchair strategist the leader in training the history buff and the general reader It will take time before the major wars and low intensity skirmishes of this century can be written about with the historical detachment and understanding that the author displays here In the meantime we can all profit from these lessons of history <u>Dictionary of Military Leaders: A Journey Through History</u> Pasquale De Marco,2025-03-07 Dictionary of Military Leaders A Journey Through History is an immersive exploration of the lives and achievements of 200 of the most influential military leaders throughout history This comprehensive guide offers a captivating narrative that spans centuries and continents providing readers with a deeper understanding of the strategies tactics and leadership qualities that have shaped the course of human history From the ancient battlefields of Greece and Rome to the modern theaters of conflict in the Middle East this book delves into the minds and motivations of legendary commanders examining their triumphs and setbacks and offering valuable lessons in leadership strategy and crisis management Within these pages readers will encounter a diverse cast of military luminaries including Alexander the Great
